Q0001

Class 6 (Motorcycle)

Motorbike - Motorbike-Specific

DT Driver Training (Extended)

A correct fitting helmet should be:

[A] A snug fit

✓ Correct

[B] A loose fit

[C] A relaxed fit

[D] A tight fit

Q0002

Class 6 (Motorcycle)

Bike-specific

Official NZTA / Waka Kotahi

Multiple Answers

A large piece of wood is right in front of you while driving on a suburban street and there is no other option than to driver over it. What should you do to keep control? Check all that apply.

[A] Jump off the bike

[B] Rise slightly in your seat

✓ Correct

[C] Straighten up the bike

✓ Correct

[D] Loosely hold the grips to absorb any shock

Explanation: You should hold onto the hand grips firmly and straighten up the bike, rise slightly in your seat, and keep a neutral balance.

Q0003

Class 6 (Motorcycle)

Bike-specific

Official NZTA / Waka Kotahi

A learner motorcyclist is on an open road, what is the maximum speed?

[A] 50kph

[B] 60kph

[C] 80kph

[D] 100kph

✓ Correct

Explanation: Since Oct. 1 2011, a learner motorcyclist can drive on open road at a maximum of 100kph.

Q0004

Class 6 (Motorcycle)

Bike-specific

Official NZTA / Waka Kotahi

Multiple Answers

A motorbike is often not seen by other road users, why is this? Select all that apply.

[A] Drivers of other vehicles fail to look

[B] Motorcyclists wear dark colours and are hard to see

[C] Compared to a car a motorcycle has a small profile

✓ Correct

[D] Saccades - minute eye movements that render us blind for fractions of a second at a time

✓ Correct

Explanation: Although drivers usually look, they don't see motorbikes because they are small and may be hidden by road signage or other vehicles. There are scenarios where your bike can be missed if the driver just takes ones glance as we are technically 'blind' between saccades, which are...

Q0005

Class 6 (Motorcycle)

Bike-specific

Official NZTA & DT Driver Training

Multiple Answers

A motorcyclist is required to wear what by law? Check all that apply.

[A] Helmet

✓ Correct

[B] Gloves

[C] Reflective vest

[D] Long trousers

[E] Boots

Explanation: By New Zealand law, a motorcyclist is required to wear an approved, securely fastened safety helmet at all times when riding on the road.

Q0006

Class 6 (Motorcycle)

Bike-specific

Official NZTA / Waka Kotahi

An engine seizure is caused by:

- [A] Changing up a gear too early
[B] Not changing gear properly

[C] Not enough lubrication in the engine

✓ Correct

[D] Damp weather

Explanation: A lack of lubrication causes engine seizure because without oil, the engine's moving parts can't move smoothly against one another. This causes the engine to overheat.

Q0007

Class 6 (Motorcycle)

Behaviour

Official NZTA / Waka Kotahi

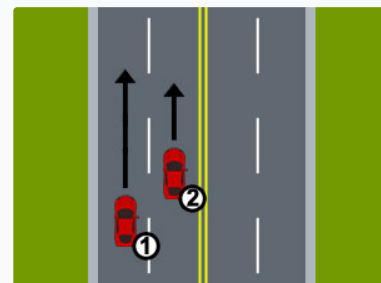

Are you permitted to pass like this on the left?

[A] Yes

✓ Correct

[B] No

Explanation: You are permitted to pass on the left if there are two lanes on your side of the road and it's safe to do so.

Q0008

Class 6 (Motorcycle)

Behaviour

Official NZTA / Waka Kotahi

Are you permitted to pass on a solid yellow line?

[A] No

[B] Yes

[C] If you can make the pass without crossing the yellow line and can see 100m in front of you for the whole time you are passing then you can pass

✓ Correct

Explanation: As long as you stay to the left of the yellow line in this situation then you can pass a car.

Q0009

Class 6 (Motorcycle)

Motorbike - Motorbike-Specific

DT Driver Training (Extended)

Before going through a right hand curve, what is it best to do?

- [A] Move to the left of the road
[B] Move to the right of the road

[C] Brake before the curve

✓ Correct

Explanation: Positioning your motorbike for a right-hand turn While the correct answer in the Road Code quiz is to slow down, in real riding it's likely that you will move slightly to the left. This is because it gives you a better view around the corner (the Limit Point of View), and...

Q0010

Class 6 (Motorcycle)

Core

Official NZTA & DT Driver Training

Before you pass another vehicle, how long should you signal for?

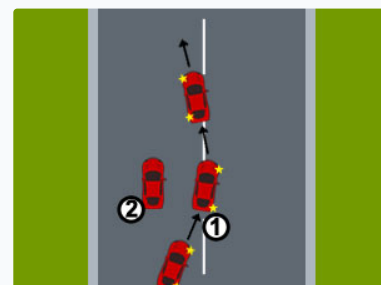

- [A] One second
[B] Four seconds

[C] Three seconds

✓ Correct

[D] If there is another vehicle coming towards you or one coming behind you then you need to signal

Explanation: Signalling before overtaking You should signal for at least three seconds before passing another vehicle. Signalling is only a small part of the overtaking process. You will need to get into the overtaking position, read the road ahead for dangers, judge your speed and that of...

Q0011

Class 6 (Motorcycle)

Parking

Official NZTA / Waka Kotahi

Can you stop or park your vehicle anytime at a broken yellow line painted close to the edge of the road? True or False?

[A] TRUE

[B] FALSE

✓ Correct

Explanation: You can't park your vehicle on a broken yellow line.

Q0012 Class 6 (Motorcycle) Bike-specific Official NZTA & DT Driver Training Multiple Answers

Check all of the motorbike helmet standards that are acceptable in New Zealand:

- [A] UNECE Regulation No. 22 ✓ Correct
- [B] Australian Standard AS 1698 ✓ Correct
- [C] New Zealand Standard NZS 5430 ✓ Correct
- [D] British Standard BS 6658 ✓ Correct
- [E] Japan Industrial Standard T8133 ✓ Correct

Explanation: Your helmet will come with a sticker on it to show which standard it complies with. More information is available here about helmet standards. If you want a helmet cam we have guidelines here . If you are choosing your first helmet we have a guide to the different types of...

Q0013 Class 6 (Motorcycle) Bike-specific Official NZTA & DT Driver Training Multiple Answers

Check all those that apply as to why face protection is important when on a motorcycle?

- [A] It protects the rider's identity as other road users won't be able to distinguish who the rider is
- [B] The rider's eyes and face are protected from wind, rain, insects, dust and other debris ✓ Correct
- [C] It keeps the face of the rider warm in cooler temperatures
- [D] It's impossible to breath without one above 80kph

Explanation: Face protection (such as a full-face helmet visor or goggles) protects the rider's eyes and face from wind, rain, insects, and flying road debris, ensuring clear vision.

Q0014 Class 6 (Motorcycle) Bike-specific Official NZTA / Waka Kotahi

Counter steering best enables you to do what?

- [A] Maintain a straight line
- [B] Swerve around an object ✓ Correct
- [C] Controls the bike around corners

Explanation: Counter steering is a way of turning quickly on a motorcycle.

Q0015 Class 6 (Motorcycle) Bike-specific Official NZTA & DT Driver Training

Cross winds can occur when?

- [A] When it's bad weather out
- [B] As a large truck approaches you
- [C] As you leave the protection of a building ✓ Correct

Explanation: Riding a motorbike in crosswinds While you are sheltered by a building you are in its lea. You can also be sheltered when you overtake a heavy vehicle, as you ride past a hedge, along a road with high banks or when you are in a tunnel, too. Watch out for exposed areas such as...

Q0016 Class 6 (Motorcycle) Bike-specific Official NZTA / Waka Kotahi

Engine seizure is usually imminent when:

- [A] Loss of power and a change in the sound ✓ Correct
- [B] More power
- [C] Shrieks and pops coming from the exhaust
- [D] Blue and red smoke emerging from the unit

Explanation: Correct. The power drops and there may be a change in the engine tone, as well when an engine is about to seize.

Q0017 Class 6 (Motorcycle) Bike-specific Official NZTA / Waka Kotahi

Holding your knees against the petrol tank will help you do what the most?

- [A] Build strength to help with control
- [B] Go faster
- [C] Better mileage
- [D] Balance ✓ Correct

Explanation: The main benefit of holding your knees is that it will help you to balance and may make you more aerodynamic.

Q0018

Class 6 (Motorcycle)

Bike-specific

Official NZTA / Waka Kotahi

How much braking is generated from using the front wheel?

[A] 0.5

[B] 0.6

[C] 0.7

[D] More than 70%

✓ Correct

Explanation: 75-90% of the braking performance comes from the front brake.**Q0019**

Class 6 (Motorcycle)

Bike-specific

Official NZTA / Waka Kotahi

How often does your motorcycle require a Warrant of Fitness inspection if your motorcycle was first registered before the 1st of January 2000?

[A] 12 months

[B] 6 months

✓ Correct

[C] 2 years

[D] 1.5 years

Explanation: You will need to take it for a WoF every six months if your bike was first registered before 1 January 2000.**Q0020**

Class 6 (Motorcycle)

Bike-specific

Official NZTA / Waka Kotahi

How should the fastest stops be made?

[A] Regressive braking

[B] Progressive braking

✓ Correct

[C] High impact braking

[D] Hesitant braking

Explanation: Apply enough braking force to start the transfer of weight to the front wheel, then progressively increase the force on the front brake to make full use of the front tyre gripping the road surface, this is progressive braking. As you slow down release brake pressure to avoid...**Q0021**

Class 6 (Motorcycle)

Motorbike - Motorbike-Specific

DT Driver Training (Extended)

Hypothermia is a term that is used to describe a condition motorcyclists can suffer from. What could cause hypothermia?

[A] Too much clothing

[B] Lack of water causes dehydration

[C] Sun exposure and glare causes eye strain

[D] Not enough clothing means the rider gets cold

✓ Correct

Explanation: How to avoid injuries when riding a motorbike If you want to see how bad your scars can be if you have an accident without wearing protective clothing, check this video out. The lady in question had a helmet on, but no other protective gear. She crashed and slid up the road for...**Q0022**

Class 6 (Motorcycle)

Bike-specific

Official NZTA & DT Driver Training

If an oncoming vehicle seems ready to cross your path, what should you do?

[A] Speed up and move to the right side of your lane

[B] Speed up and move to the left side in your lane

[C] Slow down and move to the right hand side of your lane

[D] Slow down and move to the left hand side in your lane

✓ Correct

Explanation: Anticipating danger with oncoming vehicles Always assume that if a driver could cross your path, it's possible. We're all fallible and when riding a motorbike you represent a fast-moving object with a small profile which is difficult to see. It is easy to ride in blind spots,...

Q0023

Class 6 (Motorcycle)

Motorbike - Motorbike-Specific

DT Driver Training (Extended)

Multiple Answers

If another rider or driver follows you too closely, what two things could you do?

[A] Speed up so you're not holding them up

[B] Give them the opportunity to pass by moving left, if appropriate

✓ Correct

[C] Hold your line

[D] Increase the distance between you and any vehicle ahead

✓ Correct

Explanation: Riding with tailgaters: what to do While pulling to the left is the obvious thing to do you should also assess your own riding. Are you holding drivers and other riders up? Why would this be? If you are a novice rider it is understandable that you would be riding slower than...

Q0024

Class 6 (Motorcycle)

Behaviour

Official NZTA / Waka Kotahi

Multiple Answers

If the vehicle behind you starts to pass you, what should you do? Select all that apply.

[A] Move over to the far left hand side of the road

✓ Correct

[B] Maintain your speed

✓ Correct

[C] The left of the lane is more dangerous so remain in the middle of your lane

[D] Be prepared to slow down to ensure a safe passing manoeuvre

✓ Correct

Explanation: When you change to the left lane, don't drive on the verge and stay on the road. Road sweepers can move debris off the main road surface and moving too far over can cause a puncture. Staying in the middle of your lane isn't required it just makes it more dangerous for the other...

Q0025

Class 6 (Motorcycle)

Bike-specific

Official NZTA & DT Driver Training

If you don't turn off your indicator, what is the danger?

[A] It will irritate other drivers which could cause road rage

[B] Other drivers may pull into your path, thinking you'll turn

✓ Correct

[C] Other drivers may think you're going straight and may turn in front of you

Explanation: Many motorbikes have self-cancelling indicators, but some don't. The self-cancelling can work on a timer or distance travelled or the difference between front and rear wheel speed, but if you get used to doing it yourself then you know it will have worked because leaving your...

Q0026

Class 6 (Motorcycle)

Motorbike - Motorbike-Specific

DT Driver Training (Extended)

If you hold your knees against the petrol tank as you ride, what will it do?

[A] Stop you from getting cold

[B] Go faster

[C] Improve fuel economy

[D] Balance as the motorbike turns

✓ Correct

Explanation: Achieving maximum control when you are riding your motorbike Having your arms slightly bent gives you the most control. This is because you have pulling and pushing force available in both arms. If you arms are straight and locked then you don't have any pushing force available...

Q0027

Class 6 (Motorcycle)

Road-position

Official NZTA / Waka Kotahi

Multiple Answers

If you intend to move your vehicle from the right-hand lane to the left-hand lane, what must you do? Check all that apply.

[A] Indicate left for three seconds

✓ Correct

[B] Check your blind spot over your left shoulder

✓ Correct

[C] Look in your rear view mirror

✓ Correct

Explanation: All three of these things you should do.

Q0028

Class 6 (Motorcycle)

Bike-specific

Official NZTA & DT Driver Training

If you make a sudden direction or change speed on a slippery surface what can happen?

[A] You can lose control if your front wheel skids

[B] You can lose control if your back wheel skids

[C] You can lose control if either your front or your back wheels skid

✓ Correct

Explanation: Braking and avoiding objects while on a motorbike The front brake assumes about 75-90% of the braking performance when you brake on a bike, depending on the style of bike . A sport bike will take more braking on the front wheel, whereas a cruiser carries more weight over the...

Q0029

Class 6 (Motorcycle)

Bike-specific

Official NZTA / Waka Kotahi

If you need to slow in a curve, how should you do it?

[A] Use both brakes gently

✓ Correct

[B] Only use the front brake gently

[C] Only use the rear brake gently

Explanation: Correct. Always brake on the straight before it's too late, brake gently and try to avoid having to slow in a curve all together. Note that in this situation some motorcycle instructors advise you to only use the rear brake, which contradicts NZTA's information on this question.

Q0030

Class 6 (Motorcycle)

Bike-specific

Official NZTA & DT Driver Training

If your chain breaks, how will you notice?

[A] The engine dies and you lose power

[B] Engine over-revs and you lose power

✓ Correct

Explanation: Mechanical failure in motorbikes The types of mechanical failure that would give the largest cause for concern when riding your bike are engine seizure, brake failure, tyre failure and your chain breaking. If your chain breaks the engine will rev higher and you will lose power....

Q0031

Class 6 (Motorcycle)

Emergencies

Official NZTA / Waka Kotahi

Multiple Answers

If your vehicle breaks down on a motorway, what should you do? Select all that apply.

[A] Get out on the motorway and flag someone down to stop and help

[B] Open your boot and bonnet

✓ Correct

[C] Turn your hazard lights on

✓ Correct

[D] Call for assistance using your cell phone or a motorway phone.

✓ Correct

[E] Park as far to the left as possible

✓ Correct

Explanation: You should hang something white on your car door handle and open your boot and bonnet to indicate you need help. Put on your hazard lights, keep away from the motorway and call for help.

Q0032

Class 6 (Motorcycle)

Theory

Official NZTA / Waka Kotahi

If your vehicle is not up to warrant of fitness standard, can you be fined if it is on the road?

[A] Yes

✓ Correct

[B] No

Explanation: Correct. If something appears to not be up to warrant of fitness standard then a police office can inspect your call by pulling you over.

Q0033

Class 6 (Motorcycle)

Bike-specific

Official NZTA / Waka Kotahi

In a line of stopped or moving traffic, what should you do?

[A] Drive on the right past the traffic

[B] Drive on the left past the traffic

[C] Stay in the centre of your lane

✓ Correct

[D] Stay in the right hand side of your lane

[E] Stay in the left hand side of your lane

Explanation: Be as visible as possible by staying in the middle of your lane and protect your lane position from other vehicles. Avoid squeezing by other traffic to reduce your risk of an accident.

Q0034

Class 6 (Motorcycle)

Bike-specific

Official NZTA / Waka Kotahi

In a situation when you are passing parked vehicles, the main dangers include: vehicles pulling out without signalling or vehicles making U-turns when you are passing parked vehicles. True or false?

[A] TRUE

✓ Correct

[B] FALSE

Explanation: Yes. A motorcyclist has an advantage over drivers when passing parked vehicles because, by staying in the right-hand lane one can avoid problems like drivers getting out of other vehicles, doors opening or people stepping out from between vehicles.

Q0035

Class 6 (Motorcycle)

Behaviour

Official NZTA / Waka Kotahi

In addition to checking to see if it is safe to move out from the kerb into the traffic flow, how long should you indicate for?

[A] 1 second

[B] 2 seconds

[C] 3 seconds

✓ Correct

[D] 5 seconds

Explanation: A safe time to signal for is three seconds.

Q0036

Class 6 (Motorcycle)

Bike-specific

Official NZTA & DT Driver Training

Is the following statement true or false? Motorcycles do not have blind spots.

[A] TRUE

[B] FALSE

✓ Correct

Explanation: Blind spots when driving We have blind spots in a vehicle because we have limited peripheral vision in our eyes, and our view is obstructed either by the vehicle's pillars or, if you are riding a motorbike, the helmet. Our field of view is almost 200 degrees , but on the edges...

Q0037

Class 6 (Motorcycle)

Bike-specific

Official NZTA & DT Driver Training

It is best to place the beginner driver where when riding in groups?

[A] Front

✓ Correct

[B] Middle

[C] Back

[D] On the opposite side of the road

Explanation: Riding in a group with beginner riders Beginner riders don't need the peer pressure of having to keep up with experienced riders. Give them encouragement and tell them to ride at their own speed. Beginner riders should take regular breaks because they will become fatigued more...

Q0038

Class 6 (Motorcycle)

Bike-specific

Official NZTA / Waka Kotahi

Motorcyclists can suffer from Hypothermia. What could cause this?

[A] Not enough clothing

[B] Dehydration

[C] Lack of food

[D] Wind

✓ Correct

Explanation: Your core body temperatures drop dangerously low with Hypothermia, reducing your reflexes. It can be deceptive as even on a nice day hypothermia can occur due to the wind chill.

Q0039

Class 6 (Motorcycle)

Bike-specific

Official NZTA & DT Driver Training

On a motorbike which brake is the most powerful?

[A] Air brake

[B] Rear brake

[C] Front brake

✓ Correct

Explanation: Braking and avoiding objects while on a motorbike The front brake assumes about 75-90% of the braking performance when you brake on a bike, depending on the style of bike . A sport bike will take more braking on the front wheel, whereas a cruiser carries more weight over the...

Core

Official NZTA / Waka Kotahi

On a sealed road at a Give Way sign, what is the colour of the painted line?

[A] Yellow

[B] Blue

[C] White

✓ Correct

Explanation: The line is white.

Q0041 **Class 6 (Motorcycle)** **Bike-specific** **Official NZTA & DT Driver Training**

On a slippery surface, what brake(s) should be used?

[A] Only the rear

[B] Only the front

[C] Both, but use the back brake first as gently as possible

[D] Both, but use the front brake first and as gently as possible

✓ Correct

Explanation: Braking and avoiding objects while on a motorbike The front brake assumes about 75-90% of the braking performance when you brake on a bike, depending on the style of bike . A sport bike will take more braking on the front wheel, whereas a cruiser carries more weight over the...

Q0042 **Class 6 (Motorcycle)** **Core** **Official NZTA / Waka Kotahi**

Permitted you can do so safely, you may pass on the left at an intersection if:

[A] the vehicle beside you is going faster than the speed limit

[B] the vehicle behind is signalling a left turn

[C] you have your parking lights off

[D] the vehicle in front is signalling a right turn

✓ Correct

Explanation: You can pass left at an intersection if you are in another lane or in a turning bay or if a vehicle is indicating right and has moved over toward the right of their lane, then you can overtake on the left if it's safe to proceed and your vehicle will fit through the gap.

Q0043 **Class 6 (Motorcycle)** **Intersection** **Official NZTA / Waka Kotahi**

Should you stop when coming up to a stop sign, and if so, where should you stop?

[A] Behind the marked line

[B] Where you can see traffic coming in both directions

✓ Correct

[C] If you can see that nothing is coming then you don't need to stop

[D] On the yellow line with the front wheels of your vehicle

Explanation: Yes, you must stop at a stop sign and you must stop in such a way that you can see if other traffic is coming.

Q0044 **Class 6 (Motorcycle)** **Parking** **Official NZTA / Waka Kotahi**

The closest distance that your vehicle may be parked to a vehicle entrance is:

[A] One metre

✓ Correct

[B] Two metres

[C] Four metres

[D] Five metres

Explanation: Your vehicle can be parked 1 metre away, this gives vehicles space to turn out of and in to the entrance.

Q0045 **Class 6 (Motorcycle)** **Bike-specific** **Official NZTA / Waka Kotahi**

The main reason for wearing protective clothing is what?

[A] Makes for a smoother ride

[B] To help prevent serious injury or death

✓ Correct

[C] To help other drivers see you better

Explanation: In an accident, protective clothing can increase your chance of survival.

Q0046 **Class 6 (Motorcycle)** **Motorbike - Motorbike-Specific** **Official NZTA & DT Driver Training** **Multiple Answers**

What are the usual causes of skidding? Select all that apply

[A] overbraking on one or both wheels

✓ Correct

[B] heavy acceleration

✓ Correct

[C] changing direction suddenly

✓ Correct

[D] riding too fast on wet or unsealed roads

✓ Correct

Explanation: What is a skid? A skid is where one or more wheels locks, slides sideways or loses traction due to too much acceleration. A tyre's contact patch with the road defines how much of the tyre's surface touches the road at any one time. In general the larger the contact patch the...

Q0047

Class 6 (Motorcycle)

Bike-specific

Official NZTA & DT Driver Training

Multiple Answers

What can you do to avoid skidding on slippery surfaces? Check all that apply.

[A] Only use the back brake, there's less risk of skidding because it's less powerful

[B] Ride at reduced speed, especially around corners

✓ Correct

[C] Brake earlier than usual and allow more time

✓ Correct

[D] Use the front brake first

✓ Correct

[E] There's more tyre contact in the corners so you should brake there

Explanation: Braking and avoiding objects while on a motorbike The front brake assumes about 75-90% of the braking performance when you brake on a bike, depending on the style of bike . A sport bike will take more braking on the front wheel, whereas a cruiser carries more weight over the...

Official NZTA / Waka Kotahi

Multiple Answers

What does a Warrant of Fitness show? Select all that apply.

[A] The vehicle is safe to be on the road

[B] An approved WoF inspector has inspected the vehicle

✓ Correct

[C] The month the WoF expires

✓ Correct

Explanation: It's the driver's responsibility to ensure that the vehicle they are driving is safe and roadworthy at all times. The WoF label shows the month it was expected and the expiry and proves that the vehicle was roadworthy at time of inspection.

Q0049

Class 6 (Motorcycle)

Core

Official NZTA / Waka Kotahi

What does this marking mean?

[A] Electric and hybrid vehicles can be charged here

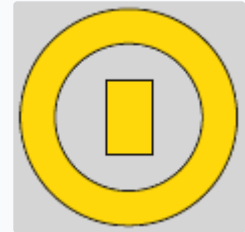

[B] Only buses can park here

[C] Cycle lane ahead

[D] Fire hydrant

✓ Correct

Explanation: The location of a fire hydrant is marked.

Q0050

Class 6 (Motorcycle)

Signs

Official NZTA / Waka Kotahi

What does this sign mean?

[A] You must not turn left

✓ Correct

[B] You must not turn right

Explanation: Correct. This sign is a warning to not turn left.

Q0051

Class 6 (Motorcycle)

Parking

Official NZTA / Waka Kotahi

What does this sign mean?

[A] Motorcycles and cyclists can park to the right of the sign for 40 minutes

[B] Any vehicle can park for 40 minutes to the right of the sign

✓ Correct

[C] To the right of the sign there is no parking, but to the left you can park for 40 minutes

Explanation: The arrow on the sign outlines the direction you can park in and the number on the sign shows how long you can park there in minutes.

Q0052

Class 6 (Motorcycle)

Behaviour

Official NZTA / Waka Kotahi

What does this sign mean?

[A] In 35 metres there is a fire hydrant

[B] A corner in 35 metres

[C] The recommended speed for this corner is 35kph

✓ Correct

Explanation: The number shows the recommended maximum speed for safe, comfortable travel around the corner and the chevrons show the direction of the corner.

Q0053 Class 6 (Motorcycle) Signs Official NZTA / Waka Kotahi

What does this sign mean?

[A] Traffic turning right must follow this sign

✓ Correct

[B] Traffic driving straight through must obey this sign

[C] Vehicles are only permitted to turn right here

Explanation: Correct. Traffic turning right must follow this sign.

Q0054 Class 6 (Motorcycle) Signs Official NZTA / Waka Kotahi

What does this sign mean?

[A] Oncoming light rail

[B] Light rail only

[C] Light rail crossing ahead

✓ Correct

Explanation: This sign indicates that there is a light rail crossing ahead. Always remember to keep watch for them at junctions and look for rails, signs, and signals.

Q0055 Class 6 (Motorcycle) Signs Official NZTA / Waka Kotahi

What does this sign mean?

[A] Reverse back to the last exit by pulling into the hard shoulder

[B] Turn around and go back the way you came

[C] Turn round at the next side road

[D] This lane must proceed straight ahead

✓ Correct

[E] Be aware of potential obstacles

Explanation: This sign demonstrates that you must continue on ahead.

Q0056 Class 6 (Motorcycle) Behaviour Official NZTA / Waka Kotahi

What does this sign mean?

[A] The left side of a bridge

[B] The right side of a bridge

✓ Correct

[C] Left hand side of the road

[D] Right hand side of the road

Explanation: The right side of the bridge is indicated by the marker.

Q0057 Class 6 (Motorcycle) Signs Official NZTA / Waka Kotahi

What does this sign mean?

[A] A route for pedestrians only

✓ Correct

[B] School ahead

[C] No pedestrians permitted

[D] A route for cyclists only

Explanation: Correct. This sign states that no motor vehicles are allowed, as it marks a pedestrian zone.

Q0058 Class 6 (Motorcycle) Signs Official NZTA / Waka Kotahi

What does this sign mean?

[A] Vehicles are merging off of a roundabout

[B] The left lane is closed

✓ Correct

[C] There's a fire hydrant ahead on the left

Explanation: This sign is usually erected by road workers and is a temporary warning.

Q0059 Class 6 (Motorcycle) Signs Official NZTA / Waka Kotahi

What does this sign mean?

- [A] Pedestrians only on this route
- [B] Cyclists only on this route
- [C] A route for pedestrians and cyclists** ✓ Correct
- [D] No pedestrians or cyclists permitted on this route
- [E] No bicycle tricks permitted

Explanation: This sign indicates that pedestrians and cyclists share this route.

Q0060 Class 6 (Motorcycle) Signs Official NZTA / Waka Kotahi

What does this sign mean?

- [A] Watch out for cattle** ✓ Correct
- [B] Dairy farm ahead
- [C] Cattle are not permitted in this lane
- [D] Cattle grid

Explanation: Correct. This sign provides a warning that there may be cattle in the road or crossing in the road.

Q0061 Class 6 (Motorcycle) Signs Official NZTA / Waka Kotahi

What does this sign mean?

- [A] On a roundabout give way to vehicles from the left lane
- [B] On a roundabout give way to vehicles from the left and right hand side
- [C] Give way on a roundabout ahead** ✓ Correct
- [D] Another roundabout ahead

Explanation: This sign means that you must give way to vehicles coming from the right and when you see this sign look out for any directions and judge if you need to signal your intentions.

Q0062 Class 6 (Motorcycle) Signs Official NZTA / Waka Kotahi

What does this sign mean?

- [A] Only vehicles that are towing need to drive at 70kph
- [B] No parking for 70m on either side of this sign
- [C] The maximum speed is 70mph
- [D] The maximum speed is 70kph** ✓ Correct

Explanation: This sign indicates that as long as the road conditions are safe and your vehicle can drive this fast, then the maximum speed limit on this road is 70kph.

Q0063 Class 6 (Motorcycle) Signs Official NZTA / Waka Kotahi

What does this sign mean?

- [A] Cars with three or more people can use this lane
- [B] Bus station
- [C] From 7-9am and 4-6pm weekdays, only buses can use this lane
- [D] Only buses permitted in this lane
- [E] Buses, cyclists, motorcyclists and moped riders can use this lane** ✓ Correct

Explanation: Cyclists, motorbikes, and moped riders can also use it if there are no other signs stating that it's bus only.

Q0064 Class 6 (Motorcycle) Parking Official NZTA / Waka Kotahi

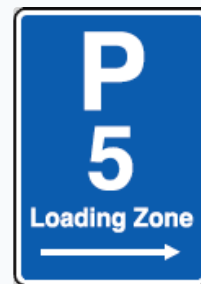

What does this sign mean?

- [A] For a maximum of 5 minutes, commercial vehicles can park here
- [B] As long as the vehicle is not left unattended then it can park here for more than 5 minutes
- [C] As long as the vehicle is unloading people or goods then it can park here, but only for 5 minutes

[D] Any vehicle that is unloading people or goods can park here, but it cannot be left alone for more than 5 minutes

✓ Correct

Explanation: If you are unloading goods or people then any vehicle can stop here, but it must not be left unattended for more than 5 minutes. As long as someone is with the car and the loading is continued then it can remain in the car park for more than 5 minutes. If the sign read ' 5 MIN...

Q0065 Class 6 (Motorcycle) Motorbike - Motorbike-Specific Official NZTA & DT Driver Training

What effect does an oncoming heavy vehicle have?

[A] Nothing - the frontal area of a bike is small compared to a car

[B] The wave of air it pushes in front of it will initially push you away, then suck you towards the vehicle

✓ Correct

[C] It will give you blurred vision

[D] Smoke from its exhaust will obscure your vision

Explanation: Pressure waves from oncoming trucks This video shows how a truck affects the air around it with different aerodynamic aids. You can get the idea of the truck pushing a wave of air in front of it - this is pressurised air that will push you away. Behind it there is rarefied air...

Q0066 Class 6 (Motorcycle) Bike-specific Official NZTA / Waka Kotahi

What is it best to do before going through a right hand curve?

[A] Move to the left hand side of the road

[B] Move to the right hand side of the road

[C] Slow down

✓ Correct

Explanation: Slowing down is the best plan, as new motorcycle riders often enter turns too quickly. They tend to cross into another lane of traffic or go off the road because they can't hold the turn, or they brake too hard and skid out of control.

Q0067 Class 6 (Motorcycle) Behaviour Official NZTA / Waka Kotahi

What is the legal alcohol limit in micrograms per litre of breath if you are 20 or over?

[A] 400mcg/litre of breath

[B] 350mcg/litre of breath

[C] 250mcg/litre of breath

✓ Correct

[D] 100mcg/litre of breath

[E] Zero

Explanation: Correct. The maximum permissible level is 250mcg/litre of breath, although any amount of alcohol affects your reaction times, so it is recommended you don't drink at all before driving.

Q0068 Class 6 (Motorcycle) Motorbike - Motorbike-Specific DT Driver Training (Extended)

What is the main danger in riding on bitumen after a rain shower?

[A] Glare from the sun

[B] Water will get into the electrics

[C] It is often slippery

✓ Correct

[D] Other vehicles

Explanation: Braking and avoiding objects while on a motorbike The front brake assumes about 75-90% of the braking performance when you brake on a bike, depending on the style of bike . A sport bike will take more braking on the front wheel, whereas a cruiser carries more weight over the...

What is the proper style and fit for a helmet? Check all that apply.

[A] It should fit snug

✓ Correct

[B] It should always be fastened when riding

✓ Correct

[C] Ideally it is a bright, visible colour

✓ Correct

[D] The back and sides should have red reflective material

✓ Correct

[E] None of the internal padding or straps are frayed or loose

✓ Correct

Explanation: Choosing the best motorbike helmet style We'll take a look at the five different types of helmets and their pros and cons, plus how to choose based on what you'll use it for. As your helmet is going to help protect you from head injuries, it's important you know about each type....

Q0075

Class 6 (Motorcycle)

Bike-specific

Official NZTA / Waka Kotahi

What might be likely to happen on a high-crowned road, and in what situation should you reduce speed?

[A] You could lose control because your front wheel may leave the road surface

[B] You could lose control because your rear wheel could leave the road surface

[C] There may be another vehicle on your side of the road as you come over the crest

[D] Your right peg might hit the road as you turn right

✓ Correct

Explanation: There will be less clearance between your right peg and the road as you turn right if the road has a high centre. The turn will also be more difficult due to the downslope.

What should you do if you are turning right at traffic signals that are showing a red arrow pointing to the right?

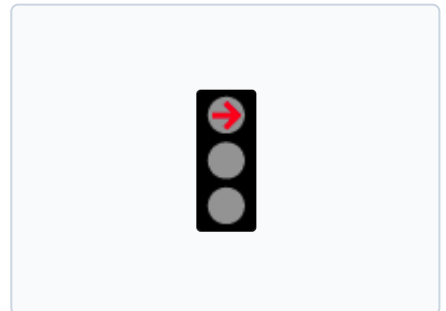

[A] Stop until you see a green arrow and then continue to go if it is safe

[B] Stop until you get a green traffic light and the red arrow disappears, then apply the Give Way rules and proceed

[C] Both a and b are correct

✓ Correct

Explanation: Both scenarios are correct.

Q0086

Class 6 (Motorcycle)

Bike-specific

Official NZTA / Waka Kotahi

Multiple Answers

What should you do if you get a blowout or puncture on your motorcycle? Check all that apply.

[A] Bring the bike to a quick stop by braking hard

[B] Let the motorbike slow down without braking by gradually closing the throttle

✓ Correct

[C] If the front wheel goes flat shift your weight as far back as possible

✓ Correct

[D] If the back tyre goes flat just sit normally

✓ Correct

Explanation: If possible, avoid braking and close the throttle gradually, letting the bike slowly stop. Signal and move to the side of the road and if your back tyre deflates keep your weight neutral. If your front tyre deflates move your weight to the back.

Class 6 (Motorcycle)

Core

Official NZTA / Waka Kotahi

What should you do in order to prevent being blinded by the headlights of oncoming traffic?

[A] Let the other driver know by flashing your lights

[B] Keep your eyes to the left of the road and slow down

✓ Correct

[C] Keep your eyes to the right-hand side of the road

[D] Keep your eyes focused on the centre of the road

Explanation: Keep your eyes to the left so that you won't be looking directly into the light and make sure to slow down because your visibility will be reduced. Flashing your lights at the other driver could cause an accident as it risks blinding or distracting the other driver.

Q0091 Class 6 (Motorcycle) Bike-specific Official NZTA & DT Driver Training Multiple Answers

What should you do to keep control of your machine if you encounter rough, uneven surfaces? Check all that apply.

[A] Keep your head up ✓ Correct

[B] Don't resist and try and control the bike's every move, relax. ✓ Correct

[C] Ride in the left track if there are wheel tracks ✓ Correct

[D] Right in the right track if there are wheel tracks

[E] Brake using the rear wheel first

Explanation: Achieving maximum control when you are riding your motorbike Having your arms slightly bent gives you the most control. This is because you have pulling and pushing force available in both arms. If you arms are straight and locked then you don't have any pushing force available...

Class 6 (Motorcycle)

Core

Official NZTA / Waka Kotahi

Multiple Answers

When can you use your horn? Select all that apply.

[A] To warn another driver of your presence

✓ Correct

[B] To warn a motorcycle that you are approaching

✓ Correct

[C] If you're made because someone cuts in front of you

[D] To say good-bye as you leave your family's house

Explanation: A horn should only be used as a reasonable traffic warning, such as warning another driver of your presence or alerting an approaching motorcyclist. It must not be used in anger or as a farewell.

Q0099

Class 6 (Motorcycle)

Bike-specific

Official NZTA & DT Driver Training

Multiple Answers

When driving at night, how can you get a better view of a road? Check those answers that apply.

[A] If another vehicle is approaching towards you, it is important to use your high beam light

✓ Correct

[B] Sit upright

✓ Correct

[C] Use your car visor or sunglasses to cut-down on the glare

[D] Use another vehicle's tail lights to help judge the road ahead

✓ Correct

Explanation: The other way of getting a better view of the road is the same technique as you would use during the day, and that is to maximise your view around corners using the correct road position. Check out the 'cornering lane position' section of this article for a detailed explanation.

Q0100

Class 6 (Motorcycle)

Parking

Official NZTA / Waka Kotahi

Multiple Answers

When parking your vehicle next to the kerb and facing down a steep hill, what should you do? Select all that apply.

[A] Apply the handbrake

✓ Correct

[B] If the car has manual transmission put it into reverse gear

✓ Correct

[C] Turn the wheels towards the kerb

✓ Correct

[D] Run the front and back wheels against the kerb

[E] Turn the wheels away from the kerb

Explanation: The car will come to rest against the kerb and won't roll any further if you turn the wheels towards the kerb and the handbrake/parking brake fails. Putting it in reverse will provide a lot of engine braking.

[A] Yes

✓ Correct

[B] No

Explanation: Driving restrictions when on a learner licence To get a learner licence you'll have to practice and pass a theory test , which you can do for free on this website. When you have a learner licence you must have a supervisor at all times and display L plates on your vehicle. You...

Q0115 Class 6 (Motorcycle) Core Official NZTA & DT Driver Training

When you have finished passing another vehicle, what is the least distance of clear road you MUST have in front of you?

[A] 50 metres

[B] 100 metres

✓ Correct

[C] 150 metres

[D] 200 metres

Explanation: Safety when overtaking The least distance of clear road you must have in front of you when you have finished passing another vehicle is 100m. Remember that you shouldn't exceed the speed limit when passing, so be sure to allow yourself enough time to complete the passing...

Q0116 Class 6 (Motorcycle) Behaviour Official NZTA & DT Driver Training

When you have this traffic signal, are you permitted to turn right?

[A] There's a red arrow so you cannot turn right

[B] You can only drive straight through

[C] Yes, but only if there are no vehicles coming

✓ Correct

Explanation: Traffic lights in New Zealand Our traffic lights conform to international standards in terms of their colour, but we have slightly different phasing than some countries. Red lights A red light always means stop. You must wait until the green light shows before you can proceed. A...

Q0117 Class 6 (Motorcycle) Behaviour Official NZTA & DT Driver Training

When you have this traffic signal, can you turn left?

[A] Yes

[B] No

✓ Correct

Explanation: Traffic lights in New Zealand Our traffic lights conform to international standards in terms of their colour, but we have slightly different phasing than some countries. Red lights A red light always means stop. You must wait until the green light shows before you can proceed. A...

Q0118 Class 6 (Motorcycle) Bike-specific Official NZTA & DT Driver Training

Where is the best place on the road to position your motorcycle whilst riding if you're following a vehicle?

[A] Behind the right hand wheels of the vehicle in front

✓ Correct

[B] As close to the left as you can

[C] As close to the right as you can

[D] In the middle of the road

Explanation: Correct road position for following a vehicle on a motorbike Riding in a position behind the right-hand wheels of the vehicle ahead (at the correct following distance), you are more easily seen in the rear-vision mirrors of the vehicle in front and are therefore more likely to...

Q0119 Class 6 (Motorcycle) Bike-specific Official NZTA & DT Driver Training

Where should you sit to be comfortable when you ride?

[A] Your elbows are slightly bent when your hands are on the handlebars and you're sitting far enough back in the seat

✓ Correct

[B] Your elbows are quite bent and you are fairly forward in your seat

[C] Your arms are straight and your sitting near the back of the seat

Explanation: Achieving maximum control when you are riding your motorbike Having your arms slightly bent gives you the most control. This is because you have pulling and pushing force available in both arms. If you arms are straight and locked then you don't have any pushing force available...

Q0120 Class 6 (Motorcycle) Bike-specific Official NZTA / Waka Kotahi

Where would you be if the driver of a vehicle right in front of you cannot see you in either the rear view mirrors or by turning their head?

[A] Blind spot

✓ Correct

[B] Behind them

[C] Split second spot

Explanation: Correct. You must anticipate where other's blind spots are and drive defensively as blind spots can be really dangerous.

Q0121 Class 6 (Motorcycle) Motorbike - Motorbike-Specific DT Driver Training (Extended)

Which is the best kind of safety helmet to buy?

[A] The lightest possible

[B] One with a warranty

[C] One with a safety standards approval sticker

✓ Correct

[D] One that is second hand because it's cheaper

Q0122 Class 6 (Motorcycle) Bike-specific Official NZTA & DT Driver Training

Which of these is best if you're in an emergency situation and you need to control your bike?

[A] Look at a target you're trying to miss so that you know where it is and can hopefully avoid it

[B] So your hands don't slip and you can see your speed look at your controls

[C] Look where you want to go and the bike will typically steer that way

✓ Correct

Explanation: Braking and avoiding objects while on a motorbike The front brake assumes about 75-90% of the braking performance when you brake on a bike, depending on the style of bike . A sport bike will take more braking on the front wheel, whereas a cruiser carries more weight over the...

Q0123

Class 6 (Motorcycle)

Motorbike - Motorbike-Specific

Official NZTA & DT Driver Training

Multiple Answers

Which of these scenarios can make it easier to skid. Select all that apply

[A] Slightly over-inflated tyres

✓ Correct

[B] Slightly under-inflated tyres

[C] Applying the brakes hard

✓ Correct

[D] A shaded corner during winter

✓ Correct

[E] Changing direction quickly

✓ Correct

Explanation: Braking and avoiding objects while on a motorbike The front brake assumes about 75-90% of the braking performance when you brake on a bike, depending on the style of bike . A sport bike will take more braking on the front wheel, whereas a cruiser carries more weight over the...

Q0124

Class 6 (Motorcycle)

Core

Official NZTA / Waka Kotahi

Which vehicle gives way if both vehicles are facing Give Way signs?

[A] Whichever car gets there first

[B] The car that isn't turning

[C] That car that is turning

✓ Correct

[D] The largest vehicle

Explanation: If both cars are turning in the same direction there should be no need to give way as you won't cross paths. A vehicle that is turning has to give way. If one vehicle is turning left and the other turning right, the vehicle turning right gives way.

Q0125

Class 6 (Motorcycle)

Intersection

Official NZTA / Waka Kotahi

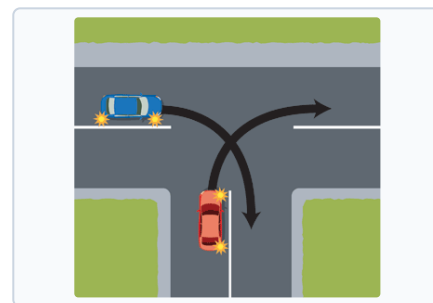

Which vehicle must give way?

[A] Blue car

[B] Red car

✓ Correct

Explanation: Cars that are turning from the bottom of the T-intersection must give way to you if you are turning right from the top of a T-intersection.

Q0126

Class 6 (Motorcycle)

Intersection

Official NZTA / Waka Kotahi

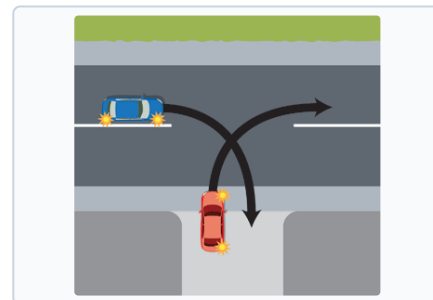

Which vehicle must give way?

[A] Red car

✓ Correct

[B] Blue car

Explanation: Correct. This rule works the same as the T-intersection rule, which means you must give way to all traffic on the road if you are exiting a driveway (including public driveways such as at a hospital or restaurant).

Q0127

Class 6 (Motorcycle)

Core

Official NZTA / Waka Kotahi

Who can enforce a breath screening test?

[A] A police officer

✓ Correct

[B] A fire officer

[C] A lawyer

[D] A doctor

[E] None of the above

Explanation: You will be asked to blow into either a small electronic device or a tube of crystals with a bag at the end by a police officer. You will be asked to take an evidential breath or blood test if your alcohol level is too high.

Q0128 Class 6 (Motorcycle) Emergencies Official NZTA & DT Driver Training

Who must you report the injury to if you are the driver involved in injuring somebody in a crash?

[A] A fire officer

[B] A police officer

✓ Correct

[C] The parents of the person you injured

[D] A doctor

[E] A clerk of the court

Explanation: The process after a car crash with injuries If you have a crash your first priority is to check whether other people need medical assistance - check airways, breathing and circulation - and you must report it to a police officer within 24 hours. Call 111 for an ambulance if...

Q0129 Class 6 (Motorcycle) Bike-specific Official NZTA / Waka Kotahi

Why is it dangerous to travel in other riders' blind spots?

[A] It's not dangerous-the blind spot will change as soon as the rider starts to move and they'll be able to see you

[B] The other motorist is more likely to move into your space, risking an accident

✓ Correct

Explanation: Blind spots can be really dangerous so you must drive defensively and anticipate where other's blind spots are.

Q0130 Class 6 (Motorcycle) Signs Official NZTA / Waka Kotahi

Why is it recommended to slow down when you see this sign?

[A] To avoid splashing pedestrians with water

[B] Your tyres may get punctured and you may get a flat

[C] Ahead there is a road grittier

[D] To avoid throwing up loose chippings

✓ Correct

Explanation: This is a warning sign to reduce your speed, as there is loose road surface. Loose road surface can cause chippings to fly out from your tyres and cause damage to other vehicles, or injury to pedestrians, cyclists and motorcyclists.

Q0131 Class 6 (Motorcycle) Bike-specific Official NZTA & DT Driver Training

Would a motorbike fail its warrant of fitness if it only had one indicator working?

[A] No, it wouldn't fail because the rider can still use hand signals

[B] Yes

✓ Correct

Explanation: Warrant of Fitness renewal and rules Where should your Warrant of Fitness label go? The WoF label must be displayed on the inside of the front window on the driver's side, and be clearly visible from the outside. The top corner is the best place as it won't interfere with your...

Q0132 Class 6 (Motorcycle) Bike-specific Official NZTA & DT Driver Training Multiple Answers

You are about to stop at a red light, it's raining and you notice that there is a large area that looks like an oil spillage. In order to stop safely, what should you do? Check all that apply.

[A] Stay upright

✓ Correct

[B] If it's safe to do so, ride through the stop light

[C] Apply the front brake first, but use both brakes

✓ Correct

[D] Apply the rear brake first, but use both brakes

[E] Try to turn away from the oil if possible, don't try to steer if you're on the oil and don't make any sudden movements.

✓ Correct

Explanation: Braking and avoiding objects while on a motorbike The front brake assumes about 75-90% of the braking performance when you brake on a bike, depending on the style of bike. A sport bike will take more braking on the front wheel, whereas a cruiser carries more weight over the...

Q0133 Class 6 (Motorcycle) Core Official NZTA / Waka Kotahi

You are required to give a blood sample, who is legally allowed to have you take one?

[A] A fire officer

[B] A police officer

✓ Correct

[C] A doctor

[D] None of the above

Explanation: A medical doctor or other approved professional will take the blood sample, but it is the police officer who can require you to give the sample. You may be arrested if you don't comply and refuse an evidential breath test.

Q0134 Class 6 (Motorcycle) Motorbike - Motorbike-Specific DT Driver Training (Extended)

You are riding on a suburban street and a large piece of timber is immediately in front of you and there is no alternative but to ride over it. To keep control, what should you do?

[A] Lean forwards and hold onto the handlebars tightly

[B] Straighten up the bike, stand up slightly on the footrests

✓ Correct

[C] Swerve around the obstacle while braking

[D] Accelerate over the obstacle

Explanation: Braking and avoiding objects while on a motorbike The front brake assumes about 75-90% of the braking performance when you brake on a bike, depending on the style of bike . A sport bike will take more braking on the front wheel, whereas a cruiser carries more weight over the...

Q0135 Class 6 (Motorcycle) Emergencies Official NZTA / Waka Kotahi

You must allow an ambulance or fire engine to pass you in what situations?

[A] If it is travelling fast and you don't feel comfortable with it behind you

[B] You don't need to let it past, just keep driving

[C] If its siren and/or red flashing lights are on

✓ Correct

[D] All of the time

Explanation: When an ambulance or fire engine have their red flashing lights and/or siren on you will need to pull over as they are on their way to an emergency.

Q0136 Class 6 (Motorcycle) Core Official NZTA & DT Driver Training

You must check that there is space for your vehicle on the other side of the line when driving across a railway level crossing? True or false?

[A] TRUE

✓ Correct

[B] FALSE

[C] Only on crossings that don't have signals and/or barrier arms

Explanation: Driving safely across railway level crossings When driving across a railway level crossing you must check that there is space for your vehicle on the other side of the line. This is especially important if you are driving a long vehicle. As you can see in the video below, if you...

Intersections & Give-Way Scenarios

83 Questions

Q0137 All Classes Signs Official NZTA / Waka Kotahi Multiple Answers

At an intersection controlled by a give way sign, what must you do? Select all that apply.

[A] If you are turning give way to vehicles not turning ✓ Correct

[B] Give way to vehicles turning left (if you are turning right) and those vehicles coming towards you ✓ Correct

[C] If you are on the terminating road (bottom of the T) then give way to all traffic on a continuing road (the top of the T) ✓ Correct

Explanation: Examples included in the give way rules are A, B and C.

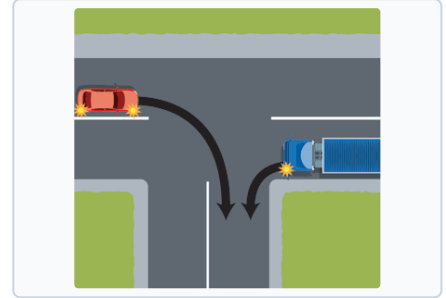

Q0138 All Classes Intersection Official NZTA / Waka Kotahi

Does the blue or red vehicle have to give way?

[A] Blue truck

[B] Red car ✓ Correct

Explanation: A vehicle turning right must give way to a vehicle turning left in this example, where two vehicles are facing each other at an intersection with the same signs or signals or no signs or signals.

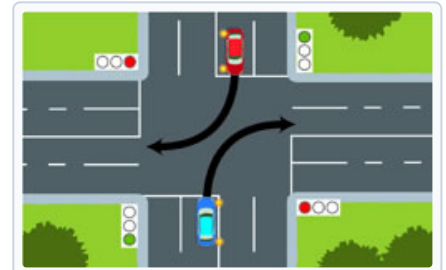

Q0139 All Classes Intersection Official NZTA / Waka Kotahi

Does the driver of the blue car have to give way?

[A] Yes

[B] No ✓ Correct

Explanation: In this example neither vehicle has to give way. Without interfering with each other's path both vehicles can make their turns.

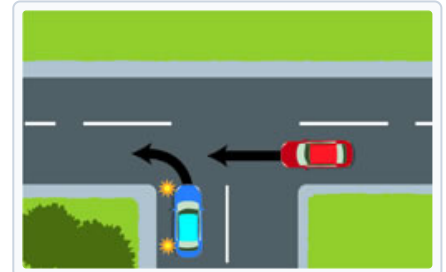

Q0140 All Classes Intersection Official NZTA / Waka Kotahi

Does the driver of the blue car have to give way?

[A] Yes ✓ Correct

[B] No

Explanation: Yes, the blue car must give way. The blue car is turning right into the path of the red car which is driving straight through the intersection and must give way.

Q0141 All Classes Intersection Official NZTA / Waka Kotahi

Does the driver of the blue car have to give way?

[A] Yes

[B] No ✓ Correct

Explanation: No, the blue car does not have to give way. The red car must give way to the blue car as the red car is at a give way sign and is coming from the blue car's right.

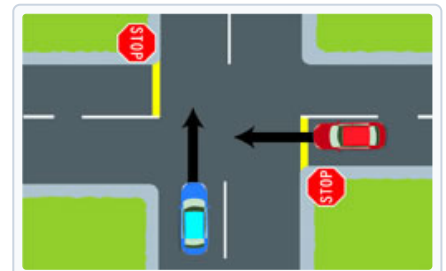

Q0142 All Classes Intersection Official NZTA / Waka Kotahi

Does the driver of the blue car have to give way?

[A] Yes

[B] No ✓ Correct

Explanation: The blue car has the right of way because the blue car is travelling straight through the junction and the red car is at a stop sign.

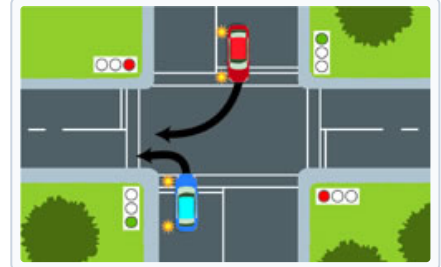

Q0143 Class 1 (Car) Intersection Official NZTA / Waka Kotahi

Does the driver of the blue car have to give way?

[A] Yes

[B] No ✓ Correct

Explanation: The red car must give way to the blue car because both cars have a green light, which means the give way rules apply.

Q0144 Class 1 (Car) Intersection Official NZTA / Waka Kotahi

Does the driver of the blue car have to give way?

[A] Yes

[B] No ✓ Correct

Explanation: The blue car is coming around the roundabout from the right, so the red car must give way.

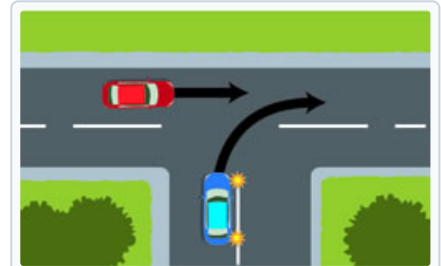

Q0145 All Classes Intersection Official NZTA / Waka Kotahi

Does the driver of the blue car have to give way?

[A] Yes ✓ Correct

[B] No

Explanation: The red car has the right of way, as it is going straight through the intersection.

Q0146 All Classes Intersection Official NZTA / Waka Kotahi

Does the driver of the blue car have to give way?

[A] Yes ✓ Correct

[B] No

Explanation: Even though the blue car has a green light, the Give Way rules apply because the red car also has a green light and the red car is coming straight through the intersection.

Q0147 Class 1 (Car) Intersection Official NZTA / Waka Kotahi

Does the driver of the blue car have to give way?

[A] Yes

[B] No ✓ Correct

Explanation: No, the turning red car must give way to the blue car that is travelling straight through as both cars have a green light.

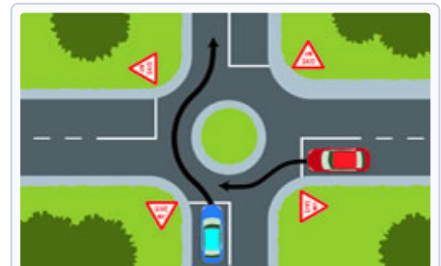

Q0148 Class 1 (Car) Intersection Official NZTA / Waka Kotahi

Does the driver of the blue car have to give way?

[A] Yes ✓ Correct

[B] No

Explanation: The blue car does not have right of way, the red car is coming from the right and therefore, has the right of way on a roundabout.

Q0149 All Classes Intersection Official NZTA / Waka Kotahi

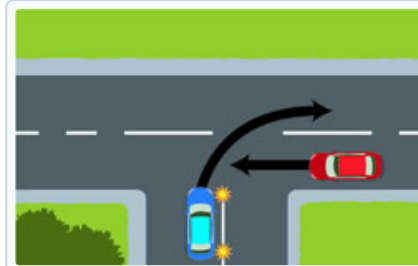

Does the driver of the blue car have to give way?

[A] Yes

✓ Correct

[B] No

Explanation: Yes, the blue car must give way. The blue car is turning across the path of the red car that is driving through the intersection.

Q0150 Class 1 (Car) Intersection Official NZTA / Waka Kotahi

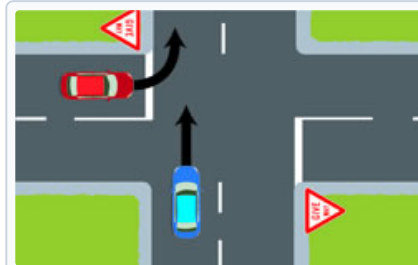

Does the driver of the blue car have to give way?

[A] Yes

[B] No

✓ Correct

Explanation: No, the blue car does not have to give way, it is the red car that must stop at the Give Way sign and give way to the blue car.

Q0151 All Classes Intersection Official NZTA / Waka Kotahi

Does the driver of the blue car have to give way?

[A] Yes

✓ Correct

[B] No

Explanation: The blue car must give way here as the motorcycle has the right of way. Both vehicles have a green light, therefore the give way rules apply.

Q0152 All Classes Intersection Official NZTA / Waka Kotahi

Does the driver of the blue car have to give way?

[A] Yes

[B] No

✓ Correct

Explanation: You must give way to vehicles on the straight road when both cars are turning right at an uncontrolled intersection (which includes many driveways and entrances to public car parks that don't have markings), therefore the blue car has right of way.

Q0153 All Classes Intersection Official NZTA / Waka Kotahi

Does the driver of the blue car have to give way?

[A] Yes

[B] No

✓ Correct

Explanation: The red car is waiting at a give way sign so the blue car has right of way.

Q0154 All Classes Intersection Official NZTA / Waka Kotahi

Does the driver of the blue car have to give way?

[A] Yes

✓ Correct

[B] No

Explanation: Yes, the blue car must give way to the traffic that is going straight through the intersection because it is waiting at a give way sign to turn at a t-intersection.

Q0155 Class 1 (Car) Intersection Official NZTA / Waka Kotahi

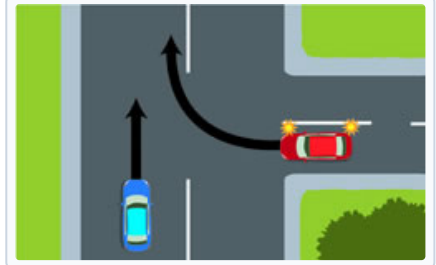

Does the driver of the blue car have to give way?

[A] Yes

[B] No

✓ Correct

Explanation: The other vehicle should give way as the blue car is driving straight through an uncontrolled intersection while the other vehicle is turning.

Q0156 All Classes Intersection Official NZTA / Waka Kotahi

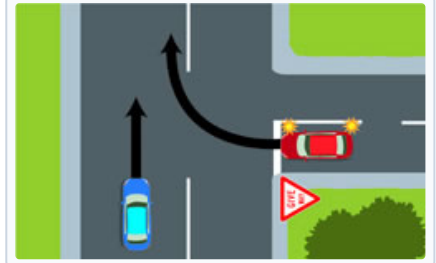

Does the driver of the blue car have to give way?

[A] Yes

[B] No

✓ Correct

Explanation: No, the blue car does not have to give way. The red car must give way to the blue car because it is turning from a give way sign at a t-intersection and the blue car is travelling straight through.

Q0157 All Classes Intersection Official NZTA / Waka Kotahi

Does the driver of the blue car have to give way?

[A] No.

✓ Correct

[B] Yes

Explanation: Correct. The red car is waiting at a t-intersection so the blue car has the right of way.

Q0158 All Classes Intersection Official NZTA / Waka Kotahi

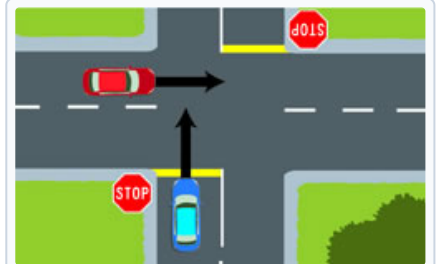

Does the driver of the blue car have to give way?

[A] Yes

✓ Correct

[B] No

Explanation: The red car is travelling straight through the intersection and the blue car is at a stop sign, therefore the blue car must give way.

Q0159 Class 1 (Car) Intersection Official NZTA / Waka Kotahi

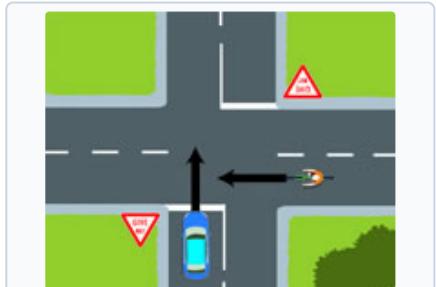

Does the driver of the blue car have to give way?

[A] Yes

✓ Correct

[B] No

Explanation: Yes, the cyclist has right of way here. At the Give Way sign the cyclist must stop.

Q0160 All Classes Intersection Official NZTA / Waka Kotahi

Does the driver of the blue car have to give way?

[A] Yes

✓ Correct

[B] No

Explanation: Yes, because the blue car is crossing a lane of oncoming traffic it must give way.

Q0161 All Classes Intersection Official NZTA / Waka Kotahi

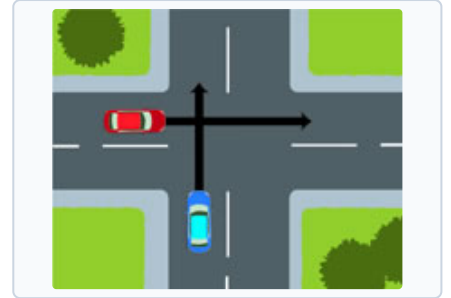

Does the driver of the blue car have to give way?

[A] Yes

[B] No

✓ Correct

Explanation: The blue car has right of way in this scenario because it is coming from the right. At an uncontrolled intersection, the Give Way rules apply.

Q0162 All Classes Intersection Official NZTA / Waka Kotahi

Does the driver of the blue car have to give way?

[A] Yes

[B] No

✓ Correct

Explanation: The driver must give way to ALL other traffic before moving because the blue car is waiting at a stop sign. If both signs were stop or give way signs, then the give way rules would apply, in which case blue would have right of way because it is travelling straight ahead. This...

Q0163 All Classes Intersection Official NZTA / Waka Kotahi

Does the driver of the blue car have to give way?

[A] Yes

[B] No

✓ Correct

Explanation: No, the blue car does not need to give way as the red car will exit the roundabout without crossing the path of the blue car.

Q0164 Class 1 (Car) Intersection Official NZTA / Waka Kotahi

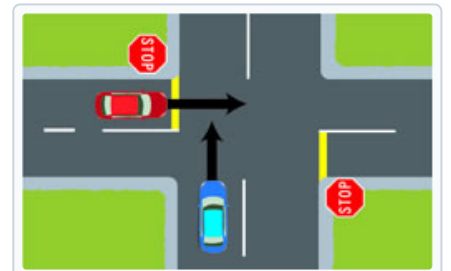

Does the driver of the blue car have to give way?

[A] Yes

[B] No

✓ Correct

Explanation: No, the blue car does not have to give way. The red car must stop at the stop sign and give way to the blue car.

Q0165 All Classes Intersection Official NZTA / Waka Kotahi

Does the driver of the blue car have to give way?

[A] Yes

[B] No

✓ Correct

Explanation: The blue car does not need to give way, as the red car will exit the roundabout without crossing the path of the blue car.

Q0166 All Classes Intersection Official NZTA / Waka Kotahi

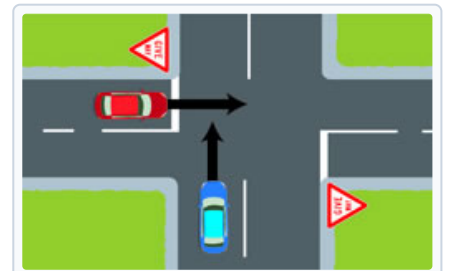

Does the driver of the blue car have to give way?

[A] Yes

[B] No

✓ Correct

Explanation: No, the blue car does not have to give way. The red car must stop at the Give Way sign and give way to the blue car.

Q0167 All Classes Intersection Official NZTA / Waka Kotahi

Does the driver of the blue car have to give way?

[A] Yes

✓ Correct

[B] No

Explanation: Yes, the blue car needs to give way to the red car and it must stop at the stop sign.

Q0168 Class 1 (Car) Intersection Official NZTA / Waka Kotahi

Does the driver of the blue car have to give way?

[A] Yes

✓ Correct

[B] No

Explanation: Yes, the blue car must give way to the red car by stopping at the Give Way sign.

Q0169 All Classes Intersection Official NZTA / Waka Kotahi

Does the driver of the blue car have to give way?

[A] Yes

[B] No

✓ Correct

Explanation: Yes, the blue car has right of way as the red car is turning from the left of the blue car across the way.

Q0170 All Classes Intersection Official NZTA / Waka Kotahi

Does the person driving the blue car have to give way?

[A] Yes

✓ Correct

[B] No

Explanation: Yes, the blue car has to give way as the red car is going straight through the intersection and has right of way.

Q0171 All Classes Intersection Official NZTA / Waka Kotahi

Does the person driving the blue car have to give way?

[A] Yes

[B] No

✓ Correct

Explanation: The blue car has right of way and the red car must wait. The red car is coming from the opposite direction of the blue car and is turning right while the blue car is turning left.

Q0172 All Classes Intersection Official NZTA / Waka Kotahi

Does the person driving the blue car have to give way?

[A] Yes

✓ Correct

[B] No

Explanation: Yes, there is a cyclist coming from the right so the blue car must give way.

Q0173 Class 1 (Car) Car - Intersection DT Driver Training (Extended)

How far can a private vehicle (car, motorbike or truck) drive in a bus only lane?

[A] 25m

[B] 50m

✓ Correct

[C] 75m

[D] 100m

Q0174 Class 1 (Car) Car - Core DT Driver Training (Extended)

How must you signal when travelling straight ahead at a roundabout?

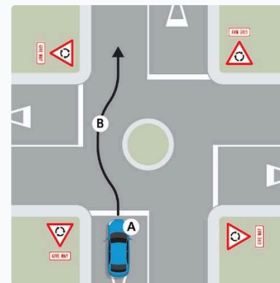

[A] Don't signal when approaching the roundabout. Signal as you pass the exit before the one you want to take (i.e. at B)

✓ Correct

[B] Signal right as you approach, then signal left at B

[C] Don't signal at all - you're going straight ahead

[D] Signal right until you have exited the roundabout

Q0175 All Classes Core Official NZTA & DT Driver Training

How should an entrance way into a public car park be treated, for the purpose of applying the Give Way rule?

[A] As an intersection

✓ Correct

[B] As a driveway

[C] The vehicle that is there first has right of way

[D] As a one-way street

Explanation: Give way rules for driveways and entranceways Entrance ways into public car parks should always be treated as intersections. Driveways and entranceways are treated like an uncontrolled intersection and you must give way to vehicles on the straight road (i.e. the top of the T)....

Q0176 Class 1 (Car) Car - Core Official NZTA & DT Driver Training

If two vehicles are facing each other at Give Way signs, which vehicle gives way?

[A] Whichever one gets there last

[B] The vehicle that is not turning

[C] The vehicle that is turning

✓ Correct

[D] Whichever is the smallest vehicle

Explanation: Give way rules when drivers are facing one another If two vehicles are facing a give way sign the vehicle that is turning gives way. Learning the give way rules is important. They apply to intersections with and without traffic lights or lines, roundabouts and driveways. They...

Q0177 Class 1 (Car) Car - Core Official NZTA & DT Driver Training

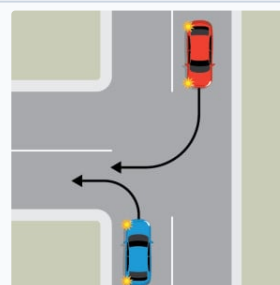

If you are turning left at an intersection, you must give way to all vehicles coming towards you that are turning right. True or false?

[A] True

[B] False

✓ Correct

Explanation: Priority when turning left You have the right of way if you are turning left from a through road; traffic coming towards you must give way. In New Zealand it used to be the other way around, but the law was changed in 2012. The only time you wouldn't have priority when turning...

Q0178 Class 1 (Car) Car - Intersection DT Driver Training (Extended)

The blue car is turning left, and the cyclist is going straight ahead. Which one should give way?

[A] The cyclist

[B] The blue car

✓ Correct

Q0179 All Classes Intersection Official NZTA / Waka Kotahi

Visible smoke should not be sent out by a vehicle for more than:

[A] 15 seconds

[B] 10 seconds

✓ Correct

[C] 5 seconds

[D] 2 seconds

Explanation: Smoke can be produced by a vehicle for a maximum of 10 seconds. Smoke generated by tyres through loss of traction may be considered a different offence, even if it is less than 10 seconds.

Q0180 Class 1 (Car) Car - Signs DT Driver Training (Extended) Multiple Answers

What must you do at a give way sign? Select all that apply

[A] Slow down and be ready to stop

✓ Correct

[B] Give way to all other vehicles, except those facing a stop sign

✓ Correct

[C] Wait until it's safe to go

✓ Correct

[D] Use the give way rules if other vehicles are approaching

✓ Correct

Q0181 All Classes Intersection Official NZTA & DT Driver Training

What must you do if you are in the lane with an arrow showing a left turn only and you are driving on a road with marked lanes?

[A] Turn left

✓ Correct

[B] Go straight ahead or turn left

[C] Not signal

Explanation: Direction arrows If the arrow only shows a left turn, then you must only turn left. If the arrow shows straight ahead as well as left, then you can go straight ahead. You must not turn right if you have either of these signs. When you make a left turn check that you are not...

Q0182 Class 1 (Car) Car - Road-Position DT Driver Training (Extended)

What must you do when turning right at a roundabout?

[A] Indicate right as you approach the roundabout then left before the exit you want to take

✓ Correct

[B] Indicate right the whole way around the roundabout

[C] Don't indicate right as you approach, but indicate right once on the roundabout

[D] Stay left as you enter the roundabout

Explanation: Rules for using roundabouts in New Zealand Roundabouts have very simple rules that many people find difficulty grasping. Turning left Approach the roundabout in the left lane, indicating left, and turn left. Going straight ahead Approach the roundabout in any lane that has an...

Q0183 Class 1 (Car) Car - Intersection DT Driver Training (Extended)

What's the most important rule for approaching an intersection?

[A] Indicate for at least a second so that other road users know where you are going

[B] Be prepared to stop

✓ Correct

[C] Use your horn to warn other traffic

[D] Change lanes at the last minute so that you end up in the one with the shortest queue

Explanation: Approaching an intersection Intersections can be very basic, e.g. a t-intersection on a quiet country road with good visibility, or they can be very complex, e.g. two lanes are turning, and there are yellow hatches on the road that you are not allowed to stop on, such as the...

Q0184 All Classes Intersection Official NZTA / Waka Kotahi

When are you permitted to turn right on a red light?

[A] If there's a green arrow to the right or straight ahead with no red arrow

✓ Correct

[B] Only if there is a marked box for turning right

[C] If there is no other traffic around

Explanation: Correct. Only when you have a green light can you go ahead.

Q0185 Class 1 (Car) Car - Core DT Driver Training (Extended)

When coming out of a driveway you must give way to anyone using a footpath, cycle path, shared path or the road. True or false

[A] True

✓ Correct

[B] False

Q0186 All Classes Intersection Official NZTA / Waka Kotahi

When must you stop, if an intersection has a stop sign?

[A] Always

✓ Correct

[B] Only if there are other vehicles around

[C] Only if you see a red traffic light as well

Explanation: Correct. You must always stop, as the intersection may be difficult to judge or may have hidden dangers.

Q0187 All Classes Road-position Official NZTA / Waka Kotahi Multiple Answers

When you are turning right at a roundabout, what must you do? Check all that apply.

[A] Indicate right as you approach the roundabout

✓ Correct

[B] Keep your right signal on as you exit the roundabout

[C] Signal left as you pass the exit before the one you want to take

✓ Correct

[D] Keep left as you enter the roundabout

Explanation: When you turn right at a roundabout, you should indicate right approaching the road about, keep right, and as you pass the exit before the one you want to use, indicate left.

Q0188 Class 1 (Car) Car - Intersection DT Driver Training (Extended) Multiple Answers

Which of these are T-intersections (or T-junctions)? Select all that apply.

[A] Intersection A

[B] Intersection B

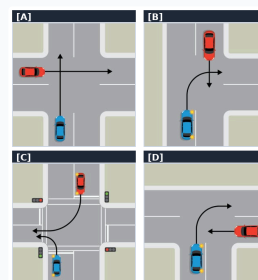

✓ Correct

[C] Intersection C

[D] Intersection D

✓ Correct

Explanation: What is a T-intersection? T intersections are the most basic of intersections where one road meets another at right angles (or close to a right angle). They are less complex than crossroads. T intersections work well in low and medium volumes of traffic but can be difficult to...

Q0189 Class 1 (Car) Car - Intersection DT Driver Training (Extended)

Which of these signs wouldn't you see as you approach a roundabout?

[A] Sign A (Roundabout ahead)

[B] Sign B (Give way)

[C] Sign C (Keep left)

[D] Sign D (Open road speed limit)

✓ Correct

Explanation: Roundabout signs When you start looking for signage you'll see that there's a lot of it, and the approach to roundabouts is one area where a number of signs warn drivers and instruct them what to do. In everyday driving we might not notice them because they eventually just seem...

Q0190 All Classes Intersection Official NZTA / Waka Kotahi

Which vehicle is required to give way?

[A] Red car

✓ Correct

[B] Blue car

Explanation: Correct. A vehicle turning right must give way to a vehicle turning left where two vehicles are facing each other at an intersection with no signs or signals or the same signs or signals (in this case green traffic signals).

Q0191 All Classes Intersection Official NZTA / Waka Kotahi

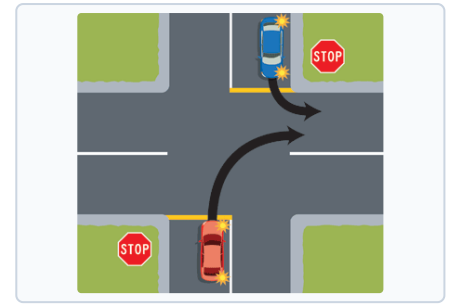

Which vehicle must give way?

[A] Red car

✓ Correct

[B] Blue car

Explanation: A vehicle turning right must give way to a vehicle turning left, where two vehicles are facing each other at an intersection with no signs or signals or the same signs or signals (in this case Stop signs).

Q0192 All Classes Intersection Official NZTA / Waka Kotahi

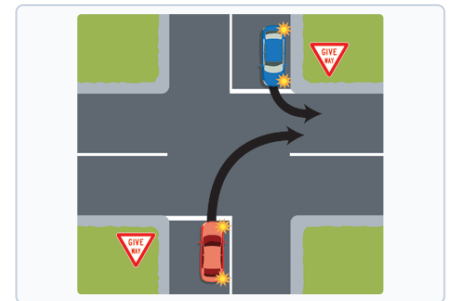

Which vehicle must give way?

[A] Red car

✓ Correct

[B] Blue car

Explanation: Correct. A vehicle turning right must give way to a vehicle turning left where two vehicles are facing each other at an intersection with no signs or signals or the same signs or signals (in this case Give Way signs).

Q0193 All Classes Intersection Official NZTA / Waka Kotahi

Which vehicle must give way?

[A] Red motorcycle

✓ Correct

[B] Blue car

Explanation: The vehicle turning right must give way in this scenario. Where two vehicles are facing each other at an intersection with no signs or signals or the same signs or signals, a vehicle turning right must give way to a vehicle turning left.

Q0194 All Classes Core Official NZTA / Waka Kotahi

You are approaching a roundabout and must give way to all the vehicles that will cross your path from your left? True or False?

[A] TRUE

[B] FALSE

✓ Correct

Explanation: Like in the diagram, you give way to vehicles coming from your right, not your left.

Q0195 Class 1 (Car) Car - Intersection DT Driver Training (Extended)

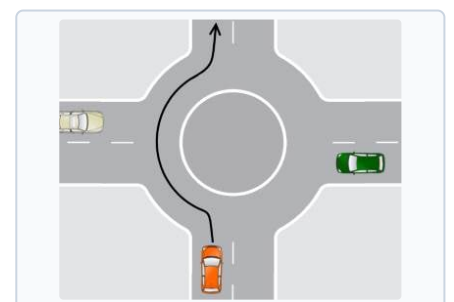

You are driving the orange car and want to go straight through this roundabout. What do you do?

[A] You don't need to indicate because you're going straight through.

[B] Indicate right until you pass the first exit, then indicate left.

[C] Don't indicate as you approach the roundabout, then indicate left as you pass the first exit.

✓ Correct

Q0196 Class 1 (Car) Car - Intersection DT Driver Training (Extended)

You are driving the orange car and want to turn right at this roundabout. What do you do?

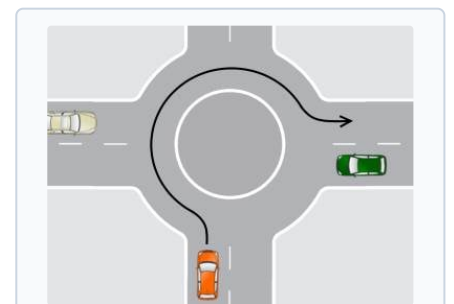

[A] Signal right as you approach the roundabout and keep signalling right as you exit the roundabout

[B] Signal right as you approach the roundabout and signal left as you exit the roundabout

[C] Signal right as you approach the roundabout and signal left as you pass the exit before the one you want to take

✓ Correct

[D] Don't signal as you approach the roundabout, then signal right as you pass the first exit

Q0197 Class 1 (Car) Car - Intersection DT Driver Training (Extended)

You are driving the orange car and you're waiting at a red light to turn right. Which lane do you turn into.

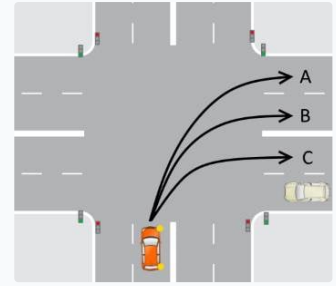

[A] A

[B] B

✓ Correct

[C] C

Explanation: How to choose lanes at an intersection Choose a lane early and choose the lane that corresponds with the destination lane that is right for you; try to avoid changing lanes near intersections, and definitely not in the intersection itself. When you are turning at an intersection...

Q0198 Class 1 (Car) Car - Intersection DT Driver Training (Extended)

You are driving the orange car through an uncontrolled intersection. Do you have to indicate?

[A] Yes

[B] No

✓ Correct

Q0199 Class 1 (Car) Car - Intersection DT Driver Training (Extended) Multiple Answers

You are the driver of the blue car. Who must you give way to? Select all that apply

[A] Red car

[B] None of the cars

[C] Green car

✓ Correct

[D] Purple car

✓ Correct

Explanation: The green and purple cars are on the top of the T, so you have to give way to them.

Q0200 Class 1 (Car) Car - Intersection DT Driver Training (Extended) Multiple Answers

You are the driver of the blue car. Who must you give way to? Select all that apply

[A] Motorbike

✓ Correct

[B] None of the vehicles

[C] Green car

[D] Purple car

✓ Correct

[E] Orange car

✓ Correct

Explanation: You must give way to people coming from your left or right when at a give way sign, plus anyone opposite you turning left.

Q0201 Class 1 (Car) Car - Intersection DT Driver Training (Extended) Multiple Answers

You are the driver of the blue car. Who must you give way to? Select all that apply

[A] Purple car

✓ Correct

[B] Cyclist

[C] Green car

[D] No one - they all give way to you

[E] Truck

Explanation: Give way to vehicles coming from your right on the uncontrolled road. The purple car is to your right going straight through, so you must give way to it. The cyclist, green car, and truck all face Give Way signs and must give way to you.

Q0202

Class 1 (Car)

Car - Intersection

DT Driver Training (Extended)

Multiple Answers

You are the driver of the blue car. Who must you give way to? Select all that apply

[A] None of the vehicles

[B] Red car

✓ Correct

[C] Green car

[D] Purple car

[E] Orange car

Explanation: When turning left at the roundabout, give way to traffic already circulating or approaching from your immediate right. The red car is the only vehicle that will pass in front of you from the right.

Q0203

Class 1 (Car)

Car - Intersection

DT Driver Training (Extended)

Multiple Answers

You are the driver of the blue car. Who must you give way to? Select all that apply

[A] Red car

[B] None of the vehicles

[C] Green car

[D] Motorbike

✓ Correct

[E] Orange car

Explanation: At the roundabout, give way to vehicles circulating from your right. The motorbike is crossing your path from the right, so you must give way to it. The orange car is turning left away from your path, and the other vehicles must give way to you.

Q0204

Class 1 (Car)

Car - Intersection

DT Driver Training (Extended)

Multiple Answers

You are the driver of the blue car. Who must you give way to? Select all that apply

[A] Red car

✓ Correct

[B] Neither of the vehicles

[C] Green car

Explanation: The green car is facing a Give Way sign and must give way to all traffic. Because you are turning right across oncoming traffic, you must give way to the oncoming red car which is turning left.

Q0205

Class 1 (Car)

Car - Intersection

DT Driver Training (Extended)

Multiple Answers

You are the driver of the blue car. Who must you give way to? Select all that apply

[A] Truck

✓ Correct

[B] None of the vehicles

[C] Green car

✓ Correct

Explanation: A stop sign has the lowest priority. Even though the green car is turning across in front of you, it has the right of way.

Q0206

Class 1 (Car)

Car - Intersection

DT Driver Training (Extended)

Multiple Answers

You are the driver of the blue car. Who must you give way to? Select all that apply

[A] Purple car

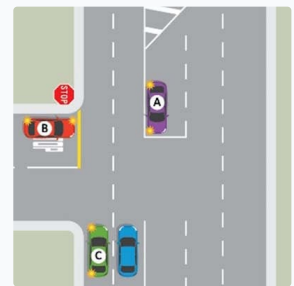

[B] Red car

[C] Green car

[D] None. You have the right of way

✓ Correct

Explanation: You are continuing straight through on a priority road without signs. The purple car is in a right-turn bay and must give way to oncoming through traffic, the red car is at a Stop sign, and the green car is in a separate left-turn lane. You have the right of way over all...

Q0207 Class 1 (Car) Car - Intersection DT Driver Training (Extended) Multiple Answers

You are the driver of the blue car. Who must you give way to? Select all that apply

[A] Cyclist

✓ Correct

[B] None of the vehicles

[C] Motorcyclist

✓ Correct

[D] Purple car

✓ Correct

Explanation: You're turning right from a stop sign, so you have the lowest priority. You'll give way to everything from the two give way signs, plus the car turning left (purple car).

Q0208 Class 1 (Car) Car - Intersection DT Driver Training (Extended) Multiple Answers

You are the driver of the blue car. Who must you give way to? Select all that apply

[A] None of the vehicles

[B] Red car

✓ Correct

[C] Green car

✓ Correct

Explanation: The green car is passing through the intersection without a stop sign, and the red car is passing straight through; you're turning across in front of the red car. Therefore you give way to both of them.

Q0209 Class 1 (Car) Car - Intersection DT Driver Training (Extended)

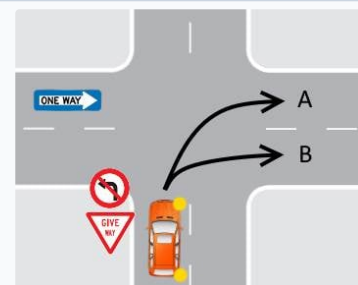

You are turning right from a two-way street into a two-lane one-way street. Which lane should you turn into?

[A] A

[B] B

✓ Correct

Explanation: How to choose lanes at an intersection Choose a lane early and choose the lane that corresponds with the destination lane that is right for you; try to avoid changing lanes near intersections, and definitely not in the intersection itself. When you are turning at an intersection...

Q0210 All Classes Intersection Official NZTA / Waka Kotahi

You are waiting to turn left and you are in the left-hand lane at traffic signals. Which of these traffic signals may you move on?

[A] Signal A

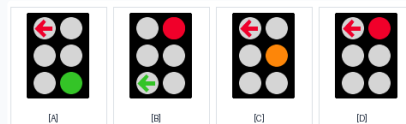

[B] Signal B

✓ Correct

[C] Signal C

[D] Signal D

Explanation: Signal B has a green left-turn arrow showing that left-turning traffic may proceed. Signals A, C, and D all show a red left-turn arrow, which prohibits turning left.

Q0211 All Classes Core Official NZTA / Waka Kotahi

You only need to signal left as you pass the exit of the one you wish to take on the roundabout. You don't need to signal as you come up to the roundabout if you are going straight through. True or false?

[A] TRUE

✓ Correct

[B] FALSE

Explanation: True. You may not be able to give the required three seconds of indication on a smaller roundabout, but you still must indicate.

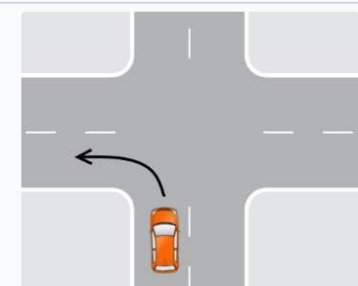

Q0212 Class 1 (Car) Car - Intersection DT Driver Training (Extended)

You're approaching an uncontrolled intersection with no road markings or lights and you want to turn left. Do you need to indicate?

[A] Yes

✓ Correct

[B] No

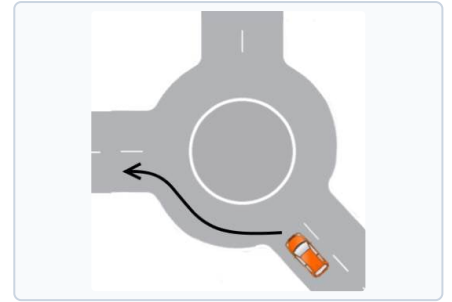

Q0213 Class 1 (Car) Car - Intersection DT Driver Training (Extended)

You're approaching this roundabout and want to follow the arrow. Do you need to indicate?

[A] Yes - indicate left as you approach the roundabout and until you take the exit ✓ Correct

[B] No - it's almost a straight line and therefore doesn't need an indicator

[C] Yes, indicate left as soon as you're on the roundabout

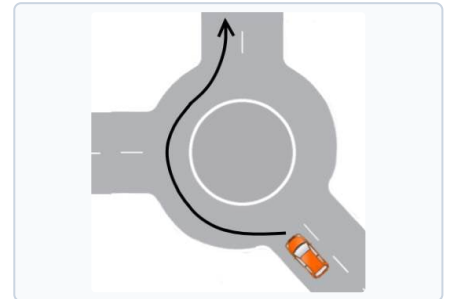

Q0214 Class 1 (Car) Car - Intersection DT Driver Training (Extended)

You're approaching this roundabout and want to follow the arrow. Do you need to indicate?

[A] No - it's almost a straight line

[B] Yes - don't indicate as you approach the roundabout, but indicate left after you've gone past the first exit

[C] Yes - indicate right as you approach the roundabout, then indicate left as you go past the first exit ✓ Correct

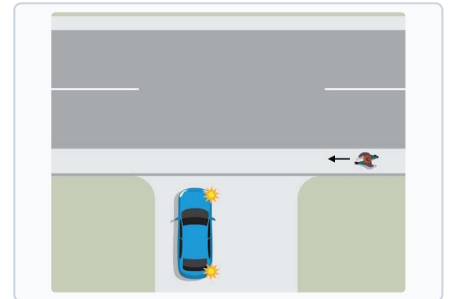

Q0215 Class 1 (Car) Car - Intersection DT Driver Training (Extended)

You're driving the blue car and want to turn out of this driveway. Do you have to give way to the pedestrian on the footpath?

[A] Yes ✓ Correct

[B] No

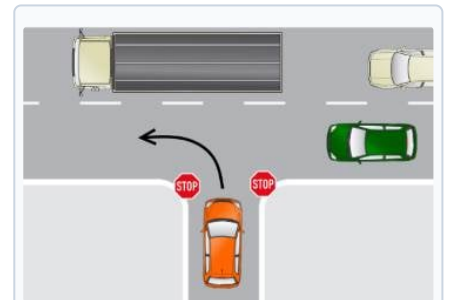

Q0216 Class 1 (Car) Car - Intersection DT Driver Training (Extended)

You're driving the orange car and have stopped at the exit of this one-way street, turning left onto a dual carriageway. Do you have to indicate, seeing as there's no way to turn right?

[A] Yes ✓ Correct

[B] No

Explanation: In the case of the diagram above, the vehicle is turning left. If the driver wants to enter the right-hand lane, they must first enter the left hand lane of the one-way street then indicate right and move across to the right-hand lane. In practical driving, this will be done...

Q0217 Class 1 (Car) Car - Intersection DT Driver Training (Extended)

You're driving the orange car and want to follow the arrow. Do you have to indicate left?

[A] Yes ✓ Correct

[B] No

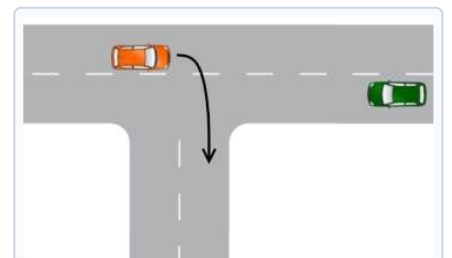

Q0218 Class 1 (Car) Car - Intersection DT Driver Training (Extended)

You're driving the orange car on an urban street and you want to turn right at this intersection. Is it safe to go?

[A] Yes - the green car is quite far away

[B] No - the green car is too close ✓ Correct

Class 1 (Car)

Car - Intersection

DT Driver Training (Extended)

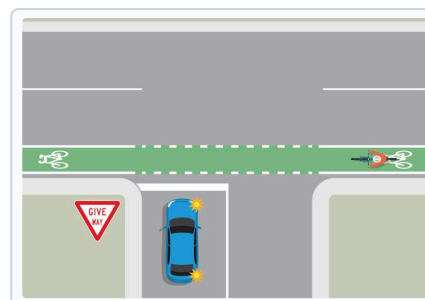

You're in the blue car waiting to turn right while a cyclist approaches from the right. What should you do?

[A] Wait for the cyclist to stop when they reach the dashed white line

[B] Floor it to make it out before the cyclist gets there

[C] Wait until the cyclist has passed

✓ Correct

Core Rules & General Theory

80 Questions

Q0220 All Classes Theory Official NZTA & DT Driver Training

A load may extend in front of a car a maximum distance of what?

[A] 1.5m from behind the bumper

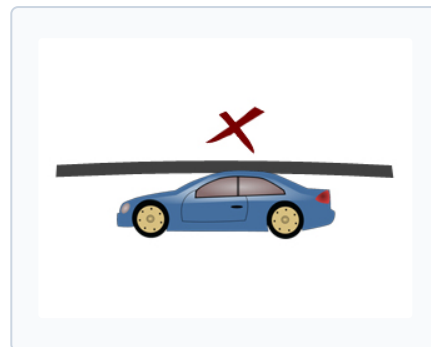

[B] 3m in front of the front edge of the front seat

✓ Correct

[C] Nowhere behind the bumper

[D] 3.5m in front of the bumper

Explanation: Maximum length carrying a load that extends forward You can carry a load on your car that extends three metres in front of the front edge of the front seat. For vehicles with a short bonnet, this could extend more than one metre in front of the front bumper, in which case it...

Q0221 All Classes Theory Official NZTA / Waka Kotahi

A load may overhang your car behind the rear axle by what maximum distance?

[A] 1m

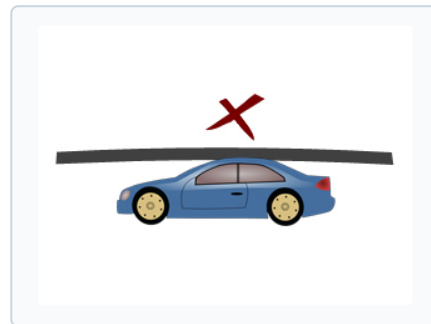

[B] 2m

[C] 3m

[D] 4m

✓ Correct

Explanation: A load can overhang up to 4m behind the rear axle but it must not drag on the ground. If the load protrudes more than 1m behind the car you must tie a white, red, yellow, or orange fluorescent flag to it.

Q0222 All Classes Theory Official NZTA / Waka Kotahi

A passenger who is 15 years or over is required to put on their safety belt, who is responsible for making them?

[A] The person who has had their license the longest in the car

[B] The driver

[C] The passenger

✓ Correct

[D] Whoever owns the car

Explanation: If the passenger is over 15 they are responsible. The driver is only responsible for passengers under the age of 15.

Q0223 All Classes Theory Official NZTA & DT Driver Training

A trailer is being towed at night, what must be displayed on the back of it?

[A] A red light

✓ Correct

[B] A yellow light

[C] A green light

[D] A flashing red light

Explanation: Carrying loads on a car, motorbike or trailer Loading a car Roof racks If you can't fit a load in your car, the safest ways are either to have a roof rack with a custom mounted box, or to use a trailer. When not carrying a load on a roof rack, remove it so that your car is more...

Q0224 Class 1 (Car) Car - Theory DT Driver Training (Extended)

Are you allowed to drive a vehicle with a load that is not tied on properly?

[A] Yes, but drive at less than 20km/h

[B] Yes, if you're confident it won't come off the trailer

[C] Yes, if you put a white or red flag on the right-hand corner

[D] No, never

✓ Correct

Q0225 All Classes Core Official NZTA / Waka Kotahi Multiple Answers

At what time are you permitted to pass another moving vehicle to its right? Select all that apply.

[A] When you start passing you can see 100m in front of you

[B] You've signalled right for at least 3 seconds

✓ Correct

[C] In order to get past, it's safe to exceed the speed limit for a short time

[D] When you've finished passing you can see at least 100m in front of you

✓ Correct

Explanation: Once you've finished passing you need to see 100m in front of you, not when you begin passing, and you should not exceed the speed limit. Therefore B and D are the right answers.

Q0226 Class 1 (Car) Theory Official NZTA & DT Driver Training

Before any modification is carried out on your vehicle, what should you do?

[A] As long as you purchase your parts from a reputable dealer then it is OK to modify your vehicle

[B] Check with a warrant of fitness inspector

✓ Correct

[C] Get a certificate from your lawyer

[D] Indicate your changes on your vehicle registration papers

Explanation: Modifying your vehicle: staying within the Road Code When you want to modify your car the options are endless. You can modify the engine for better power, the suspension for better handling, the bodywork for better aerodynamics, the internals for better crash protection, and so...

Q0227 All Classes Core Official NZTA / Waka Kotahi Multiple Answers

Before you turn to the right on a straight road, what must you do? Check all that apply.

[A] Signal for at least three seconds

✓ Correct

[B] Give way to vehicles from the left

[C] Give way to vehicles coming straight ahead

✓ Correct

[D] Move towards the centre line

✓ Correct

[E] Check your mirrors

✓ Correct

Explanation: You should slow down, check your blind spots, indicate for at least three seconds, position your vehicle near the centre line, give way to other vehicles, and be aware of the path your vehicle and any trailers will take.

Q0228 All Classes Theory Official NZTA & DT Driver Training

Can you carry passengers if you have a learner licence?

[A] No

[B] Yes

[C] Yes, but only if a supervisor agrees to it

✓ Correct

Explanation: You can carry passengers on a learner licence, but only if your supervisor agrees. The supervisor must sit in the front passenger seat and hold a full NZ licence for at least 2 years.

Q0229 All Classes Theory Official NZTA / Waka Kotahi

Do you have to have your learner licence with you when you are driving as a learner?

[A] Yes

✓ Correct

[B] No

Explanation: Yes, you must always have your licence with you when you drive.

Q0230 Class 1 (Car) Car - Core Official NZTA & DT Driver Training

How many standard drinks can you have before driving if you are under 20 years old?

[A] One

[B] Two

[C] Three

[D] None / zero

✓ Correct

Explanation: How to calculate if you are over the legal drink driving limit You cannot calculate your blood alcohol level because it depends on a large number of variables such as your age, weight, gender, general health and fitness, the amount of alcohol you've drunk, the type of alcohol...

Q0231 All Classes Theory Official NZTA & DT Driver Training

How often does your vehicle that was registered on the 1st of January 2000, but is at least 3 years old, require a Warrant of Fitness Inspection?

- [A] Every month
[B] Every 6 months
[C] Every 12 months
[D] Every 2 years

✓ Correct

Explanation: Warrant of Fitness renewal and rules Where should your Warrant of Fitness label go? The WoF label must be displayed on the inside of the front window on the driver's side, and be clearly visible from the outside. The top corner is the best place as it won't interfere with your...

Q0232 All Classes Theory Official NZTA / Waka Kotahi

How often must you renew its warrant of fitness, if your car was first registered before 1st of January 2000?

- [A] Three weeks
[B] Six months
[C] 2 years
[D] 1 year

✓ Correct

Explanation: After an initial inspection, another WoF inspection won't be required until the 3rd anniversary of their first registration for all new vehicles. From 1 July 2014, vehicles first registered anywhere in the world on or after 1 January 2000 move to annual WoFs for the lifetime of...

Q0233 All Classes Core Official NZTA & DT Driver Training

If yellow traffic signals are flashing what does that mean?

- [A] Apply the give way rules as the traffic signals are faulty
[B] If pedestrians have finished crossing then you can proceed through the intersection.
[C] Prepare to stop- a wide load is coming through the intersection
[D] An accident has just happened

✓ Correct

Explanation: Yellow flashing traffic signals If there are one or more yellow flashing lights at traffic signals the lights are faulty. When the lights are faulty use the give way rules to determine who goes first. Use caution, though, and assume that other drivers might not know the rules....

Q0234 All Classes Theory Official NZTA & DT Driver Training

If you have a car licence, can you drive a moped?

- [A] Yes
[B] No

✓ Correct

Explanation: What vehicles can you drive on what class of licence in New Zealand? Class 1 – car licence (learner or restricted) A holder of a Class 1 learner or restricted licence can drive: Any vehicle with a gross laden weight (GLW) or gross combined weight (GCW) of not more than 4500kg,...

Q0235 Class 1 (Car) Car - Theory DT Driver Training (Extended)

If you have a restricted licence and you are caught driving at 2:30am on your own by the police, what happens?

- [A] \$300 fine
[B] your restricted licence is suspended for 3 months and you are fined \$100
[C] 35 demerit points and a \$100 fine
[D] 25 demerit points and a \$100 fine

✓ Correct

Explanation: Restricted driver licence In New Zealand we have a graduated driver licence system (GDLS). This means you get a learner licence first, then progress to a restricted licence and finally a full licence. A restricted licence helps you gain experience with minimum unnecessary...

Core

Official NZTA / Waka Kotahi

What is a courtesy crossing?

[A] It's a crossing that is controlled by red or green flashing lights

[B] It's at crossing lights where a yellow man symbol appears to allow pedestrians to cross the road

[C] It's not a required stop, it's a raised crossing in the road that allows a safe place for pedestrians to cross.

✓ Correct

Explanation: Although they are not official pedestrian crossings, they do provide a safe spot for drivers to stop and allow pedestrians to cross. Normally they are made out of bricks or paving and are above the road level.

What is the minimum tread depth required for car tyres?

[A] 1mm

[B] 1.25mm

[C] 1.5mm

✓ Correct

[D] 2mm

Explanation: What does tyre tread do? Tyre tread helps disperse water. If you don't have tyre tread then the tyre will ride up on top of the surface of the water, at which time you lose the majority of your grip. This is called aquaplaning or hydroplaning. When you watch motor racing you...

Official NZTA / Waka Kotahi

What is the most important thing to remember when carrying a passenger?

[A] Because it's heavier, the motorcycle will respond more slowly

✓ Correct

[B] You will be less visible because your headlights will be dipped further

[C] There's more weight over the rear wheel so you can stop faster

[D] The driver should give the passenger(s) more room by moving further forward

Explanation: Correct. If you have the right bike and equipment then the passenger should be able to fit comfortably when you are in the right riding position. Your headlights will be higher with the extra weight on your back, you can risk dazzling drivers. Turning, braking and accelerating...

Official NZTA / Waka Kotahi

What should you do to help prevent you from being blinded by the headlights of an oncoming vehicle?

[A] Hoot the horn to let the other driver know

[B] Slow down and keep your eyes to the left of the road

✓ Correct

[C] Look to the right-hand side of the road

[D] Look at the line in the middle of the road

Explanation: Keep your eyes to the left to ensure you won't be looking directly into the light. You could cause an accident if you flash your lights at the other driver as it risks blinding or distracting them. Your forward visibility will be reduced so be sure to slow down.

Q0272

When are you allowed to pass another vehicle?

- [A] When a vehicle has stopped at a pedestrian crossing
[B] When you are less than 10 metres away from a railway level crossing

[C] When you can see at least 100 metres of clear road in front of you once you have finished passing

✓ Correct

[D] When you are coming up to a blind corner or blind bend

Q0276 Class 1 (Car) Core DT Driver Training (Extended)

When carrying a load on your motorcycle, what's the maximum distance either side of the centre line that your load can extend?

[A] 55cm from the centre line of the motorcycle

✓ Correct

- [B] 75cm from the centre line of the motorcycle
[C] 100cm from the centre line of the motorcycle
[D] 150cm from the centre line of the motorcycle

Explanation: Carrying loads on a car, motorbike or trailer Loading a car Roof racks If you can't fit a load in your car, the safest ways are either to have a roof rack with a custom mounted box, or to use a trailer. When not carrying a load on a roof rack, remove it so that your car is more...

Q0277 Class 1 (Car) Core Official NZTA & DT Driver Training

When carrying a load on your motorcycle, what's the maximum distance in front and behind that your load can extend?

[A] 1m each way

✓ Correct

- [B] 1.5m each way
[C] 2m each way

Explanation: Carrying loads on a car, motorbike or trailer Loading a car Roof racks If you can't fit a load in your car, the safest ways are either to have a roof rack with a custom mounted box, or to use a trailer. When not carrying a load on a roof rack, remove it so that your car is more...

Q0278 Class 1 (Car) Core Official NZTA / Waka Kotahi Multiple Answers

When carrying a passenger on a motorcycle, what changes should you make to your motorcycle and riding style? Check all that apply.

[A] For a more comfortable ride, deflate the tyres slightly so that more tyre contacts the road

[B] To compensate for the change in angle of the motorcycle because of the passenger adjust the mirror and headlight

✓ Correct

[C] Adjust your shock absorbers (if possible) to be firmer

✓ Correct

[D] Seat further up in your seat than you normally would

Explanation: You should put more air in your tyres, adjust your mirror and headlights and firm up your shock absorbers. Ride in your normal position and don't move forwards.

Q0279 All Classes Core Official NZTA / Waka Kotahi Multiple Answers

When does a police officer have the power to arrest you? Select all that apply.

- [A] If you don't come to a stop when required to ✓ Correct
- [B] If you give false information to the police officer about the ownership of the vehicle you are driving and/or if you fail to provide your name and address ✓ Correct
- [C] If you refuse to have your blood or breath tested for alcohol. ✓ Correct
- [D] If you continue to drive when you have been told not to drive by a police officer ✓ Correct
- [E] If you fail to hand over your keys to a police officer when requested ✓ Correct

Explanation: You did not get all of them. All of these are grounds for a police officer to arrest you.

Q0280 All Classes Core Official NZTA / Waka Kotahi

When does the four-second rule need to be applied?

- [A] If the road is wet or frosty, or you are towing a trailer ✓ Correct
- [B] If you have worn out brakes
- [C] If you're travelling at more than 80kph
- [D] When it gets dark out

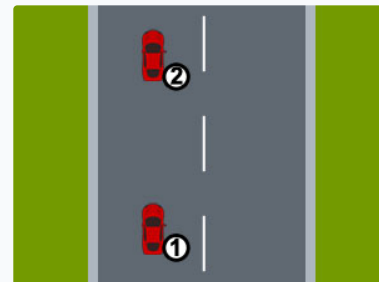

Explanation: The four-second rule should be used on wet and frosty roads, as they can double the stopping distance. The extra weight of a trailer will also add to your stopping distance.

Q0281 Class 1 (Car) Core Official NZTA & DT Driver Training

When driving a car in wet or frosty conditions, what rule should you use to judge as a safe following distance?

- [A] Two-second rule
- [B] Four-second rule ✓ Correct
- [C] 100 metre rule

Explanation: Stopping distances explained Use the two-second rule in dry conditions. Use the four-second rule in wet conditions or when towing a trailer in dry conditions. On ice it can take up to 10 times the distance to stop. The stopping distance is the distance it takes your vehicle to...

Q0282 Class 1 (Car) Core Official NZTA & DT Driver Training

When driving are you required to carry your licence at all times if you are the holder of any class of driver licence?

- [A] No
- [B] Yes ✓ Correct
- [C] Only if you're on a suspended licence

Explanation: What is the fine for not carrying your driver licence? You must carry your driving licence at all times with you when you are driving. According to government documents the current fine is \$55, although you are more likely to be asked to visit a police station within 72 hours...

Q0283 Class 1 (Car) Car - Core Official NZTA & DT Driver Training

When driving at night, which vehicle lights should you turn on?

- [A] Position lights (park lights) only
- [B] Dipped headlights (low beam) ✓ Correct
- [C] Interior lights
- [D] Hazard lights

Explanation: Using your vehicle's headlights When you can't see at least 100m ahead of you, you must turn your vehicle's headlights on. Even if you can see well, other drivers might not be able to see you, especially if your vehicle is a darker colour. In fact, if you drive a darker coloured...

Q0284 All Classes Core Official NZTA / Waka Kotahi Multiple Answers

When is it permitted to pass a vehicle to its left? Check all that apply.

- [A] You have been directed to by a police officer ✓ Correct
- [B] It's safe to pass as there are two or more lanes on your side of the road ✓ Correct
- [C] The car you will pass is signalling a right turn and is either slowing down or has stopped ✓ Correct

[D] There's enough room to pass safely on a signal lane road and the vehicle is a motorbike or scooter

Explanation: The correct answers are A, B and C. When you pass motorbikes and scooters, you must maintain a safe distance as they can easily be blown off course, or you may need to move to avoid an obstacle on the road.

Q0285 Class 1 (Car) Core Official NZTA / Waka Kotahi

When may you be permitted to carry a pillion passenger?

- [A] On a learner licence but only during daylight hours
- [B] Full Class 1 licence only

[C] Only on a full Class 6 licence ✓ Correct

[D] On any licence at any time

Explanation: On a full Class 6 licence is when you may carry a pillion passenger.

Q0286 All Classes Core Official NZTA / Waka Kotahi Multiple Answers

When should you be using your horn? Select all those that apply.

- [A] To let another drive know that you are there ✓ Correct
- [B] To warn a motorcycle ✓ Correct

[C] If someone cuts in front of you

[D] As you are leaving a family member's house

Explanation: A horn should only be used as a reasonable traffic warning to alert other drivers, motorcyclists, or road users of your presence or an impending hazard. It must not be used in anger or as a social greeting.

Q0287 All Classes Core Official NZTA / Waka Kotahi

When should you turn your vehicle headlights on?

- [A] 30 minutes after sunset until 30 minutes before sunrise
- [B] In fog
- [C] When you can't see 100 metres ahead of you

[D] All of the above ✓ Correct

Explanation: Using your lights will make you more visible, all of these situations mean your vehicle is less visible to other road users. Note that it is mandatory to turn your headlights or daytime running lights on during daylight hours if you are riding a motorbike that was manufactured...

Q0288 All Classes Core Official NZTA / Waka Kotahi

When you are at an intersection, what do a police officer's directions overrule?

- [A] Traffic lights
- [B] Give Way rules
- [C] Road signs, such as stop signs

[D] All of the above ✓ Correct

Explanation: All other signs and signals at an intersection are overruled by a police officer's directions.

Q0289 Class 1 (Car) Car - Theory DT Driver Training (Extended)

When you have a learner licence you must always have a supervisor in the vehicle with you. Where in the vehicle must the supervisor sit?

[A] In the front passenger seat ✓ Correct

[B] In any seat

You can be required to undergo a breath screen test by who?

- [A] A police officer**
- [B] A fire officer
- [C] A lawyer
- [D] A nurse
- [E] None of the above

✓ Correct

Explanation: A police officer will ask you to blow into either a tube of crystals with a bag on the end or a small electronic device. If your alcohol level is high, you will be asked to take an evidential breath test or have a blood test.

Q0296 All Classes Theory Official NZTA / Waka Kotahi

You have a 15 year old (0-14) in your vehicle. Who is responsible for making them use a safety belt or a safety seat in a vehicle?

[A] The person in the car who has had their licence the longest

[B] The driver

✓ Correct

[C] The passenger

[D] The oldest person in the car

Explanation: All passengers under 15 years of age are held under the responsibility of the driver for seatbelts. Any passengers that are older than 15 are responsible for putting their own seatbelts on.

Q0297 All Classes Theory Official NZTA & DT Driver Training

You must always drive with a supervisor when you have a learner licence. What is a supervisor?

[A] A person over the age of 25 with a full New Zealand driver's licence of the same class that you are driving

[B] A person who has held a full New Zealand driver's licence for more than two years in the same class that you are driving

✓ Correct

[C] A driver that has had a restricted licence for at least a year in any class and that is 25 or older

[D] A person over the age of 25 who has held any New Zealand driver's licence for 1 or more years

Explanation: Driving restrictions when on a learner licence To get a learner licence you'll have to practice and pass a theory test , which you can do for free on this website. When you have a learner licence you must have a supervisor at all times and display L plates on your vehicle. You...

Q0300 All Classes Class 2 Official NZTA / Waka Kotahi Multiple Answers

A driver must do a pre-tip safety inspection for what purpose? Check all that apply.

[A] It's legally required

[B] You can check the load is secured

✓ Correct

[C] You can check for safety issues

✓ Correct

[D] It lowers the risk of being fined or being issued a non-operation order

✓ Correct

Explanation: It is a legal requirement to ensure your vehicle is safe and safely loaded. You can do the walk-around inspections yourself if you are a driver or an operator, to ensure that the defects are fixed before you hit the road.

Q0301 All Classes Class 2 Official NZTA / Waka Kotahi

A driver must maintain how many logbooks?

[A] One

✓ Correct

[B] Two- One for your employer and one for the vehicle

[C] Three- One for your employer, one for your vehicle, and one for your records

Explanation: Correct. You are only required to keep one logbook.

Q0302 All Classes Class 2 Official NZTA / Waka Kotahi

A heavy vehicle has a Gross Vehicle Mass (GVM) surpassing:

[A] 3000kg

[B] 3500kg

✓ Correct

[C] 4000kg

[D] 4500kg

Explanation: A heavy vehicle has a gross vehicle mass surpassing 3500kg

Q0303 All Classes Class 2 Official NZTA / Waka Kotahi

A vehicle and it's load on either side of the longitudinal centre line is permitted what maximum width?

[A] 1.25m

✓ Correct

[B] 1.5m

[C] 2m

[D] 2.5m

Explanation: Correct. On either side of the centre line the maximum width is 1.25m, which is an overall maximum width of 2.5m.

Q0304 All Classes Class 2 Official NZTA & DT Driver Training

After driving on an uneven surface, what should you do?

[A] Check tyre pressures

[B] Have a rest

[C] Check your load

✓ Correct

[D] You aren't required to do anything, nothing changes

Explanation: Heavy vehicle weights and loads The tare weight is the weight of the vehicle itself, not including any load. Gross weight is the combined weight of a vehicle and its load, accessories and equipment. Before an overweight vehicle or load can be used on the road, the driver must...

Q0305 All Classes Class 2 Official NZTA / Waka Kotahi

Anchor points to which lashings are fastened, must have a strength of at least:

[A] Half the strength of the lashings

[B] At least the rated strength of the lashings

✓ Correct

[C] Twice the strength as the lashings

Explanation: The anchor points must have at minimum, the same strength as the lashings.

Q0306 All Classes Class 3-5 Official NZTA / Waka Kotahi

Between which points is the forward distance of a semi-trailer measured?

[A] The distance between the mid-point of the rear and front axis of the semi-trailer to the front of the vehicle or load

[B] The distance inbetween the centre of the kingpin and the rear axis of the semi-trailer

✓ Correct

[C] The distance between the front of the vehicle or its load and the rear axis of the semi-trailer to

[D] The distance from the front of the trailer to the rear axis (excluding any drawbars and/or the front axle set)

Explanation: The forward distance is measured between the rear axis and the centre of the kingpin.

Q0307 All Classes Class 3-5 Official NZTA / Waka Kotahi

During the hours of darkness, when the load you are carrying is up to 1 metre wide and extends from the rear of the vehicle by more than 1 metre, what warning devices are required?

[A] Flashing orange (or orange and purple) lights

[B] One red rear-facing light positioned in the centre of the rear of the overhang

✓ Correct

[C] One red light with a sideways facing white light (either side) as per B

[D] In the centre of the load, one flashing red rear-facing light

Explanation: Depending on the load there are various lighting requirements - here you would need one red light positioned at the rear and centre of the load and one facing rearwards.

Q0308 Classes 2-5 (Heavy) Heavy_Vehicle - Class-2 DT Driver Training (Extended)

Every driver of a vehicle for which a logbook is required must retain the logbook. For what period of time after the last entry must the logbook be retained?

[A] 0 months

[B] 12 months

✓ Correct

[C] 24 months

[D] 36 months

Explanation: Heavy vehicle work time requirements and logbooks Work time restrictions are placed on heavy vehicle drivers because driver fatigue is a leading cause of fatal crashes. Commercial drivers are particularly at risk, especially when they drive during shift-work. To keep drivers...

Q0309 Classes 2-5 (Heavy) Heavy_Vehicle - Class-2 Official NZTA & DT Driver Training

Failure by a driver to produce an approved logbook when requested by an enforcement officer is an offence. If you are convicted of this offence, you may be disqualified or fined. What is the maximum you can be fined?

[A] \$2,000

✓ Correct

[B] \$5,000

[C] \$10,000

[D] \$25,000

Explanation: Heavy vehicle work time requirements and logbooks Work time restrictions are placed on heavy vehicle drivers because driver fatigue is a leading cause of fatal crashes. Commercial drivers are particularly at risk, especially when they drive during shift-work. To keep drivers...

Q0310 All Classes Class 2 Official NZTA / Waka Kotahi

Fasteners used in securing loads are permitted an additional allowable width of what?

[A] 25mm each side

✓ Correct

[B] 50mm each side

[C] 75mm each side

[D] 100mm each side

Explanation: Correct. Fasteners are permitted an additional 25mm per side and the tensioning devices or straps must not be permanently or rigidly fixed to the vehicle.

Q0311 All Classes Class 3-5 Official NZTA / Waka Kotahi

For a heavy full trailer, the maximum rear overhang including its load is the lesser of:

[A] 4m or 50% of the wheelbase

✓ Correct

[B] 4m or 65% of the wheelbase

[C] 6m or 50% of the wheelbase

[D] 5m or 65% of the wheelbase

Explanation: It is 4m or 50% of the wheelbase for a heavy full trailer.

Q0312 Classes 2–5 (Heavy) Heavy_Vehicle - Class-2 Official NZTA & DT Driver Training

For a heavy rigid vehicle whose rear-most axle is a non-steering axle, the maximum rear overhang permitted including its load is the lesser of:

[A] 3m or 60% of the wheelbase

[B] 3m or 70% of the wheelbase

[C] 4m or 60% of the wheelbase

[D] 4m or 70% of the wheelbase

✓ Correct

Explanation: Heavy vehicle dimensions and measurements Class 2 The forward distance is the measurement is from the rear axis to the front of the vehicle or its load. The maximum distance a vehicle or its load may extend forward from the front edge of the driver's seat (in its rearmost...

Q0313 All Classes Class 2 Official NZTA / Waka Kotahi

For securing a load, what additional height is allowed for tarpaulins and lashings, apart from the maximum allowable body or load height of 4.25 metres for a heavy motor vehicle?

[A] 25mm

✓ Correct

[B] 50mm

[C] 75mm

[D] 100mm

Explanation: Correct. The tensioning devices or straps must not be forever attached to the vehicle.

Q0314 All Classes Class 2 Official NZTA & DT Driver Training

From the front edge of the driver's seat (in its rearmost position), what is the maximum distance a vehicle or its load may extend forward?

[A] 2m

[B] 3m

✓ Correct

[C] 4m

[D] 5m

Explanation: Heavy vehicle dimensions and measurements Class 2 The forward distance is the measurement is from the rear axis to the front of the vehicle or its load. The maximum distance a vehicle or its load may extend forward from the front edge of the driver's seat (in its rearmost...

Q0315 Classes 2–5 (Heavy) Heavy_Vehicle - Class-2 DT Driver Training (Extended)

How many logbooks must a driver maintain?

[A] 1

✓ Correct

[B] 2 - one for you and one for your employer

[C] As many as required as long as information isn't duplicated

Explanation: Heavy vehicle work time requirements and logbooks Work time restrictions are placed on heavy vehicle drivers because driver fatigue is a leading cause of fatal crashes. Commercial drivers are particularly at risk, especially when they drive during shift-work. To keep drivers...

Q0316 Classes 2–5 (Heavy) Heavy_Vehicle - Class-2 Official NZTA & DT Driver Training

How much weight (sideways) must load restraint systems be able to withstand?

[A] Twice the weight of the load

[B] The weight of the load

[C] Half the weight of the load

✓ Correct

Explanation: For sideways forces, the load restraint system must be able to withstand at least half the weight of the load (0.5g).

Q0317

Classes 2–5 (Heavy)

Heavy_Vehicle - Class-2

Official NZTA & DT Driver Training

If a driver (other than a taxi driver) is subject to work time requirements, what is the maximum continuous period of work time allowed before a minimum 30-minute break is required?

[A] 4.5 hours

[B] 5 hours

[C] 5.5 hours

✓ Correct

[D] 6 hours

Explanation: Heavy vehicle work time requirements and logbooks Work time restrictions are placed on heavy vehicle drivers because driver fatigue is a leading cause of fatal crashes. Commercial drivers are particularly at risk, especially when they drive during shift-work. To keep drivers...

If a driver is subject to work time requirements, what is the minimum continuous rest time to be taken before a new cumulative work period commences?

[A] 10 hours

[B] 15 hours

[C] 24 hours

✓ Correct

[D] 36 hours

Explanation: Heavy vehicle work time requirements and logbooks Work time restrictions are placed on heavy vehicle drivers because driver fatigue is a leading cause of fatal crashes. Commercial drivers are particularly at risk, especially when they drive during shift-work. To keep drivers...

Q0322 All Classes Class 2 Official NZTA / Waka Kotahi

If you are driving a rigid vehicle that has a gross combined weight of 12,000kg, what is the lowest class of licence required?

[A] Class 2

✓ Correct

[B] Class 3

[C] Class 4

[D] Class 5

Explanation: Correct. A driver with a class 2 licence is allowed to drive a vehicle with a cross laden weight of up to 18000kg, and a combination vehicle up to 12000kg.

Q0323 All Classes Class 2 Official NZTA & DT Driver Training Multiple Answers

In the driver's logbook, what information about the vehicle must be included? Check all that apply.

[A] Registration number

✓ Correct

[B] Make and model numbers

[C] Fuel mileage

[D] Start and finish distance recorder readings (if subject to road user charges)

✓ Correct

[E] Vehicle value at time of purchase

Explanation: Heavy vehicle work time requirements and logbooks Work time restrictions are placed on heavy vehicle drivers because driver fatigue is a leading cause of fatal crashes. Commercial drivers are particularly at risk, especially when they drive during shift-work. To keep drivers...

Q0324 All Classes Class 2 Official NZTA / Waka Kotahi

Including its load, what is the maximum vehicle width permitted? (other than an agriculture vehicle)

[A] 2m

[B] 2.5m

✓ Correct

[C] 3m

[D] 3.5m

[E] 4m

Explanation: 1.25m each side of a longitudinal centre line with a maximum of 2.5m.

Q0325 All Classes Class 2 Official NZTA / Waka Kotahi

Including its load, what is the maximum height permitted from the ground for a vehicle?

[A] 3.5m plus 25mm for lashings, tarpaulins, straps, chains, or covers

[B] 3.75m plus 25mm for lashings, tarpaulins, straps, chains or covers

[C] 4.25m plus 25mm for lashings, tarpaulins, straps, chains or covers

✓ Correct

[D] 4.75m plus 25mm for lashings, tarpaulins, straps, chains or covers

[E] 5.5m plus 25mm for lashings, tarpaulins, straps, chains or covers

Explanation: The maximum height is 4.25m and the tensioning devices or straps must not be permanently attached to the vehicle.

Q0326 All Classes Class 2 Official NZTA / Waka Kotahi

Is a driver required to do a pre-trip safety inspection?

[A] Yes. It's a legal requirement

[B] Yes. It's for safety reasons

✓ Correct

[C] No. Only if weight of the load changed

Explanation: You may have to complete some items that are a legal requirement during a pre-trip check, for example affixing dangerous goods signs, but it is not a legal requirement.

Q0327 [All Classes](#) [Class 2](#) [Official NZTA / Waka Kotahi](#)

It is the responsibility of who to ensure a permit is carried for over dimensional and overweight loads?

- [A] Your employer
[B] The goods supplier
[C] The trailer manufacturer

[D] The driver

✓ Correct

Explanation: This is the responsibility of the driver.

Q0328 [All Classes](#) [Class 2](#) [Official NZTA / Waka Kotahi](#)

Loose bulk loads that are uncovered possibly could fall from the vehicle if they are higher than:

- [A] 200mm below the height of the vehicle body
[B] 100mm below the side of the vehicle body
[C] The same height as the vehicle
[D] 100mm higher than the vehicle's doors

[B] 100mm below the side of the vehicle body

✓ Correct

Explanation: 100mm below the height of the vehicle body is the maximum that uncovered loose bulk loads should be loaded.

Q0329 [All Classes](#) [Class 2](#) [Official NZTA & DT Driver Training](#) [Multiple Answers](#)

On a Class 2 licence, what types of vehicles can you drive? Check all that apply.

- [A] A rigid vehicle (including any tractor) with a GLW of more than 6000kg but less than 18,000kg ✓ Correct
[B] A combination vehicle (that is not a tractor/trailer combination) with a GCW of not more than 12,000kg ✓ Correct
[C] A combination vehicle (that is not a tractor) consisting of a rigid vehicle with a GLW of 18,000kg or less towing a light trailer (GLW of 3500kg or less) ✓ Correct
[D] A rigid vehicle with a GLW of more than 18,000kg that has no more than two axles ✓ Correct
[E] A tractor with a GLW of more than 6000kg but not more than 18,000kg, if driven at a speed over 30km/h ✓ Correct

Explanation: Incorrect, all of the above in addition to a special-type of vehicle * runs on wheels and has a GLW of more than 18,000kg but does not exceed over 30km/h (Class D licence required), a tractor if driven at a speed over 30km/h and has a GLW of more than 6000kg

Q0330 [Classes 2–5 \(Heavy\)](#) [Heavy_Vehicle - Class-2](#) [Official NZTA & DT Driver Training](#)

On a two-axle truck, what is the forward distance?

- [A] The distance between the mid-point of the rear and front axis to the front of the vehicle or load
[B] The distance between the front axis to the front of the vehicle or its load

[C] The distance between the rear axis to the front of the vehicle or its load

✓ Correct

Explanation: Heavy vehicle dimensions and measurements Class 2 The forward distance is the measurement is from the rear axis to the front of the vehicle or its load. The maximum distance a vehicle or its load may extend forward from the front edge of the driver's seat (in its rearmost...

Q0331 [Classes 2–5 \(Heavy\)](#) [Heavy_Vehicle - Class-2](#) [Official NZTA & DT Driver Training](#)

Providing the manufacturer's tyre and axle ratings are not exceeded, what is the maximum weight permitted on a twin-tyred axle?

- [A] 6200kg
[B] 7200kg

[C] 8200kg

✓ Correct

[D] 9200kg

Explanation: Heavy vehicle weights and loads The tare weight is the weight of the vehicle itself, not including any load. Gross weight is the combined weight of a vehicle and its load, accessories and equipment. Before an overweight vehicle or load can be used on the road, the driver must...

Q0332 [All Classes](#) [Class 2](#) [Official NZTA / Waka Kotahi](#) [Multiple Answers](#)

Select the ones which are not goods services:

[A] A vehicle recovery service

✓ Correct

[B] Air cargo

✓ Correct

[C] Airport shuttle service

✓ Correct

[D] Moving animals

[E] Moving mail

Explanation: Only mail and moving animals are considered goods services; the others aren't.

Q0333 [Classes 2–5 \(Heavy\)](#) [Heavy_Vehicle - Class-2](#) [DT Driver Training \(Extended\)](#)

The maximum allowable body or load height is 4.3 metres for a heavy motor vehicle. What additional height is allowed for load securing devices such as tarpaulins and lashings?

[A] 0mm

✓ Correct

[B] 25mm

[C] 50mm

[D] 100mm

Explanation: Heavy vehicle dimensions and measurements Class 2 The forward distance is the measurement is from the rear axis to the front of the vehicle or its load. The maximum distance a vehicle or its load may extend forward from the front edge of the driver's seat (in its rearmost...

Q0334 [All Classes](#) [Class 2](#) [Official NZTA / Waka Kotahi](#)

The maximum overall length for a heavy rigid vehicle including its load, when not towing a trailer, is what?

[A] 12m

[B] 12.3m

[C] 12.6m

✓ Correct

[D] 12.9m

Explanation: Not including collapsible mirrors, 12.6m is the maximum length.

Q0335 [All Classes](#) [Class 2](#) [Official NZTA / Waka Kotahi](#)

The rear red light of a heavy goods service vehicle must be visible from what distance? (Hint: not an over-dimension vehicle)

[A] 50m

[B] 100m

✓ Correct

[C] 150m

[D] 200m

Explanation: A rear-facing red light that is visible at least 100m away and is on the side of the vehicle closest to the centre line is required for heavy motor vehicles and vehicles fitted with a flat deck or tray for carrying goods that are parked on the street at night. The lights must be...

Q0336 [All Classes](#) [Class 2](#) [Official NZTA / Waka Kotahi](#)

The tare weight of a vehicle is:

[A] The load's maximum weight

[B] The vehicle's unladen weight

✓ Correct

[C] The weight of the vehicle plus the load

[D] The weight of the vehicle minus the load weight

Explanation: Not including any load, the tare weight is the weight of the vehicle itself.

Q0337 All Classes Class 2 Official NZTA & DT Driver Training

To carry dangerous goods how often do you have to renew your endorsement?

- [A] 1 year
[B] 2 years
[C] 3 years

[D] 5 years

✓ Correct

Explanation: To carry dangerous goods which includes flammable liquids, explosives, toxic substances, corrosive substances and oxidising agents you must renew your endorsement every 5 years.

Q0338 All Classes Class 3-5 Official NZTA / Waka Kotahi

What class of licence is required to drive a combination vehicle that has a gross combined weight of 25,500kg?

- [A] Class 3
[B] Class 4

[C] Class 5

✓ Correct

[D] Class 6

Explanation: Drivers with a class 5 licence are allowed to drive combination vehicles of more than 25,000kg.

Q0339 All Classes Class 2 Official NZTA / Waka Kotahi

What does gross weight mean?

[A] The weight of a rigid or combination vehicle with it's load

[B] The weight of a rigid or combination vehicle, together with any load it is carrying (including accessories and equipment)

✓ Correct

[C] The weight of a rigid or combination vehicle including accessories

[D] The weight of a rigid or combination vehicle only, no load or accessories

Explanation: The combined weight of a vehicle and it's load along with it's accessories and equipment is the combined gross weight.

Q0340 Classes 2-5 (Heavy) Heavy_Vehicle - Class-2 DT Driver Training (Extended)

What is the additional width allowable for fasteners used in securing loads?

[A] 0mm each side

✓ Correct

[B] 25mm each side

[C] 50mm each side

[D] 100mm each side

Explanation: Fasteners used in securing loads are permitted 0mm additional width each side.

Q0341 Classes 2-5 (Heavy) Heavy_Vehicle - Class-2 Official NZTA & DT Driver Training

What is the combined rated strength of lashings placed over rigid loads on heavy motor vehicles where loaded against a headboard?

[A] Twice the weight of the load

[B] The weight of the load

✓ Correct

[C] Half the weight of the load

Explanation: The combined rated strength of lashings or tie downs placed over rigid loads on heavy motor vehicles where loaded against a headboard must be at least the weight of the load.

Q0342 All Classes Class 3-5 Official NZTA / Waka Kotahi

What is the forward distance of a full trailer (other than a pole trailer), the front axle of which is steered by a towbar?

[A] The distance between the mid-point of the rear and front axis of the trailer to the front of the vehicle or load

[B] The distance inbetween front of the vehicle or its loadand the front axis of the trailer

[C] The distance between to the front of the vehicle or its load and the rear axis of the trailer

[D] The distance from the front of the trailer to the rear axis (excluding any drawbars and/or the front axle set)

✓ Correct

Explanation: From the rear axis to the front of the trailer (the forward distance) the maximum distance is 8.5m.

Q0343 All Classes Class 3-5 Official NZTA / Waka Kotahi

What is the lowest class of licence required to drive a combination vehicle that has a gross combined weight of 14,000kg?

[A] Class 3

✓ Correct

[B] Class 4

[C] Class 5

[D] Class 6

Explanation: Drivers having a class 3 licence are allowed to drive combination vehicles from 12,000-25,000kg.

Q0344 All Classes Class 3-5 Official NZTA & DT Driver Training

What is the maximum distance a load may extend behind the body of a trailer before an overdimensional flag is required?

[A] 1m

✓ Correct

[B] 1.25m

[C] 1.5m

[D] 2.75m

Explanation: Carrying loads on a car, motorbike or trailer Loading a car Roof racks If you can't fit a load in your car, the safest ways are either to have a roof rack with a custom mounted box, or to use a trailer. When not carrying a load on a roof rack, remove it so that your car is more...

Q0345 All Classes Class 3-5 Official NZTA / Waka Kotahi

What is the maximum distance a load may extend out from the side of the body of a trailer before an overdimensional flag is required?

[A] 200mm

✓ Correct

[B] 325mm

[C] 450mm

[D] 525mm

Explanation: A warning flag is required if there is more than 200mm jutting out.

Q0346 Classes 2-5 (Heavy) Heavy_Vehicle - Theory Official NZTA & DT Driver Training

What is the maximum distance a load may overhang your truck behind the rear axis?

[A] 1m

[B] 2m

[C] 3m

[D] 4m

✓ Correct

[E] 5m

Explanation: Heavy vehicle dimensions and measurements Class 2 The forward distance is the measurement is from the rear axis to the front of the vehicle or its load. The maximum distance a vehicle or its load may extend forward from the front edge of the driver's seat (in its rearmost...

Q0347 All Classes Class 3-5 Official NZTA / Waka Kotahi

What is the maximum forward distance for a heavy motor vehicle with a tow coupling?

[A] 8.25m

[B] 8.5m

✓ Correct

[C] 8.75m

[D] 10m

Explanation: The maximum distance with a tow coupling is 8.5m; without one heavy rigid vehicles can have a 9.5m forward distance.

Q0348 All Classes Class 2 Official NZTA / Waka Kotahi**What is the maximum forward distance for a heavy rigid vehicle without a tow coupling?**

[A] 8.5m

[B] 9m

[C] 9.5m

✓ Correct

[D] 10m

Explanation: With a tow coupling it is 8.5m, and without a tow coupling it is 9.5m.**Q0349** Classes 2–5 (Heavy) Heavy_Vehicle - Class-2 DT Driver Training (Extended)**What is the maximum height from the ground permitted for a vehicle, including its load?**

[A] 3.7m

[B] 4m

[C] 4.3m

✓ Correct

[D] 4.6m

[E] 5m

Explanation: Heavy vehicle dimensions and measurements Class 2 The forward distance is the measurement is from the rear axis to the front of the vehicle or its load. The maximum distance a vehicle or its load may extend forward from the front edge of the driver's seat (in its rearmost...**Q0350** All Classes Class 3-5 Official NZTA / Waka Kotahi**What is the maximum height of a heavy motor vehicle from the ground (not including straps, lashings, coverings, etc)?**

[A] 3.75m

[B] 4.25m

✓ Correct

[C] 4.5m

[D] 5.0m

Explanation: 4.25 metres above ground is the maximum height. You are allowed an additional 25 millimetres for tarpaulins, lashings, straps, chains, covers and related connectors and tensioning devices that aren't permanently or rigidly fixed to the vehicle.**Q0351** All Classes Class 3-5 Official NZTA / Waka Kotahi**What is the maximum overall length for a truck and semi-trailer combination including its load?**

[A] 18m

[B] 15m

[C] 16m

[D] 19m

✓ Correct

[E] 21m

Explanation: 19m is the maximum total length for a rigid vehicle or semi-trailer combination (including load, but without collapsible mirrors) . For trailers the maximum length is be 20m.**Q0352** All Classes Class 3-5 Official NZTA / Waka Kotahi**What is the maximum overall length for any heavy motor vehicle towing two trailers and including their load?**

[A] 16m

[B] 15m

[C] 17m

[D] 21m

[E] 20m

✓ Correct

Explanation: The maximum total length for any heavy motor vehicle towing two trailers is 20m. This length applies to all types (A-train, B-train, pole trailer or simple trailer).

Q0353 All Classes Class 3-5 Official NZTA / Waka Kotahi

What is the maximum permitted forward distance of a semi-trailer?

[A] 8.25m

[B] 8.75m

[C] 9.2m

✓ Correct

[D] 10.2m

Explanation: Forward distance means the distance from the rear axis to the centre of the kingpin for a semi-trailer - the maximum being 9.2 metres.

Q0354 All Classes Class 3-5 Official NZTA / Waka Kotahi

What is the maximum speed limit for a heavy motor vehicle towing a semi-trailer or semi-trailers?

[A] 75kph

[B] 80kph

[C] 90kph

✓ Correct

[D] 100kph

Explanation: On an open road 90kph is the maximum speed a vehicle with a GVM of 3500kg or more must drive.

Q0355 All Classes Class 2 Official NZTA & DT Driver Training

What is the maximum weight permitted on a single stranded-tyre axle, providing a manufacturer's tyre and axle ratings permit it?

[A] 4000kg

[B] 6000kg

✓ Correct

[C] 7200kg

[D] 8200kg

Explanation: Heavy vehicle weights and loads The tare weight is the weight of the vehicle itself, not including any load. Gross weight is the combined weight of a vehicle and its load, accessories and equipment. Before an overweight vehicle or load can be used on the road, the driver must...

Q0356 Classes 2-5 (Heavy) Heavy_Vehicle - Class-2 DT Driver Training (Extended)

What is the maximum width allowed for a vehicle (other than an agricultural vehicle) including its load?

[A] 2.1m or 1.05m from the longitudinal centre line

[B] 2.55m or 1.275m from the longitudinal centre line

✓ Correct

[C] 2.85m or 1.425m from the longitudinal centre line

[D] 3.1m or 1.55m from the longitudinal centre line

[E] 3.55m or 1.775m from the longitudinal centre line

Explanation: Heavy vehicle dimensions and measurements Class 2 The forward distance is the measurement is from the rear axis to the front of the vehicle or its load. The maximum distance a vehicle or its load may extend forward from the front edge of the driver's seat (in its rearmost...

Q0357 All Classes Class 3-5 Official NZTA / Waka Kotahi

What is the maximum width permitted for a heavy trailer (other than an agricultural trailer) from its longitudinal centre line?

[A] 1.1m

[B] 1.25m

✓ Correct

[C] 1.6m

[D] 1.75m

Explanation: For a heavy rigid vehicle the same applies - 1.25m.

Q0358 **Classes 2–5 (Heavy)** **Heavy_Vehicle - Class-2** **DT Driver Training (Extended)****What is the maximum width permitted for a vehicle and its load either side of the longitudinal centre line?****[A] 1.275m**

✓ Correct

[B] 1.55m

[C] 2.05m

[D] 2.55m

Explanation: Heavy vehicle dimensions and measurements Class 2 The forward distance is the measurement is from the rear axis to the front of the vehicle or its load. The maximum distance a vehicle or its load may extend forward from the front edge of the driver's seat (in its rearmost...**Q0359** **All Classes** **Class 2** **Official NZTA & DT Driver Training****What is the minimum amount of rest time required after 5.5 hours of consecutive work?****[A] 30 minutes**

✓ Correct

[B] 45 minutes

[C] 1 hour

[D] 6 hours

Explanation: Heavy vehicle work time requirements and logbooks Work time restrictions are placed on heavy vehicle drivers because driver fatigue is a leading cause of fatal crashes. Commercial drivers are particularly at risk, especially when they drive during shift-work. To keep drivers...**Q0360** **All Classes** **Class 2** **Official NZTA & DT Driver Training****What kind of axle set is it when a vehicle has two load-sharing axles spaced 1.5 metres apart?**

[A] Tri-axle

[B] Tandem axle

✓ Correct

[C] Twin-steer axle

[D] Double-axle

Explanation: Heavy vehicle dimensions and measurements Class 2 The forward distance is the measurement is from the rear axis to the front of the vehicle or its load. The maximum distance a vehicle or its load may extend forward from the front edge of the driver's seat (in its rearmost...**Q0361** **All Classes** **Class 2** **Official NZTA & DT Driver Training****What must the combined strength of the tie downs be equal to or stronger than for a load of 15 tonnes carried on a rigid truck with a headboard secured by two tie downs?**

[A] 5 tonnes

[B] 10 tonnes

[C] 15 tonnes

✓ Correct

[D] 20 tonnes

Explanation: Heavy vehicle weights and loads The tare weight is the weight of the vehicle itself, not including any load. Gross weight is the combined weight of a vehicle and its load, accessories and equipment. Before an overweight vehicle or load can be used on the road, the driver must...**Q0362** **All Classes** **Class 2** **Official NZTA & DT Driver Training****What must the combined strength of the tie downs be for a load of 10 tones carried on a rigid truck with no headboard and secured by two tie downs?**

[A] 5 tonnes

[B] 10 tonnes

[C] 15 tonnes

[D] 20 tonnes

✓ Correct

Explanation: Heavy vehicle weights and loads The tare weight is the weight of the vehicle itself, not including any load. Gross weight is the combined weight of a vehicle and its load, accessories and equipment. Before an overweight vehicle or load can be used on the road, the driver must...

Q0363 All Classes Class 2 Official NZTA / Waka Kotahi

What period of time after the last entry must the logbook be retained for every driver in which a logbook is required?

- [A] 0 months
[B] 12 months
[C] 24 months

[D] 36 months

✓ Correct

Explanation: The correct and latest edition answer is 36 months after the last entry. There is some confusion, until recently this was 12 months. If you have the option of 36 months, choose 36 months and if you have the option of 12 months, choose 12 months, which is the outdated answer. If...

Q0364 Classes 2–5 (Heavy) Heavy_Vehicle - Class-2 Official NZTA & DT Driver Training

What weight limits must be included on a loading certificate for a heavy motor vehicle?

- [A] Tare weight in kg
[B] Gross laden weight or gross vehicle mass in kg
[C] Gross combination weight in kg (if the vehicle has a towing connection)
[D] Static roll threshold height and weight

[E] All of the above

✓ Correct

Explanation: Heavy vehicle weights and loads The tare weight is the weight of the vehicle itself, not including any load. Gross weight is the combined weight of a vehicle and its load, accessories and equipment. Before an overweight vehicle or load can be used on the road, the driver must...

Q0365 Classes 2–5 (Heavy) Heavy_Vehicle - Class-2 DT Driver Training (Extended)

When should you check your load?

- [A] After driving in snow and/or heavy rain

[B] After driving over uneven ground

✓ Correct

- [C] Every 200km
[D] Only when you fill up with fuel

Explanation: Checking the load Before setting off you will need to check for load security, load height, load width and load weight. It is the driver's responsibility to check that the load is secure and correctly loaded. It is not a legal requirement to perform a pre-trip inspection,...

Q0366 Classes 2–5 (Heavy) Heavy_Vehicle - Class-2 Official NZTA & DT Driver Training

When you are checking your load, what is the most important thing to look for?

[A] Load security

✓ Correct

- [B] Load type
[C] Load expiry date
[D] Load source

Explanation: Checking the load Before setting off you will need to check for load security, load height, load width and load weight. It is the driver's responsibility to check that the load is secure and correctly loaded. It is not a legal requirement to perform a pre-trip inspection,...

Q0367 All Classes Class 2 Official NZTA / Waka Kotahi

Where is the front axis on a rigid vehicle that has two axle sets and is steered by the front axle set?

[A] The centre point of the foremost axle

✓ Correct

- [B] The centre point of the passenger's seat
[C] The centre point of a trailer
[D] The centre point of the back bumper

Explanation: Correct.

Q0380 All Classes Behaviour Official NZTA & DT Driver Training

Alcohol affects your driving in which way?

[A] It enhances your driving ability

[B] It speeds up your reaction time

[C] It slows your reaction time

✓ Correct

[D] It makes you more aware of your surroundings

Explanation: Breath screening tests A police officer can require you to undergo a breath screening test. There are steep fines if you refuse to consent to an evidential test. If you do need an evidential test you will need to give your vehicle keys to the police officer and you will then...

Q0381 Class 1 (Car) Car - Behaviour DT Driver Training (Extended)

Are you allowed to make a u-turn on a motorway?

[A] Yes

[B] No

✓ Correct

Q0382 Class 1 (Car) Car - Behaviour DT Driver Training (Extended)

Are you allowed to stop on the side of the motorway to answer a phone call?

[A] Yes

[B] No

✓ Correct

[C] Only if it's from a close relative

Explanation: You can make a phone call from the motorway hard shoulder if you have broken down, for example to a towing company or for someone to come and pick you up. If you don't have a cellphone there are motorway emergency phones every 700-1200m. If you have to make a call, either stay...

Q0383 Class 1 (Car) Car - Behaviour DT Driver Training (Extended)

Are you allowed to talk on a cellphone while driving?

[A] Yes, at any time

[B] Yes, with a hands-free phone kit, or to make an emergency call if it's unsafe to stop

✓ Correct

[C] No

Explanation: Can you talk on a cellphone while driving in New Zealand? The answer is yes if you are using a hands-free phone kit, or your car comes with Bluetooth connectivity which allows your audio system to connect to your phone directly. However, you are not allowed to hold the phone...

Q0384 All Classes Behaviour Official NZTA & DT Driver Training

Are you eligible to pass on a solid yellow line?

[A] No

[B] Yes

[C] Yes, as long as you can see 100m ahead of you for the whole time you are passing and you can make the pass without crossing the yellow line.

✓ Correct

Explanation: You may only pass on a solid yellow line if you can do so without crossing the line and you have at least 100m of clear road ahead of you throughout the entire manoeuvre.

Q0385 Class 1 (Car) Car - Behaviour Official NZTA & DT Driver Training Multiple Answers

Before crossing a railway level crossing, what should you do? Select all that apply.

[A] Look left and right up the tracks

✓ Correct

[B] Check there's room for your vehicle on the other side of the crossing

✓ Correct

[C] Make sure there are no barriers or red flashing lights

✓ Correct

[D] Check there's a speed limit sign on the other side of the crossing

Explanation: How to cross a railway level crossing safely If there are stop signs at the crossing it's an indication that you can't see far enough up the track to make a judgement about whether to cross before you get there, and it's a compulsory stop (i.e. it's against the law not to stop)....

Q0386 All Classes Behaviour Official NZTA / Waka Kotahi

Can small amounts of alcohol affect your driving ability?

[A] A small amount of alcohol won't impact your driving ability

[B] Any amount of alcohol will have some effect on your driving

✓ Correct

Explanation: Your reaction times are impacted by even small amounts of alcohol.

Q0387 All Classes Behaviour Official NZTA / Waka Kotahi

Can vehicle C move through the intersection?

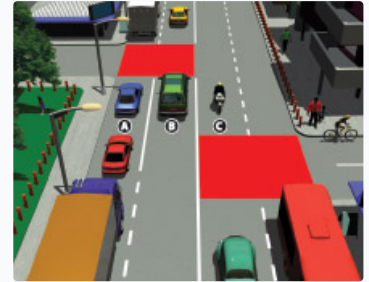

[A] Yes

✓ Correct

[B] No

[C] Only if the red bus is parked in front of a school

Explanation: Correct. There is no room for Vehicle C on the other side of the red box, therefore it can cross the intersection.

Q0388 Class 1 (Car) Behaviour Official NZTA / Waka Kotahi

Can you drag a load you are carrying in your vehicle on the ground?

[A] No

✓ Correct

[B] Yes

Explanation: No, because it could break, come loose because of extra friction or it might get caught on the road.

Q0389 Class 1 (Car) Car - Behaviour DT Driver Training (Extended)

Can you use a hand-held cellphone when driving to create, send or read a message?

[A] Yes

[B] No

✓ Correct

Q0390 Class 1 (Car) Car - Behaviour DT Driver Training (Extended)

Do you have to slow down for a pedestrian if they cross the road in front of you on a red no crossing light?

[A] Yes

✓ Correct

[B] No

Explanation: The most important rule of using the road People occasionally have concentration lapses and misjudge their manoeuvres. Rather than punishing them, we should drive to allow for them. There's no point in causing an accident when it's avoidable as you could end up injuring yourself...

Q0391 Class 1 (Car) Car - Behaviour DT Driver Training (Extended)

Drugs, including drugs prescribed by your doctor, may affect your driving. They can slow your reaction times and affect your senses.

[A] True

✓ Correct

[B] False

Q0392 Class 1 (Car) Car - Behaviour DT Driver Training (Extended)

How far can your load extend either side of the centre line of your vehicle?

[A] 1m

[B] 1.275m

✓ Correct

[C] 1.5m

[D] 1.75m

Explanation: Carrying loads on a car, motorbike or trailer Loading a car Roof racks If you can't fit a load in your car, the safest ways are either to have a roof rack with a custom mounted box, or to use a trailer. When not carrying a load on a roof rack, remove it so that your car is more...

Q0393 **Class 1 (Car)** Car - Behaviour **DT Driver Training (Extended)**

How would you describe a good driver?

[A] A good driver is fast and smooth in the corners

[B] A good driver knows how to stay alert even while driving tired

[C] A good driver anticipates what other drivers are going to do and is aware of what's going on around them

✓ Correct

[D] A good driver knows how to work around distractions like a cellphone, the radio and eating in the car

Explanation: What makes a good driver? A good driver is respectful of other drivers, always aware of their surroundings, drives within the law and anticipates danger that could be caused by other drivers, other road users and the environment (e.g. the weather). You won't be a good driver...

Q0394 **All Classes** Behaviour **Official NZTA & DT Driver Training**

If the vehicle behind you wishes to pass, what should you do?

[A] Speed up and drive past them

[B] Pull to the left to let them pass

✓ Correct

[C] Nothing - drive as normal as it's other drivers' responsibility to overtake you safely

[D] Speed up and signal right

Explanation: What reason would a vehicle be driving slowly? This could apply to you if you are: a novice driver and you are building your confidence driving a vehicle which is not capable of maintaining the open road speed limit such as a moped or agricultural vehicle towing a trailer...

Q0395 **Class 1 (Car)** Car - Behaviour **DT Driver Training (Extended)**

If you are 20 or over, what is the legal alcohol limit in micrograms per litre of breath?

[A] 400

[B] 250

✓ Correct

[C] 200

[D] 150

[E] Zero

Explanation: Breath screening tests A police officer can require you to undergo a breath screening test. There are steep fines if you refuse to consent to an evidential test. If you do need an evidential test you will need to give your vehicle keys to the police officer and you will then...

Q0396 **Class 1 (Car)** Car - Behaviour **Official NZTA & DT Driver Training** **Multiple Answers**

If you are driving at night with your vehicle headlights on high beam, when MUST you dip them? Select all that apply.

[A] You're driving in an area with street lights

[B] When a police officer is directing traffic

✓ Correct

[C] When you are following another car

✓ Correct

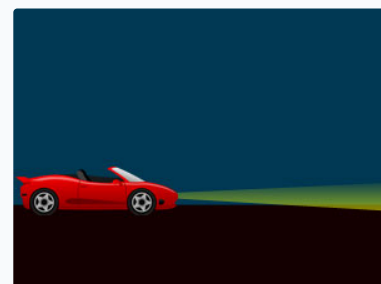

[D] When another car is coming towards you

✓ Correct

[E] If you stop on the side of the road

✓ Correct

Explanation: How to know when to dip your headlights You must dip your high beam headlights when a police officer is directing traffic, when you are following another vehicle (within 200m), when you are approaching another vehicle (within 200m), and when you are parked. You don't need to dip...

Q0397 **Class 1 (Car)** Car - Behaviour **Official NZTA & DT Driver Training**

If you are driving in a funeral procession, what should you do?

[A] Keep your headlights on dip

✓ Correct

[B] Keep your hazard lights on

[C] Toot your horn

[D] Drive with your windows down

Explanation: When driving in a funeral procession drive slowly with your headlights on dip. Be aware that other traffic might move into the funeral procession not realising what it is.

Q0398 **Class 1 (Car)** **Car - Behaviour** **Official NZTA & DT Driver Training**

If you miss your exit on a motorway, what should you do?

- [A] Pull into the hard shoulder and reverse back to the exit
- [B] Do a u-turn

[C] Exit at the next exit

✓ Correct

Explanation: If you miss your exit on the motorway, exit the motorway at the next exit. As long as the exit is not an 'exit only' off-ramp, then you will be able to get back on the motorway and head in the opposite direction until you come back to the junction you wanted to take in the first...

Q0399 **Class 1 (Car)** **Car - Behaviour** **DT Driver Training (Extended)**

If you refuse to give blood for the purposes of an evidential blood alcohol test, what is the maximum penalty for a first offence?

[A] Three months in prison, \$4500 fine, disqualified for six months or more

✓ Correct

- [B] \$500 fine, disqualified for six months
- [C] Disqualified for six months
- [D] First time offenders are let off without punishment

Explanation: If you refuse to give blood for an evidential blood alcohol test, the maximum penalty for a first offence is up to three months in prison, up to a \$4500 fine, and disqualification from driving for six months or more.

Q0400 **All Classes** **Behaviour** **Official NZTA & DT Driver Training**

If you want to carry goods inside a car, what is the safest way?

[A] In the boot

✓ Correct

- [B] On the front seat
- [C] Have your passenger hold them
- [D] On your lap

Explanation: How to carry items in your car If you drive a sedan (saloon), the safest place to carry items is in the boot. This is because any forward momentum will be stopped by the seats. If you drive a hatchback, the safest place is to store them in the boot with the cargo blind/parcel...

Q0401 **Class 1 (Car)** **Car - Theory** **DT Driver Training (Extended)**

If you're under 20 and you're caught with any level of blood alcohol by the police, what is the minimum penalty?

- [A] Your licence will be suspended
- [B] \$200 fine and 50 demerit points**
- [C] \$100 fine and 35 demerit points
- [D] Nothing for a first offence, then licence suspension for the second offence

✓ Correct

Explanation: What is drink driving? Drink driving is driving after you have had any alcoholic drink that puts you over the blood alcohol limit for your licence type and age. The limits vary: if you are under 20 years old, there is a zero tolerance. If you are over 20, the limit is...

Q0402 **All Classes** **Behaviour** **Official NZTA & DT Driver Training**

In order to drive a car, what class of licence do you require?

[A] Class 1

✓ Correct

- [B] Class 2
- [C] Class A
- [D] Class G

Explanation: What vehicles can you drive on what class of licence in New Zealand? Class 1 – car licence (learner or restricted) A holder of a Class 1 learner or restricted licence can drive: Any vehicle with a gross laden weight (GLW) or gross combined weight (GCW) of not more than 4500kg,...

Q0403 **Class 1 (Car)** **Car - Behaviour** **DT Driver Training (Extended)**

Music can be distracting when you drive. What's the best way of minimising the distraction?

- [A] Play it at a quiet volume
- [B] Listen to music with a slow tempo rather than fast music

[C] Choose the right radio station or set the playlist on your phone or music player before you start moving

✓ Correct

[D] Sing along to the music

Explanation: Is it dangerous and distracting to listen to music in the car? The car is where many people listen to the majority of their music, and our cars are becoming ever more connected. Some cars, like later model Holdens with MyLink, will interface directly with Pandora and Stitcher...

Q0404 **All Classes** **Behaviour** **Official NZTA / Waka Kotahi**

On the centre line of your vehicle how far can your load extend on either side?

[A] 1.5m

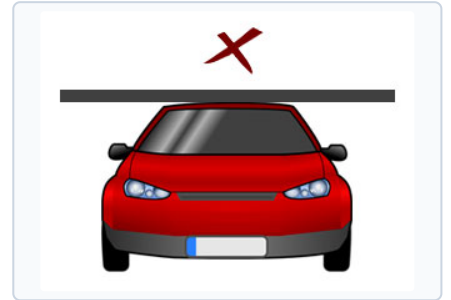

[B] 1.25m

✓ Correct

[C] 2m

[D] 0.75m

Explanation: 1.25m from either side of the centre line of your vehicle.

Q0405 **All Classes** **Behaviour** **Official NZTA / Waka Kotahi**

The safest way to drive up to intersections is what?

- [A] Look right of you - you have to give way to the right
- [B] Look left of you
- [C] Look behind you
- [D] Look in front of you

[E] All the above

✓ Correct

Explanation: At intersections, you should check all around you for other vehicles and you should be extra cautious.

Q0406 **All Classes** **Behaviour** **Official NZTA / Waka Kotahi**

What are you required to do when you are given medication by your doctor that does not affect your driving?

[A] Don't drive, you shouldn't be driving on any kind of medication

[B] You can drive whenever you want

✓ Correct

[C] You must notify the police where and when you are driving

Explanation: Nothing. You are free to drive as normal if the medication you are given doesn't affect your driving ability.

Q0407 **All Classes** **Behaviour** **Official NZTA / Waka Kotahi**

What do these mean?

[A] Buses, taxis and bikes cannot park here

[B] When lit, buses, trams and bicycles can pass through, ignoring a red traffic signal

✓ Correct

[C] This is a special bike, tram or bus lane on a road or motorway

[D] When lit, buses, trams and bicycles must wait for other traffic to pass before going ahead

Explanation: Before the light turns green, buses, trams or bicycles are allowed to go through a red light before it turns green for all other traffic.

Q0408 **All Classes** **Behaviour** **Official NZTA / Waka Kotahi**

What does a white diamond painted on the road mean?

- [A] There is a sharp turn in the road
- [B] You are approaching a school zone
- [C] Your lane is ending

[D] You are approaching a pedestrian crossing

✓ Correct

Explanation: Most of pedestrian crossings will have a diamond painted on them although some will not.

Q0409 [Class 1 \(Car\)](#) [Car - Behaviour](#) [Official NZTA & DT Driver Training](#)

What does GVM stand for?

[A] General Vehicle Mechanism

[B] Gross Vehicle Mass

✓ Correct

[C] Grass Vehicles Mowing

Explanation: Definition of GVM or gross vehicle mass GVM is also called GVWR, or gross vehicle weight rating. It's the maximum operating weight of a vehicle as specified by the manufacturer, including fluids, accessories, vehicle occupants and cargo. It does not include any trailers - the...

Q0410 [All Classes](#) [Behaviour](#) [Official NZTA / Waka Kotahi](#)

What does oversteer mean?

[A] When you hit the verge on the inside of the a corner because you turned too sharply

[B] When you cross onto the wrong side of the road because you misjudged turning right into an intersection

[C] When the back wheels of the car start skidding the opposite way to which you are turning

✓ Correct

Explanation: When you turn too sharply, this can cause the rear wheels to start skidding, and this is what oversteer is.

Q0411 [All Classes](#) [Behaviour](#) [Official NZTA / Waka Kotahi](#)

What does this sign mean?

[A] Bridge

[B] Roundabout

✓ Correct

[C] Tunnel

Explanation: This sign indicates that you should be preparing to give way as you are coming up to a roundabout.

Q0412 [All Classes](#) [Behaviour](#) [Official NZTA / Waka Kotahi](#)

What does this sign mean?

[A] The left side of a bridge

✓ Correct

[B] The right side of a bridge

[C] The left lane of a road

[D] The right lane of a road

Explanation: Correct. This sign identifies the left side of a bridge.

Q0413 [All Classes](#) [Behaviour](#) [Official NZTA / Waka Kotahi](#)

What does this sign mean?

[A] A left-hand bend indicated by a road marker post on the right side

✓ Correct

[B] The left side of the road

[C] The middle of the road

Explanation: Correct. The right side of the road on a left-hand bend is indicated by this marker.

Q0414 [All Classes](#) [Behaviour](#) [Official NZTA / Waka Kotahi](#)

What does this sign mean?

[A] Buses cannot park here

[B] Buses are allowed to stop here

✓ Correct

[C] Only buses and taxis are permitted to park here

Explanation: This sign means that only buses can stop in a bus stop and you may be fined if you park here.

Q0415 All Classes Behaviour Official NZTA / Waka Kotahi

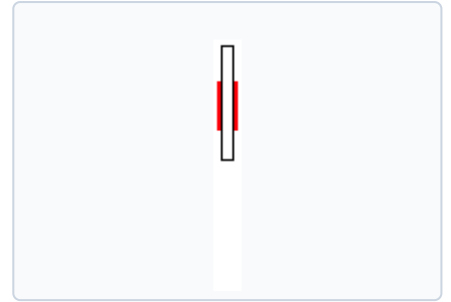

What does this sign mean?

- [A] The right side of the road
[B] The middle of an expressway

[C] The left side of the road

✓ Correct

Explanation: This sign is a marker post for the left hand side of the road.

Q0416 All Classes Behaviour Official NZTA / Waka Kotahi

What does this traffic signal mean?

[A] Stop if you can do so safely

✓ Correct

[B] Drive faster to get through the junction

Explanation: It means that you must stop safely if you are able to do so.

Q0417 All Classes Behaviour Official NZTA / Waka Kotahi Multiple Answers

What else are you advised to do when driving into bright sunlight besides using your sunglasses and your vehicle sun visors for safety? Check all that apply.

[A] Keep your windscreen clean

✓ Correct

[B] Turn your hazard lights on

[C] Slow down, or pull over until visibility improves

✓ Correct

[D] Drive on the far right hand side of the road

Explanation: It's advised that you slow down and pull over until your eyes have adjusted to the light, and/or you should keep your windscreen clean.

Q0418 All Classes Behaviour Official NZTA / Waka Kotahi

What is the legal amount of alcohol limit in micrograms per litre of breath if you are 20 or over?

[A] 400mcg

[B] 350mcg

[C] 250mcg

✓ Correct

[D] 100mcg

[E] Zero

Explanation: 250 mcg/litre of breath is the maximum allowable amount, however it is recommended that you don't drink at all before driving as any amount of alcohol can affect your reaction time.

Q0419 All Classes Behaviour Official NZTA / Waka Kotahi

What is the maximum penalty for a first offence if you refuse to give blood for the purposes of an evidential blood alcohol test?

[A] Three months in prison, \$4500 fine, disqualified for six months or more

✓ Correct

[B] \$1500 fine, disqualified for six months

[C] Disqualified for 6 months

[D] If you're a first time offender then there is no punishment

Explanation: Correct. This is a serious offence. You may be sent to prison for up to three months, fined up to \$4500 and your licence may be suspended for 6 months.

Q0420 All Classes Behaviour Official NZTA / Waka Kotahi

What must you do when you are coming up to a one-way bridge and you see this sign?

[A] If there is no traffic approaching then cross the bridge

[B] If you see traffic coming towards you stop and wait until it's clear before you cross the bridge

✓ Correct

[C] You have the right of way across the bridge, you can keep going

Explanation: This sign means that you must stop to let the traffic coming towards you through, as they have the right of way. If there's nothing coming and you don't see a stop sign then you don't have to stop.

Q0421 All Classes Behaviour Official NZTA / Waka Kotahi

What must you do when you are coming up to a school patrol crossing and both signs are held out?

[A] Stop until the signs are pulled back in

✓ Correct

[B] If the children aren't ready to cross, then carry on

[C] Stop until the children have crossed

Explanation: Correct. Wait until the signs are back in, as children can be very unpredictable.

Q0422 All Classes Behaviour Official NZTA & DT Driver Training Multiple Answers

What should you be aware of when you purchase a vehicle? Check all that apply.

[A] Unpaid loans - if they're not cleared before the car is transferred into your name you'll be liable to pay them

✓ Correct

[B] A stolen vehicle

✓ Correct

[C] Suspicious odometer

✓ Correct

[D] WoF and/or registration has expired

✓ Correct

Explanation: The pitfalls of buying a secondhand car It makes sense to get a mechanical inspection before you purchase a car, but it's also important that you check the vehicle's history because it can be hiding a multitude of sins. There are hundreds of thousands of debts registered on...

Q0423 Class 1 (Car) Car - Behaviour DT Driver Training (Extended)

What should you do if the vehicle behind starts to pass you?

[A] Stay in the right-hand side of the lane so they can't pass

[B] Speed up so they don't need to pass

[C] Stay in the middle of your lane as the left of the lane is more dangerous

[D] Move as far to the left of the road as is safe. Be prepared to slow down to ensure a safe passing manoeuvre

✓ Correct

Explanation: What do you do if an accident is about to happen? If you notice a vehicle ahead that the overtaking vehicle hasn't noticed, there's a potential problem. You could maintain your speed and that would mean the overtaking vehicle would have to brake, but at least they would be able...

Q0424 All Classes Behaviour Official NZTA / Waka Kotahi

What should you do if you are driving on a steep, narrow road downhill and a vehicle is coming up the hill?

[A] The cars that are going downhill should give way to the vehicles driving uphill

✓ Correct

[B] The cars that are moving uphill should give way to the cars moving downhill

Explanation: Correct. This rule ensures the vehicle travelling downhill, where stopping distances are longer, has to pay more attention even though a vehicle coming uphill can (all things being equal) stop quicker. Even though a vehicle coming uphill can (all things being equal) stop...

Q0425 All Classes Behaviour Official NZTA & DT Driver Training

What should you do if you have to drive at a slower speed and may possibly hold up other vehicles?

[A] Drive before sunrise when there is less traffic on the road

[B] Keep to the left and let others pass where possible

✓ Correct

[C] Drive as normal- it's not your responsibility to worry about other drivers

[D] Drive as close as you can to the centre of the road

Explanation: What reason would a vehicle be driving slowly? This could apply to you if you are: a novice driver and you are building your confidence driving a vehicle which is not capable of maintaining the open road speed limit such as a moped or agricultural vehicle towing a trailer...

Q0426 **Class 1 (Car)** Behaviour **Official NZTA & DT Driver Training**

What should you do if you see a pedestrian carrying a white cane across the street?

[A] Warn them that you are there by tooting your horn

[B] Stop and wait for them to cross

✓ Correct

[C] Drive past them

Explanation: Driving safely around blind and visually impaired people Certain areas are more likely to have people with impaired vision than others. Local councils install tactile paving (also called detectable warning surfaces, or truncated domes) and other measures to help blind...

Q0427 **All Classes** Behaviour **Official NZTA / Waka Kotahi**

What should you do if you wish to turn left at an intersection?

[A] Slow down and wait for the cyclist to go past the intersection

✓ Correct

[B] Try to get around the cyclist as fast as you can so you can make it there first

[C] Let the cyclist know you are there and have them move over by tooting your horn

Explanation: Correct. The cyclist has the right of way.

Q0428 **All Classes** Behaviour **Official NZTA / Waka Kotahi** **Multiple Answers**

What should you do when a flock of sheep are coming towards you on a country road? Check all that apply.

[A] Toot your horn and continue driving, they will get out of the way

[B] Slow down and be prepared to stop

✓ Correct

[C] Follow the farmer's instructions

✓ Correct

[D] Drive slowly and turn on your high beam lights

Explanation: Slow down and listen to any instructions the farmer gives you and avoid sounding your horn as it could frighten them.

Q0429 **All Classes** Behaviour **Official NZTA / Waka Kotahi** **Multiple Answers**

What should you do when driving in foggy weather? Check all that apply.

[A] Dip your headlights

✓ Correct

[B] You should drive with your high beams on so you can see further ahead

[C] Use a rear fog light if your car has one

✓ Correct

[D] Drive with your hazard lights on

Explanation: You shouldn't drive with your headlights on full beam as fog reflects the light back to you, instead you should dip them. Also, use a rear fog light, but only until the fog clears as it can dazzle other drivers.

Q0430 **Class 1 (Car)** Behaviour **Official NZTA / Waka Kotahi**

What should you do when following another vehicle in wet conditions (if you are driving a car)?

[A] Observe the two-second rule

[B] Observe the four-second rule

✓ Correct

[C] Observe the six-second rule

[D] Fall back or overtake so that your visibility is not affected by the spray

Explanation: To be safe you should double the normal following distance, which means you should use the four-second rule. Count 4 seconds between a point on the road that the car in front passes until you pass that point. You would increase this time if you're driving a heavy vehicle or...

Q0431 **Class 1 (Car)** Behaviour **Official NZTA & DT Driver Training**

What should you do when opening your car door if you look in the mirror and see a cyclist?

[A] The cyclist will be able to see you if you open it slowly

[B] Open it quickly and try and get out of the way

[C] Wait until the cyclist has passed

✓ Correct

[D] Toot your horn before you get out to warn the cyclist

Explanation: Avoiding 'car dooring' cyclists You must not open the door of your vehicle if it's likely to hit another road user. The three most common causes of accidents between a vehicle and a cyclist are: hitting the open door of a parked car when the car passenger or driver opens the...

What should you do when you are following a vehicle on a gravel road? Check all that apply.

[A] Try and overtake the vehicle in front

[B] Drop back so you're not in the dust cloud

✓ Correct

[C] Put your full beam lights on so that other drivers pull over

[D] If visibility is reduced significantly put your low beams on

✓ Correct

[E] Drive down the middle of the road

Explanation: How to drive safely on a gravel road If you are approaching a gravel road you could see a sign like this one on the road out to Whatipu west of Auckland. Gravel roads are cheaper to maintain than asphalt roads. There are still many gravel roads in New Zealand in rural areas, and...

What's the most important road rule?

[A] Always try to avoid causing an accident, even if it's not your fault

✓ Correct

[B] Always try to drive in the most economical way

[C] Always try to get to your destination as quickly as possible so that you reduce the amount of traffic on the road at any one time

Explanation: The most important rule of using the road People occasionally have concentration lapses and misjudge their manoeuvres. Rather than punishing them, we should drive to allow for them. There's no point in causing an accident when it's avoidable as you could end up injuring yourself...

When driving in foggy weather, what should you do?

[A] Dip your headlights and turn on your foglights

✓ Correct

[B] Drive with your headlights on full beam so you can see further

[C] Use your hazard lights

[D] Open the window and drive with your head out the window

Explanation: Driving in fog Fog is a cloud at ground surface level; it's a dense bank of water droplets suspended in the atmosphere that reduces visibility below 1km. Mist is similar to fog, but visibility remains above 1km. For driving purposes, it's often only described as foggy when...

Car - Behaviour

DT Driver Training (Extended)

When driving into bright sunlight, you should use sunglasses and your vehicle sun visors for safety. What else are you advised to do?

[A] Leave your windscreen dirty to block out some of the sun

[B] Turn your headlights on

[C] Slow down, or pull over until visibility improves

✓ Correct

[D] Drive on the far left of the road

Explanation: When can sun strike or sun dazzle occur? Sun strike or sun dazzle is when the sun is low on the horizon and your sun visors are not low enough to prevent it from getting into your eyes. When it is on the horizon, blocking the sun can mean blocking the view of traffic ahead, too...

When there are farm animals coming towards you on the road, what should you do?

[A] Tap your brakes to warn any drivers behind you

[B] Slow down or pull over until the animals have moved past you

✓ Correct

[C] Toot your horn to scare the animals off the road

[D] Have your passenger get out and clear a path

Explanation: Slow down or even stop until the animals have past you. However, you should listen to any instructions the farmer gives you.

Q0442 **Class 1 (Car)** **Car - Behaviour** **Official NZTA & DT Driver Training**

When traffic is merging, what is a good rule to follow?

[A] The larger vehicle has right of way

[B] Merge like a zip (let one vehicle in then go)

✓ Correct

[C] The smaller vehicle has right of way

[D] Speed up to make more room behind you

Explanation: How to merge like a zip in traffic When merging, merge like a zip - alternate vehicles. Merging like a zip is the best way to maintain the flow of traffic, as long as the merging vehicles match the speed of the vehicles already on the motorway. This first example of merging...

When you are coming up to traffic signals and the signals change from green to yellow, what should you do?

[A] Drive faster to get through the lights

[B] Stop if it's safe to do so

✓ Correct

[C] Only stop if you are more than 15 metres from the intersection

Explanation: If it's safe to do so you should stop, this will vary according to the car's braking ability, current road conditions, and the ability for vehicles behind you to stop.

Q0444 **All Classes** **Behaviour** **Official NZTA & DT Driver Training** **Multiple Answers**

When you are driving on a motorway what are you NOT allowed to do. Check all that apply.

[A] Make a U-turn

✓ Correct

[B] Come to a stop (unless in an emergency situation or waiting in queued traffic)

✓ Correct

[C] Drop off or pick up passengers

✓ Correct

[D] Pass on the left hand side

Explanation: What is a motorway? A motorway is a high-speed road of two, but usually three or more, lanes that have grade-separated intersections. That is, the way you get onto and off the motorway is by exiting using an off-ramp which will lead to an intersection and connecting roads that...

Q0454 All Classes Signs Official NZTA / Waka Kotahi

At a railway level crossing, which of these signs won't you see?

[A] Sign A

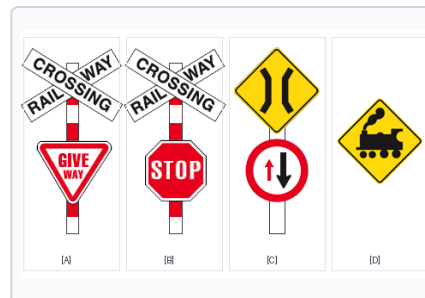

[B] Sign B

[C] Sign C

✓ Correct

[D] Sign D

Explanation: You won't see Sign C, as it is a one-lane bridge warning sign, not a railway level crossing sign.

Q0455 All Classes Theory Official NZTA / Waka Kotahi

For a car towing a trailer on the open road, what is the maximum legal speed limit?

[A] 75kph

[B] 85kph

[C] 90kph

✓ Correct

[D] 100kph

Explanation: When a car is towing a trailer, the maximum speed is 90kph.

Q0456 All Classes Core Official NZTA / Waka Kotahi

From the time you see an accident sign to the time you pass a crash site, what is the speed limit?

[A] 20kph

✓ Correct

[B] 30kph

[C] 40kph

[D] 50kph

Explanation: Correct. The safest speed at an accident site is 20kph because there might be debris on the road and people working to clear it up; or there may be other obstructions.

Q0457 All Classes Behaviour Official NZTA & DT Driver Training

If you exceed the speed limit by 11-20kph, how many demerit points can you receive?

[A] 10 points

[B] 20 points

✓ Correct

[C] 30 points

[D] 40 points

Explanation: Speed limits in New Zealand This is a convenient list of speed limits in New Zealand for all types of vehicles. For cars and motorbikes the open road speed limit is 100km/h if the conditions are good. Other vehicles have restricted limits, though. The default urban limit is...

Q0458 All Classes Signs Official NZTA / Waka Kotahi

Maintenance vehicles use what colour of flashing lights?

[A] Orange

[B] Yellow and blue

[C] Yellow

✓ Correct

[D] Yellow and purple

Explanation: Flashing yellow lights are what maintenance vehicles use. Police vehicles have red and blue lights, fire engines and ambulances have red lights, and pilot vehicles have yellow and purple lights.

Q0459 Class 1 (Car) Behaviour Official NZTA / Waka Kotahi

The open road speed limit for a car or motorbike is what?

[A] 100kph

✓ Correct

[B] 110kph

[C] 80kph

[D] 70kph

Explanation: The maximum speed that you are allowed to drive on the open road is 100kph.

What colour are warning signs?

[A] Blue

[B] Dark green or brown

[C] Orange or yellow

✓ Correct

[D] Red and white

Explanation: Warning signs Warning signs in New Zealand are either orange, yellow or a fluorescent green. They are almost all a diamond shape, except for advisory speed signs on corners which are sometimes rectangular if they have chevrons (arrows) indicating the direction of the corner....

Q0462 All Classes Signs Official NZTA / Waka Kotahi

What colour of flashing lights does a pilot vehicle have?

[A] Red

[B] Blue and red

[C] Yellow

[D] Yellow, or yellow and purple

✓ Correct

Explanation: First pilot vehicles display yellow and purple flashing lights, while second or subsequent pilot vehicles display yellow flashing lights. Therefore, pilot vehicles have yellow, or yellow and purple lights.

Q0463 All Classes Core Official NZTA / Waka Kotahi

What does the term 'speed limit' mean?

[A] The ideal speed for any particular road

[B] The maximum speed for that road in good conditions

✓ Correct

[C] In good conditions it is the minimum speed you can drive on that road.

[D] The minimum speed you have to drive except for when you are overtaking another vehicle

Explanation: If road conditions are good the speed limit is the maximum speed in which you can drive on that road.

Q0464 All Classes Signs Official NZTA & DT Driver Training

What does this sign indicate when you are coming up to a one-lane bridge?

[A] It's safe to go ahead. You've got the right of way

✓ Correct

[B] You have to stop, other drivers have right of way

Explanation: What is a one-lane bridge? There are many one-lane bridges in New Zealand, especially in rural areas, and even on some busier holiday routes. If you are travelling from the other way you will see two sets of signs that will advise you that you have to give way. The following...

Q0465 All Classes Signs Official NZTA / Waka Kotahi

What does this sign mean?

[A] A bus station is ahead

[B] Ahead there is a railway level crossing

✓ Correct

[C] Ahead there is a tourist railway attraction

Explanation: This sign means that ahead there is a railway level crossing.

Q0466 All Classes Signs Official NZTA / Waka Kotahi

What does this sign mean?

[A] Drive up to 100km before stopping

[B] If the weather is OK a car or motorcycle can drive up to 100kph

✓ Correct

[C] The overtaking lane's speed limit is a minimum of 100kph

[D] Any vehicle can travel up to 100kph

Explanation: This sign shows that the speed limit for vehicles is a maximum of 100kph. This excludes those vehicles that would be towing a trailer, and vehicles over a certain mass or of a certain type.

Q0467 All Classes Signs Official NZTA / Waka Kotahi

What does this sign mean?

[A] The road surface is uneven ahead

[B] There is a sharp curve in the road ahead

[C] Road bump ahead

✓ Correct

[D] Slippery road ahead

Explanation: It is a warning sign that there is a road bump ahead. If the bumps are man-made they are often called 'traffic calming measures', 'sleeping policemen' or 'judder bars'.

Q0468 All Classes Signs Official NZTA / Waka Kotahi

What does this sign mean?

[A] The road ahead may have loose stones - drive slowly

✓ Correct

[B] The road ahead contains sharp rocks and may puncture your tyre- drive with caution.

[C] Your windscreen may be hit by flying objects due to road repair

Explanation: This sign indicates there's gravel on the road and is a temporary sign usually erected by road workers.

Q0469 All Classes Signs Official NZTA / Waka Kotahi

What does this sign mean?

[A] Approved crossing ahead

[B] Look out for children

✓ Correct

[C] There is a sport's field ahead

Explanation: This sign is typically located near play centres and schools and is to warn drivers that children are likely to be around.

Q0470 All Classes Signs Official NZTA / Waka Kotahi

What does this sign mean?

[A] Uneven road surface ahead

✓ Correct

[B] Bump in the road ahead

[C] Gravel road ahead

[D] Unsafe road conditions ahead

Explanation: This sign indicates to slow down as there is an uneven road ahead. It might have multiple severe bumps and general uneven surfaces so drive with caution.

Q0471 All Classes Signs Official NZTA / Waka Kotahi

What does this sign mean?

[A] Buses only parking

[B] Wide load restriction

[C] No parking: Bus stop on both sides of sign

✓ Correct

[D] Parking allowed: Bus stop on both sides of sign

Explanation: This sign means that no parking is permitted because bus stops are on both sides of the sign.

Q0472 All Classes Signs Official NZTA / Waka Kotahi

What does this sign mean?

[A] Children cannot cross here

[B] Watch for children crossing

✓ Correct

[C] Watch for animals crossing

[D] Pedestrians are not allowed

Explanation: This sign is a warning that there are children crossing the street and you should watch out for them.

Q0473 All Classes Signs Official NZTA / Waka Kotahi

What does this sign mean?

[A] Traffic lights are not working

[B] Shooting range ahead

[C] Airport ahead

[D] Stop on request

✓ Correct

Explanation: This sign indicates that you may come upon a road worker directing traffic where there is roadworks.

Q0474 All Classes Signs Official NZTA / Waka Kotahi

What does this sign mean?

[A] Road ahead has a big downhill slope

[B] Two-way road is ending

[C] You have priority over vehicles coming towards you

✓ Correct

[D] Give priority to vehicles coming towards you

Explanation: Show courtesy and consideration to other road users, this sign means that you have priority over vehicles coming towards you. Although you have priority, make sure oncoming traffic is going to give way before you continue.

Q0475 All Classes Signs Official NZTA / Waka Kotahi**What does this sign mean?**

- [A] Traffic merging ahead
- [B] Railway crossing ahead
- [C] Two-way traffic ahead** ✓ Correct
- [D] While the left lane speeds up the right lane will be slowing down

Explanation: This sign indicates that two-way traffic is approaching.

**Q0476** All Classes Signs Official NZTA / Waka Kotahi**What does this sign mean?**

- [A] One lane
- [B] Merging traffic from the left and right** ✓ Correct
- [C] Construction ahead
- [D] Sharp bend in the road ahead

Explanation: This sign means there is traffic merging from both sides.

**Q0477** All Classes Signs Official NZTA / Waka Kotahi**What does this sign mean?**

- [A] Temporary parking
- [B] Temporary construction zone
- [C] Temporary speed limit** ✓ Correct
- [D] Temporary one-way

Explanation: This sign indicates the speed limit is only temporary and is only added to speed limit signs.

**Q0478** All Classes Signs Official NZTA / Waka Kotahi**What does this sign mean?**

- [A] Train station ahead
- [B] Pedestrian crossing** ✓ Correct
- [C] School ahead

Explanation: There is a pedestrian crossing ahead.

**Q0479** All Classes Signs Official NZTA / Waka Kotahi**What does this sign mean?**

- [A] Turn left now
- [B] Do a U-turn, but only to the left
- [C] Keep left** ✓ Correct

Explanation: You may see this type of sign on a traffic island, it tells you to keep left.

**Q0480** All Classes Signs Official NZTA / Waka Kotahi**What does this sign mean?**

- [A] Do not turn left
- [B] Don't do a U-turn** ✓ Correct
- [C] Don't park here
- [D] Uneven road surface ahead

Explanation: This sign is warning you not to do a U-turn.

Q0481 [All Classes](#) [Signs](#) [Official NZTA / Waka Kotahi](#)

What does this sign mean?

[A] No pedestrian crossing

[B] No parking

✓ Correct

[C] Bus lane

[D] Parking lane

Explanation: This sign is a no parking symbol

Q0482 [All Classes](#) [Signs](#) [Official NZTA / Waka Kotahi](#)

What does this sign mean?

[A] It shows the direction to an information centre

✓ Correct

[B] Important monument up on the right

[C] On the right there's an intersection

Explanation: Correct. The way in which to get to the information centre is shown in this sign.

Q0483 [All Classes](#) [Signs](#) [Official NZTA / Waka Kotahi](#)

What does this sign mean?

[A] There is a roundabout ahead

✓ Correct

[B] Ahead there is a Recycling centre

[C] Ahead there is two way traffic

[D] Traffic merging ahead

Explanation: There is a roundabout ahead, this is what the sign indicates.

Q0484 [All Classes](#) [Signs](#) [Official NZTA / Waka Kotahi](#)

What does this sign mean?

[A] Uneven road surface

[B] Fire hydrant

[C] Do not enter

[D] No stopping

✓ Correct

Explanation: This sign is posted to confirm that there is a clear route for traffic and that you should not stop unless in an emergency.

Q0485 [All Classes](#) [Signs](#) [Official NZTA / Waka Kotahi](#)

What does this sign mean?

[A] There's an accident ahead so drive no faster than 50kph

[B] There's an accident ahead so drive no faster than 20kph

✓ Correct

[C] Stop and have the passenger of the car get out and remove the sign

[D] These signs are only ever blue with white writing, it isn't valid

Explanation: You should slow down to 20kph, as there's an accident ahead, until you've passed the crash site.

Q0486 [All Classes](#) [Signs](#) [Official NZTA / Waka Kotahi](#)

What does this sign mean?

[A] Keep watch for heavy vehicles

[B] No heavy vehicles

✓ Correct

[C] Heavy vehicle parking

[D] This lane is for heavy vehicles only

Explanation: This sign means that heavy vehicles are constrained.

Q0487 [All Classes](#) [Signs](#) [Official NZTA / Waka Kotahi](#)

What does this sign mean?

[A] Parking straight ahead

[B] 30-minute parking on the right of the sign ✓ Correct

[C] Find parking within 30 metres of the sign

[D] To the right there are 30 available parking slots

Explanation: This sign indicates that between 8am and 6pm, parking is accepted to the right of this sign for a maximum of 30 minutes.

Q0488 [All Classes](#) [Signs](#) [Official NZTA / Waka Kotahi](#)

What does this sign mean?

[A] The comfortable and safe travelling speed is 35mph around this corner

[B] The comfortable and safe travelling speed is 35kph around this corner. ✓ Correct

[C] The corner is 35 metres away

[D] 35 degrees is the angle of the corner- the higher the number, the sharper the corner

Explanation: This sign shows the safe and comfortable driving speed around the curve, in kph, when driving a car or motorbike.

Q0489 [Class 1 \(Car\)](#) [Car - Signs](#) [DT Driver Training \(Extended\)](#) [Multiple Answers](#)

What does this sign mean? Select all that apply

[A] Emergency services vehicles can use this lane ✓ Correct

[B] Buses can use this lane ✓ Correct

[C] Motorbikes can use this lane

[D] Private cars can use this lane

[E] Cyclists can use this lane

Q0490 [Class 1 \(Car\)](#) [Car - Theory](#) [DT Driver Training \(Extended\)](#)

What is the maximum legal speed limit for a car towing a trailer on the open road?

[A] 80km/h

[B] 85km/h

[C] 90km/h ✓ Correct

[D] 95km/h

Explanation: Maximum towing speed with a trailer The maximum speed for a car towing a trailer is 90kph. Speeds are restricted when towing a trailer for a number of reasons. Cars are not designed for towing. They have towing ability, but it is not their main function, therefore when they are...

Q0491 [Class 1 \(Car\)](#) [Car - Core](#) [DT Driver Training \(Extended\)](#)

What is the speed limit for vehicles passing a school bus that has stopped to let children on or off?

[A] 20km/h ✓ Correct

[B] 30km/h

[C] 40km/h

[D] 50km/h

Explanation: Speed limit for passing a stationary school bus The speed limit for passing a stationary school bus that is dropping off or picking up children is 20kph in either direction. Bear in mind that if you are used to driving in other countries, such as Australia, New Zealand's speed...

Q0492 Class 1 (Car) Car - Core DT Driver Training (Extended)

What is the speed limit from the time you pass an Accident or Crash sign until you have passed the crash site?

[A] 20km/h ✓ Correct

[B] 30km/h

[C] 40km/h

[D] 50km/h

Explanation: Speed limit at a road accident site The speed limit from the time you pass an Accident or Crash sign until you have passed the crash site is 20kph. There is only a compulsory 20kph speed limit if you pass an accident sign. A road user may have put a warning triangle out to...

Q0493 All Classes Signs Official NZTA / Waka Kotahi

When you see this sign what does it indicate?

[A] No loading

[B] There's a pedestrian crossing ahead

[C] The speed limit is 50kph

[D] The speed limit is now 100kph ✓ Correct

Explanation: This sign means that the open road speed limit now applies for the vehicle you are driving.

Q0494 Class 1 (Car) Car - Signs DT Driver Training (Extended)

Which of these signs won't you see at a railway level crossing?

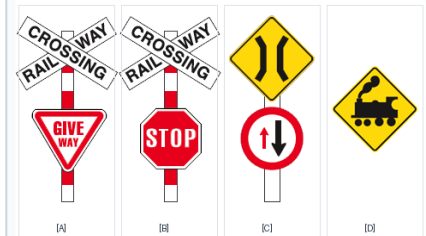

[A] Sign A

[B] Sign B

[C] Sign C ✓ Correct

[D] Sign D

Explanation: Sign C is a one-lane bridge give-way sign, which is not used at railway level crossings. Signs A, B, and D are standard railway crossing signs.

Q0495 Class 1 (Car) Car - Signs DT Driver Training (Extended)

You are coming up to some roadworks and see a roadworker holding out this sign. What must you do?

[A] Stop before the sign if it's facing you ✓ Correct

[B] Stop before the sign if it's facing the other way

[C] Slow down to 20km/h

[D] Pull over and wait for instructions

Q0496 Class 1 (Car) Car - Signs DT Driver Training (Extended)

You are driving in an 80km/h area and you see this 50km/h sign. Where does the 50km/h speed limit start?

[A] At the sign ✓ Correct

[B] 20m after the sign

[C] 50m after the sign

[D] 100m after the sign

Explanation: Where do speed limits start? The speed limit starts where the sign is placed on the road. This means that if you are coming from a higher speed into a lower speed limit area you must slow down before you reach the sign. If you are in a lower speed limit area and are coming up to...

Multiple Answers

You're driving slower than the speed limit, at a speed you feel comfortable with, and notice there are vehicles following you. What should you do? Select all that apply

[A] Speed up

[B] Keep as close to the left-hand side of the road as is safe

✓ Correct

[C] Pull over if it's safe to let vehicles pass

✓ Correct

[D] Stop immediately to let vehicles pass

Road Position & Overtaking

28 Questions

Q0499 All Classes Road-position Official NZTA / Waka Kotahi

A vehicle is travelling straight ahead, can you use a right turn bay to overtake the vehicle?

[A] Yes

[B] No

✓ Correct

[C] Only if the road ahead is clear

Explanation: You can't overtake a vehicle using a right turn bay, you can only use it to turn right.

Q0500 All Classes Road-position Official NZTA / Waka Kotahi

A yellow reflector (cat's eye) on the road means what?

[A] No passing

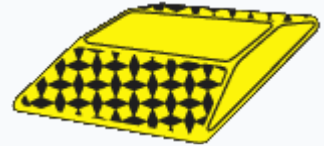

✓ Correct

[B] Pedestrian crossing

[C] The left side of the road is marked in yellow

[D] It's safe to pass here

Explanation: Correct. You are not permitted to overtake if you see these yellow cat's eyes on the road.

Q0501 All Classes Behaviour Official NZTA / Waka Kotahi

Are you permitted to overtake if you are driving on a three-laned road and there is a lane on your side of the road, and two lanes coming towards you? There's also a dashed white line on your side of the centre lane.

[A] Yes

✓ Correct

[B] No

Explanation: As the dashed line is on your side, this indicates that you are allowed to overtake - circumstances permitting.

Q0502 All Classes Behaviour Official NZTA & DT Driver Training Multiple Answers

Besides signalling for at least three seconds, what else must you do before making a lane change to your left? Check all that apply.

[A] Check your blind spots

✓ Correct

[B] Reduce speed

[C] Speed up

[D] Tap your brakes to warn the other drivers

Explanation: Before changing lanes to your left, you must signal for at least three seconds and check your mirrors and blind spots over your shoulder.

Q0503 All Classes Road-position Official NZTA / Waka Kotahi

Can you use a right turn bay to overtake a vehicle travelling straight ahead?

[A] No

✓ Correct

[B] Yes

[C] Only if the road ahead is clear

Explanation: You cannot use a right turning bay to overtake, you can only use it if you are turning right.

Q0504 Class 1 (Car) Car - Road-Position DT Driver Training (Extended)

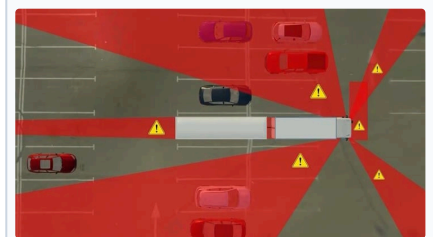

Does this diagram show all the blind spots that a truck driver has?

[A] Yes - all blind spots are shown

✓ Correct

[B] No - there are more blind spots

Explanation: Overcoming blind spots in trucks Trucks can have multiple mirrors set up to help eliminate blind spots. Extra mirrors work well for seeing down the side of the doors, immediately in front of the cab and down the side of long trailers, but they still don't allow the driver to see...

Q0505 **Class 1 (Car)** **Car - Road-Position** **DT Driver Training (Extended)**

For what purpose can flush median strips be used?

- [A] To overtake a slower vehicle
- [B] To park while loading and unloading goods
- [C] To wait for a gap in the traffic while turning**
- [D] To reverse back up the road if you missed your turn
- [E] As a driving lane

✓ Correct

Explanation: What are flush medians? Flush medians can be used to wait to move into a gap in the traffic flow after you've turned right onto the road, and to slow down and wait before turning right from the road. They are painted 'flush' to the road rather than being raised, hence the name....

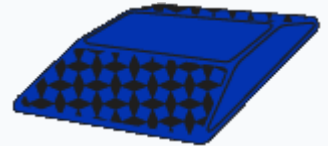

Q0506 **All Classes** **Road-position** **Official NZTA / Waka Kotahi**

If you come across a blue reflector (cat's eye) placed on the road, what does that mean?

- [A] Do not pass
- [B] Fire hydrant**
- [C] Blue marks the left hand side of the road
- [D] Red marks the centre line
- [E] It's not safe to pass here

✓ Correct

Explanation: A fire hydrant location is marked with a blue reflector.

Q0507 **Class 1 (Car)** **Car - Behaviour** **Official NZTA & DT Driver Training**

On a Transit Lane sign, what does T2 mean?

- [A] This lane can be used any time after 2pm
- [B] Only vehicles with two seats can use this lane
- [C] Only vehicles with less than two people inside can use this lane
- [D] Only vehicles carrying two or more people can use this lane**

✓ Correct

Explanation: T2 means that the lane can only be used by vehicles with 2 or more occupants. In the case of high occupancy vehicles a transit lane will either be T2 for a minimum of two occupants per vehicle, or T3 for a minimum of 3 occupants per vehicle. Can trucks, utes and commercial...

Q0508 **Class 1 (Car)** **Car - Road-Position** **DT Driver Training (Extended)**

There's a row of cars waiting to turn left. Can car A stop on the cycle lane while waiting to turn left?

- [A] Yes
- [B] No**
- [C] Yes, as long as there are no cyclists on the cycle lane behind you
- [D] Only until the arrow turns green and the cars in front move away

✓ Correct

Q0509 **All Classes** **Road-position** **Official NZTA / Waka Kotahi**

What do these road markings mean?

- [A] You can overtake another vehicle here
- [B] At any time you can turn right here**
- [C] From the left hand lane you can turn right into the intersection

✓ Correct

Explanation: From this box, you can turn right without holding up cars going straight through, but you will need to give way for the vehicles driving straight through.

Q0510 All Classes Road-position Official NZTA / Waka Kotahi

What does a broken yellow line painted on the road near the kerb mean?

[A] No overtaking

[B] No parking

✓ Correct

[C] Fire hydrant

[D] Bus stop

[E] You may stop here for less than 10 minutes

Explanation: No parking or stopping is indicated by the broken yellow line.

Q0511 Class 1 (Car) Car - Behaviour DT Driver Training (Extended)

What is the best way to merge when 2 lanes are merging into one lane?

[A] Largest vehicle takes priority

[B] Most beat-up vehicle takes priority

[C] Merge like a zip - alternating one from each lane

✓ Correct

[D] Traffic in the right-hand lane has priority

Q0512 All Classes Road-position Official NZTA & DT Driver Training

What is the safest option when you are wanting to turn right on a narrow country road and there is a vehicle coming towards you and traffic behind you?

[A] Before you turn, put your hazard lights on

[B] Let the person behind you know by pumping your brakes

[C] Before you turn right, move to the left of the road and wait until the vehicles have overtaken you.

✓ Correct

[D] Indicate that you are turning right, but stay as far to the left as you can

Explanation: Turning right safely on narrow rural roads It's sometimes safer to move to the left of the road and wait before you turn right, especially on narrow roads if there's a lot of traffic. It might not be the vehicles immediately behind you that are surprised by you stopping, but...

Q0513 Class 1 (Car) Core Official NZTA & DT Driver Training

What position in the lane should you be in when passing parked cars?

[A] Left

[B] Middle

[C] Right

✓ Correct

[D] Doesn't matter

Explanation: Correct road position when riding a motorbike past parked cars When riding past parked vehicles you should be in the right part of the lane, unless you have to give up position for a wide oncoming vehicle. Staying in the right-hand part of the lane still doesn't guarantee that a...

Q0514 All Classes Behaviour Official NZTA / Waka Kotahi

What should you do when passing a horse and rider?

[A] Hoot the horn when you first spot them to warn them you are approaching

[B] Speed by the horse to avoid spooking it

[C] Pass slowly

✓ Correct

[D] Flash your headlights to warn the rider

Explanation: Slow down and overtake gently without revving the engine and be prepared to stop, horses can be easily frightened.

Q0515 **Class 1 (Car)** Car - Behaviour **DT Driver Training (Extended)**

When are you allowed to drive across a cycle lane?

- [A] To turn into a driveway
[B] To turn into a side road
[C] To park

[D] All of the above

✓ Correct

[E] None of the above

Q0516 **Class 1 (Car)** Car - Road-Position **DT Driver Training (Extended)**

When are you likely to see a slow vehicle bay?

- [A] Approaching a roundabout
[B] On a motorway

[C] On a hill

✓ Correct

[D] In the central city

Explanation: Passing lanes and slow vehicle bays
Slow vehicle bays are short stretches of road where an extra lane usually splits off to the left. Traffic moving into the slow vehicle bay should indicate left. Passing lanes are longer stretches of road where an extra lane usually splits off...

Q0517 **All Classes** Road-position **Official NZTA / Waka Kotahi** **Multiple Answers**

When can you use flush medians? Check all that apply.

- [A] To overtake a slower vehicle
[B] Park when loading or unloading goods

[C] Wait and slow down before turning right on the road

✓ Correct

[D] Wait to move into an opening in the traffic after you've turned right

✓ Correct

Explanation: After you've turned right onto the road, you can use a flush median to wait to move into an opening in the traffic flow or to slow down and wait before turning right from the road.

Q0518 **Class 1 (Car)** Car - Behaviour **DT Driver Training (Extended)**

When passing a horse and rider, what should you do?

- [A] Give a quick toot of the horn to warn them you're coming
[B] Pass as quickly as possible to avoid spooking the horse

[C] Slow down, giving them as much room as you can

✓ Correct

[D] Turn on your headlights to warn the rider

Explanation: How to safely overtake a horse and rider
You are more likely to see horses on country roads, particularly around equestrian training facilities or where you see a horse and rider sign, like this: Slow down when passing horses and give them a wide berth. Horse riders have the...

Q0519 **All Classes** Road-position **Official NZTA & DT Driver Training** **Multiple Answers**

When turning left into a driveway, what must you do? Select all those that apply.

[A] Keep to the left side of the road or in the left turn lane

✓ Correct

[B] Check your blind spots and mirrors

✓ Correct

[C] Signal for a minimum of two seconds.

[D] Before you turn, slow down

✓ Correct

[E] give way to pedestrians already crossing

✓ Correct

Explanation: Dangers and obstacles when turning left into a driveway
Turning left into a driveway is a straightforward manoeuvre, but one that requires care in some circumstances. The first consideration is whether the driveway is wide enough for two vehicles, and whether it's marked that...

Q0520 **Class 1 (Car)** **Car - Road-Position** **Official NZTA & DT Driver Training**

When turning right from a two-laned road into a one-way street that has two lanes, which lane must you turn into?

[A] The left lane

[B] The right lane

✓ Correct

[C] It doesn't matter - either lane

Explanation: Turning from a two-way road into a one-way road When turning right from a two-laned road into a one-way street that has two lanes, turn into the right-hand lane. The right hand lane will be the lane closest to you. It also means that drivers turning left can turn left while you...

Q0521 **All Classes** **Road-position** **Official NZTA / Waka Kotahi**

When you see a white reflector (cat's eye) placed on the road, what does it mean?

[A] Passing is not permitted

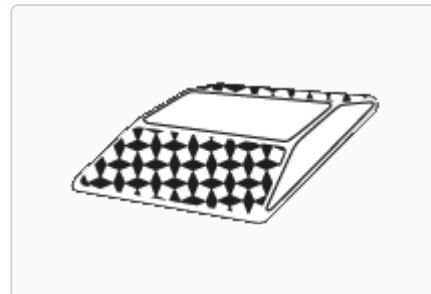

[B] There is a fire hydrant

[C] The left side of the road is indicated by white marks

[D] The centre line is marked in white

✓ Correct

Explanation: To the left of the centre line of the road is marked with white cat's eyes.

Q0522 **All Classes** **Road-position** **Official NZTA & DT Driver Training**

Where should your vehicle be positioned when you're driving on an unlaned road?

[A] In the centre of the road

[B] As far to the left of the road as is safe

✓ Correct

[C] 1.5 metres from the left of the road

[D] Anywhere, as long as you can see what's coming

Explanation: What is an unlaned road? An unlaned road is a road where there is no centre line marking the lanes. It might be that the road is too narrow to form two lanes of sufficient width, the road is metal/gravel, or it's a secondary rural road with light traffic. When driving on an...

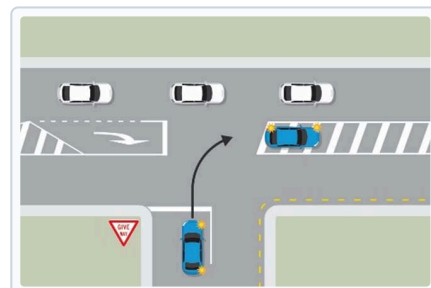

Q0523 **Class 1 (Car)** **Car - Road-Position** **DT Driver Training (Extended)**

You are driving the blue car and want to turn right. Can you use the flush median and wait for a safe gap in the traffic?

[A] Yes

✓ Correct

[B] No

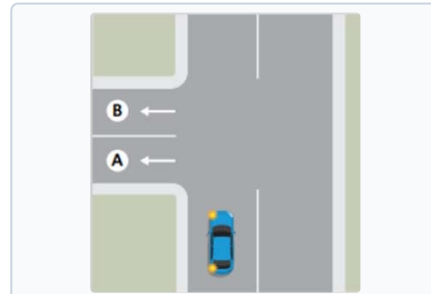

Q0524 **Class 1 (Car)** **Car - Road-Position** **DT Driver Training (Extended)**

You are turning left. Which lane must you turn into?

[A] Left lane (A)

✓ Correct

[B] Right lane (B)

Q0525 **All Classes** **Core** **Official NZTA & DT Driver Training**

You must be able to stop in half the length of clear road when driving at night on a road with lanes so you can see in front of you. True or false?

[A] TRUE

[B] FALSE

✓ Correct

[C] Only when the driving conditions are poor

Explanation: Driving at night on a laned road When driving at night on a road with lanes, you must be able to stop in the full length of clear road you can see in front of you. The reason for the difference between a laned and unlaned road is this: If you are driving in a road with lanes,...

Core

Official NZTA & DT Driver Training

You're coming up to a one-lane bridge, what should you do?

[A] You can continue to cross if you reach the bridge first

[B] Flash your lights and slow down to warn oncoming cars if you don't have the right of way

[C] Slow down, be prepared to stop and only proceed if the bridge is clear of oncoming traffic

✓ Correct

[D] Only proceed if you have a blue sign with a white arrow in your direction

Explanation: One-lane bridges When you come up to a one-lane bridge you should slow down, be prepared to stop and only proceed if the bridge is clear of oncoming traffic. New Zealand has a large land mass and road network (over 94,000km of roads) and a small number of people to pay for...

Emergencies & Road Safety

26 Questions

Q0527 All Classes Emergencies Official NZTA & DT Driver Training

A blue accident sign can be put up by who?

[A] A fire officer

[B] A police officer

✓ Correct

[C] A member of council

[D] Anyone

Explanation: Who can place an Accident or Crash sign on the road? Only a police officer can place an accident sign on the road. Other road users can place a warning triangle on the road to inform people that there's an accident. If there is an accident sign it could be that there is debris...

Q0528 All Classes Emergencies Official NZTA / Waka Kotahi

A reflectorized triangle on the side of the road means what?

[A] Approaching is a breakdown or crash

✓ Correct

[B] There are roadworks approaching on the right

[C] There's a concert ahead

[D] There's a one-way bridge ahead

Explanation: A reflectorized triangle will have been carried by the vehicle that has broken down or had an accident, or be from a vehicle assisting.

Q0529 Class 1 (Car) Car - Behaviour DT Driver Training (Extended)

All the following are ways you can check for hazards before reversing. What's the best way, though?

[A] Check your wing mirrors and rear-view mirror

[B] Look over your shoulder

[C] Get out and walk around the vehicle

✓ Correct

[D] Be sure any reversing sensors or cameras are activated (if your vehicle has them)

Explanation: Checking for hazards before reversing Setting your mirrors Your wing mirrors should be set so that you can only just see the side of your vehicle in them, and you can see back up the road as far as possible. Your rear-view mirror should be set so that the rear window fills it....

Q0530 All Classes Emergencies Official NZTA / Waka Kotahi Multiple Answers

Hazard lights should be used when? Select all that apply.

[A] You've come to slow moving traffic and have had to stop quickly, there's a chance another vehicle might not see you and run into the back of you

[B] You had a flat tyre and are changing it on the side of the road

✓ Correct

[C] Your vehicle broke down and is getting towed

✓ Correct

[D] You've stopped on a yellow dotted line to pick something up

Explanation: You shouldn't park on a yellow line and tapping the brakes while in slow moving traffic will flash the stop lights to warn other drivers.

Q0531 All Classes Emergencies Official NZTA & DT Driver Training

If an ambulance comes up behind you with flashing red lights and it's siren is on, what should you do?

[A] Come to a stop as fast as possible

[B] The ambulance driver will find a way to get by you, keep driving at the same speed

[C] Drive as fast as you can safely so that you're not holding the ambulance up

[D] Slow down or stop if necessary and pull over to the left

✓ Correct

Explanation: When you hear a siren or see red flashing lights from an ambulance or fire engine, if they are following you, you must slow down and pull over. Stop if necessary. If a police car is following you with its lights flashing (which will be red and blue), then you must stop unless it...

Q0532 Class 1 (Car) Car - Core Official NZTA & DT Driver Training

If anybody is hurt in a crash, the driver must tell a police officer as soon as possible but within how many hours?

[A] Within 24 hours

✓ Correct

[B] Within 36 hours

[C] Within 48 hours

[D] There's no need to tell the police - just make sure the injured people are OK

Explanation: Informing police after a vehicle accident or crash You must tell a police officer within 24 hours if you hurt someone in a crash. After a crash the first thing you need to do is stop. If your vehicle is mobile, move it to a safe place and put your hazard warning lights and...

Q0533 All Classes Emergencies Official NZTA / Waka Kotahi Multiple Answers

If glass falls on the road from your vehicle, what are you to do? Check all that apply.

[A] You don't have to do anything, the council road workers will eventually move it

[B] If it can be done efficiently and safely then you may remove the glass yourself

✓ Correct

[C] Report it to the police if you can't move it because you are physically unable.

✓ Correct

Explanation: If you can't remove glass from the road yourself, then you must report it.

Q0534 Class 1 (Car) Car - Emergencies DT Driver Training (Extended)

If you are a driver involved in a crash, what is the FIRST action you should take?

[A] Call the police

[B] Stop and check to see if anyone is hurt

✓ Correct

[C] Call for an ambulance

[D] Leave the scene to tell someone

[E] Call a family member or friend

Explanation: First actions after a car crash If you are involved in a crash and not badly hurt, the first thing to do is check for other people's injuries. Then see if your vehicle can be moved out of danger once you have checked on other vehicle occupants and called emergency services....

Q0535 All Classes Emergencies Official NZTA / Waka Kotahi

If you have a rear tyre blowout, what could happen?

[A] The back end will sway away from the side of the blowout

[B] The back end will sway towards the blowout

[C] The back end will pull towards the side of the blowout

[D] The front end will pull to the opposite side of the blowout

[E] The back end will sway from side to side

✓ Correct

Explanation: Likely what will happen is the back end will swing out first on the same side as the blowout, but still sway from side to side.

Q0536 All Classes Behaviour Official NZTA / Waka Kotahi

Of the four hazards marked, which one is most likely to require you to take urgent action if you are the driver of the blue car?

[A] The car on the other side of the road turning left

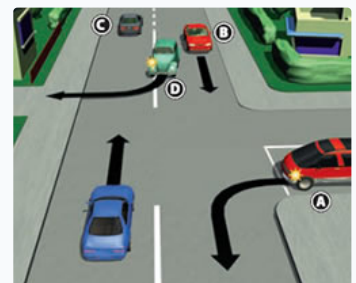

[B] The car approaching you

[C] The car you are following

[D] The car on the other side of the road turning right

✓ Correct

Explanation: You should be prepared to slow down or stop, the car turning right on the other side of the road may misjudge the distance between car C and your car.

Q0537 All Classes Behaviour Official NZTA / Waka Kotahi

Of the four hazards marked, which one is most likely to require you to take urgent action if you are the driver of the blue car?

[A] The person hitching a lift (A)

[B] The child on the side of the road (B)

✓ Correct

[C] The parked car (C)

[D] The parked car that is partially obscured from your view (D)

Explanation: This child's attention is on the child on the side of the road. As you can see children are very unpredictable around roads.

Q0538 All Classes Behaviour Official NZTA / Waka Kotahi

Of the four hazards marked, which one is most likely to require you to take urgent action if you are the driver of the blue car?

[A] The cyclist

✓ Correct

[B] The car parked on your side of the road

[C] The car coming towards you

[D] The pedestrian on the opposite footpath

Explanation: Correct. The cyclist may turn in front of you as it's already on the road.

Q0539 All Classes Behaviour Official NZTA / Waka Kotahi

Of the four hazards marked, which one is most likely to require you to take urgent action if you are the driver of the blue car?

[A] The parked car

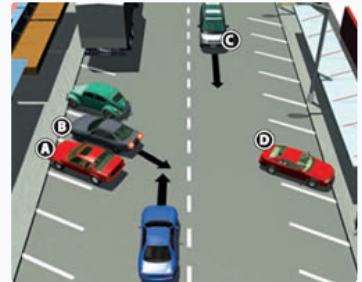

[B] The reversing car

✓ Correct

[C] The car coming towards you

[D] The car parked on the opposite side of the road

Explanation: The main hazard in this scenario is the reversing car. You should be prepared to stop as you may be in the car's blind spot.

Q0540 Class 1 (Car) Car - Emergencies Official NZTA & DT Driver Training Multiple Answers

The bonnet of your vehicle lifts up while you are driving and you cannot see. What should you do? Select all that apply.

[A] Brake suddenly so you don't leave the road

[B] Look through the gap underneath the bonnet or out of the side window

✓ Correct

[C] Signal, brake smoothly, and pull to the side of the road, then refasten the bonnet

✓ Correct

[D] Turn on your headlights and look out of the side window

Explanation: What happens if your bonnet latch fails? It's extremely unlikely that your bonnet latch or catch will fail. Almost all bonnet catches have a two-stage release so that if the first stage fails it catches on the second stage. However, it's not unheard of as you can see in this...

Q0541 All Classes Emergencies Official NZTA & DT Driver Training

What is the FIRST action you should take if you are a driver involved in a crash?

[A] Contact the police

[B] Look and see if there are any injuries

✓ Correct

[C] Call the ambulance

[D] Run away from the scene to go and tell someone

[E] Contact a family member or friend

Explanation: First actions after a car crash If you are involved in a crash and not badly hurt, the first thing to do is check for other people's injuries. Then see if your vehicle can be moved out of danger once you have checked on other vehicle occupants and called emergency services....

Multiple Answers

What is the safest thing to do when you are driving on a country road at night and your vehicle headlights suddenly go out? Select all that apply.

[A] Slow down and prepare to stop somewhere safe

✓ Correct

[B] Stop on the right so you are facing cars going by

[C] Turn your hazard lights on

✓ Correct

[D] Continue driving slowly with your hazard lights on

[E] Continue driving with your interior lights on

Explanation: If your lights are out, you won't be able to see where you are going and you won't be visible to other drivers. You should never park on the right facing traffic.

Q0543

All Classes

Emergencies

Official NZTA / Waka Kotahi

What should you do if you are driving past a line of parked cars and you notice a ball bouncing out into the road ahead?

[A] It doesn't matter if it hits the car, just keep driving on your side of the road

[B] Keep on your side of the road and stop safely

✓ Correct

[C] Try to avoid the ball by immediately swerving to the side of the road

[D] Flash your headlights

Explanation: Swerving to the other side of the road can create a hazard while hitting the ball might send it into the path of another vehicle.

What would happen if you were to have a front tyre blowout?

[A] The back end will sway to the right side of the blowout

[B] The back end will sway to either side of the blowout

[C] The front end will pull towards the side of the blowout

✓ Correct

[D] The front end will pull to the opposite side of the blowout

Explanation: When the wheel has a blowout, it is a smaller radius so this makes the car pull in the direction of the blowout and it becomes much more difficult for the wheel to rotate.

Multiple Answers

When reversing your vehicle, how should you look for hazards? Check all that apply.

[A] Check your rear-view and wing mirrors before reversing

✓ Correct

[B] Look over your shoulder

✓ Correct

[C] Get out and walk around the vehicle

✓ Correct

[D] If you have any reversing sensors or cameras make sure they are turned on

✓ Correct

Explanation: These are all acceptable ways to check for hazards before reversing.

Emergencies

Official NZTA / Waka Kotahi

When should you pull over to let an ambulance or fire engine pass you?

[A] If it is travelling faster than you would like to

[B] You can speed up, you don't need to let it past you

[C] Only if it's red flashing lights and/or siren is flashing

✓ Correct

[D] You must allow it to pass you at all times

Explanation: You will need to pull over safely if you see a fire engine or ambulance with its red flashing lights and/or siren on and let it pass.

Q0547 All Classes Emergencies Official NZTA / Waka Kotahi

When you see two red lights flashing outside of a fire station, what do you do?

[A] Prepare to stop by slowing down in case a vehicle leaves the fire station

[B] Remain stopped until the lights are no longer flashing

✓ Correct

[C] Slow down to 25kph and then proceed if it is safe to do so

Explanation: You must stop until they have stopped flashing, as red lights may operate outside of airports and fire stations.

Q0548 Class 1 (Car) Car - Emergencies DT Driver Training (Extended)

Which one of the following is most likely to cause an emergency situation?

[A] Practicing skids on a quiet road

✓ Correct

[B] Towing a trailer

[C] Driving defensively

[D] Not using your full beam headlights when driving in rural areas at night

Explanation: Reckless driving Reckless driving is driving without consideration for other road users or yourself. A number of driving practices can be considered reckless driving: Road rage Inappropriate speed Driving after drinking or taking drugs Dangerous overtaking Not paying attention...

Q0549 Class 1 (Car) Car - Behaviour DT Driver Training (Extended)

You are the driver of the blue car. Of the four hazards marked, which one is most likely to require you to take urgent action?

[A] The cyclist

✓ Correct

[B] The car parked on your side of the road

[C] The car coming towards you

[D] The pedestrian on the opposite footpath

Explanation: Identifying hazards when approaching a pedestrian crossing Cyclists can be blown off their path, or a person in the parked car could open the door in front of the cyclist. While the cyclist is the main hazard, let's take a look at the other hazards in this image and what could...

Q0550 Class 1 (Car) Car - Behaviour DT Driver Training (Extended)

You are the driver of the blue car. Of the four hazards marked, which one is most likely to require you to take urgent action?

[A] The parked car

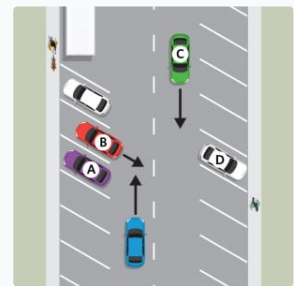

[B] The reversing car

✓ Correct

[C] The car coming towards you

[D] The parked car on the opposite side of the road

Explanation: Identifying hazards when driving past parked cars Let's take a look in more detail at the different hazard in this image. Vehicle A doesn't look like it will move, so the hazards A creates are that it can hide pedestrians and pets, and it reduces the vision of the driver in...

Q0551 Class 1 (Car) Car - Behaviour DT Driver Training (Extended)

You are the driver of the blue car. Of the four hazards marked, which one is most likely to require you to take urgent action?

[A] The car turning left onto the other side of the road

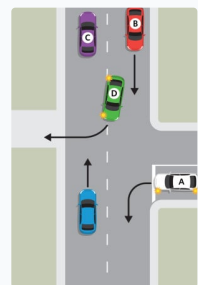

[B] The car coming towards you

[C] The car you are following

[D] The car on the other side of the road turning right

✓ Correct

Explanation: Identifying hazards at an intersection This is a scenario you could encounter almost every day if you drive in urban areas. Let's take a look at the hazards. In general, this is an intersection with good visibility. There's nothing on the pavement to hide pedestrians, and the...

You are the driver of the blue car. Of the four hazards marked, which one is most likely to require you to take urgent action?

[A] The man on the opposite side of the road

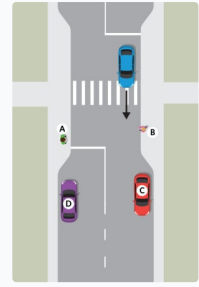

[B] The child on your side of the road

✓ Correct

[C] The parked car on your side of the road

[D] The parked car on the opposite side of the road

Explanation: Identifying pedestrian hazards on the road Looking at the stretch of road in the diagram there are several possible hazards. The hitchhiker at A is hitching in a place where drivers should have their attention elsewhere: on the pedestrian crossing. Any driver picking the...

Q0553 All Classes Parking Official NZTA & DT Driver Training

At an intersection where no broken yellow lines have been marked, how close can you park your vehicle?

[A] 11 metres

[B] Six metres

✓ Correct

[C] 5 metres

[D] Two metres

Explanation: Minimum parking distances at intersections, pedestrian crossings, railways and driveways Permitted parking distances vary with the type of accessway or object. For example, while you can park 1m away from a driveway, you have to be at least 6m away from an intersection unless...

Q0554 Class 1 (Car) Car - Parking Official NZTA & DT Driver Training

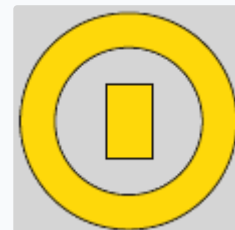

Can you stop or park your vehicle over a fire hydrant if someone stays with the vehicle who can move it?

[A] Yes

✓ Correct

[B] No

Explanation: Parking where there is a fire hydrant A fire hydrant is a place where the fire service can draw water from the city supply to fight a fire. They are most commonly a rectangular yellow plate in the ground under which a hose can be connected. In the diagram above the yellow...

Q0555 All Classes Parking Official NZTA / Waka Kotahi

Does a broken yellow line painted close to the edge of the road indicate that you may stop or park your vehicle there at any time?

[A] Correct

[B] Incorrect

✓ Correct

Explanation: A broken yellow line painted near the edge of the road means no stopping or parking at any time.

Q0556 All Classes Parking Official NZTA / Waka Kotahi

This sign indicates what?

[A] Motorcycles and other private vehicles are allowed to park to the left of the sign

[B] Motorcycles are the only vehicle that are allowed to park left of the sign

✓ Correct

[C] Motorcycles are only allowed to park left of the sign

Explanation: To the left of the sign, motorcycles can park here. No other vehicle can park here.

Q0557 All Classes Parking Official NZTA & DT Driver Training Multiple Answers

What does the Road Code suggest you do when parking downhill on a steep road? Select all that apply.

[A] Turn the wheels towards the kerb

✓ Correct

[B] Turn your wheels away from the kerb

[C] Put your car in park if it has an automatic transmission or in reverse gear if it has manual transmission

✓ Correct

[D] Turn your low beams on

[E] Put your handbrake on

✓ Correct

Explanation: Parking on a hill This section of the Road Code has been around for years. The reason you would do all of this is that older style handbrakes (which are the first line of resistance, and hold the rear wheels) have a tendency to slightly loosen after being pulled on if the...

Q0558 All Classes Parking Official NZTA / Waka Kotahi

What does this sign indicate?

[A] After you pass the sign you can stop

✓ Correct

[B] You cannot stop after this sign, only before

[C] Within 20 metres of this sign you can park

[D] You can't stop at all until parking permission is provided

Explanation: The end of a no-stopping zone or clearway is indicated by this sign.

Q0559 All Classes Parking Official NZTA / Waka Kotahi

What does this sign mean?

[A] In the next 4km you can stop anywhere

[B] In the next 4km you must not stop anywhere

✓ Correct

Explanation: The distance shown under the sign is the distance you must stop.

Q0560 All Classes Parking Official NZTA / Waka Kotahi

What does this sign mean?

[A] You are only allowed to stop to drop people off between 8 and 9am

[B] Between 7 and 9am you can park here

[C] You are not permitted to park here between 7 and 9am

✓ Correct

Explanation: This sign means that you must not stop here between the times indicated. If you stop, your car may be towed and you will have to pay a towing fee to get your car back.

Q0561 All Classes Parking Official NZTA / Waka Kotahi

What does this sign mean?

[A] As long as you are stopped for 5 minutes or less then you are fine to stop here

[B] As long as a person remains with the car to move it you can stop here

[C] If you have children in the car then you can stop here.

[D] You can stop here only if you have a mobility parking permit

✓ Correct

Explanation: You must display a mobility parking permit on your front window in order to park here. If you fail to do so you may be fined or you may have your vehicle towed.

Q0562 All Classes Parking Official NZTA / Waka Kotahi

When are you permitted to park your car on the right hand side of the road?

[A] Only on a one-way street

✓ Correct

[B] If there are marked bays

[C] If you leave your park lights on then you can park on the right anytime

[D] If you are dropping passengers off

[E] in the city if there is no traffic coming

Explanation: If the marked bays are perpendicular to the road then answer b is correct. To ensure that you are not facing traffic, you must never park on the right.

Q0563 All Classes Parking Official NZTA / Waka Kotahi

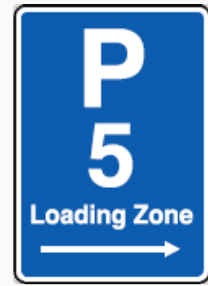

When can you park your vehicle on a loading zone?

- [A] Never - they're only for commercial vehicles
 [B] Only weekends and after business hours you can park a car there

[C] You are only able to park there for the amount of time that is shown on the sign as long as you are unloading ✓ Correct

- [D] It's between midnight and 5am
 [E] At all times during business hours (8am to 6am)

Explanation: It's okay for a vehicle to stop here to unload, but it must not be left unattended for more than five minutes. If the vehicle is attended and is being unloaded it can remain in the car park for more than 5 minutes. If the sign said '5MIN MAXIMUM' then the vehicle would have to...

Q0564 All Classes Parking Official NZTA / Waka Kotahi

When you are driving a private vehicle can you stop on a bus stop?

- [A] Yes, if that vehicle has seven or more seats
 [B] Only if it's outside of normal bus working hours

[C] No. Only buses are permitted to stop here. ✓ Correct

- [D] Yes, if it's not a commercially licensed vehicle
 [E] Yes, when picking up passengers

Explanation: Buses are the only vehicles permitted to stop at a bus stop. You may be fined otherwise.

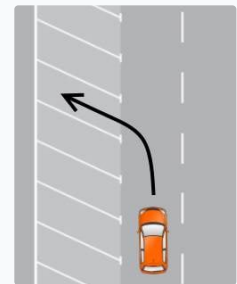

Q0565 Class 1 (Car) Car - Parking DT Driver Training (Extended)

You are driving the orange car. There are no other cars around. Do you have to indicate to pull into this angled parking space?

[A] Yes ✓ Correct

[B] No

Explanation: Why do we need to indicate? There are two reasons why you must indicate every time you make a manoeuvre, even if you think there's no one around. You might not have seen every road user It maintains the habit of indicating The Road Code says that you must indicate for three...

Q0566 All Classes Parking Official NZTA / Waka Kotahi

You can park your vehicle over a fire hydrant, when?

- [A] It is never permitted
 [B] Anytime you wish

[C] If there is someone who can stay with the vehicle that is able to move it in case of an emergency. ✓ Correct

Explanation: You are permitted to park your vehicle on or within 50cm of a fire hydrant (if someone who can move the vehicle stays with it).

Q0567 All Classes Parking Official NZTA / Waka Kotahi

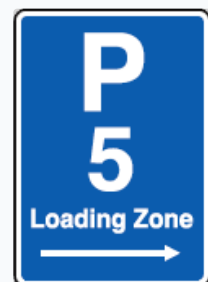

You may park your vehicle on a loading zone when?

- [A] They're only for commercial vehicles
 [B] On weekends and after business hours you can park here

[C] For the purposes of unloading you can park at any time, but only for the amount of time shown on the sign ✓ Correct

- [D] Only between 6am and midnight
 [E] At all times during business hours (8am to 6am)

Explanation: For the purposes of unloading you can park any vehicle in a loading zone. However, you must not park a private vehicle there if there is an additional sign underneath that specifically only permits goods vehicles.

New Zealand's road signs are:

[A] Imperial (mph and miles)

[B] Metric (km/h and kilometres)

✓ Correct

Explanation:

The maximum speed on New Zealand's roads is 100kph. If you've come from countries where the maximum speed is 70mph then you will need to allow for your journey taking longer. Remember also that New Zealand's roads are sinuous and winding and you won't necessarily be able to...

You're driving at 100kph and see an accident or crash sign. What speed must you slow down to?

[A] 20km/h

[B] 50km/h

[C] 70km/h

[D] 100km/h

✓ Correct

Explanation:

Speed limits at road accident sites If you see an accident sign then emergency services will be attending as only a police officer can put this sign up . Other road users can use warning triangles to warn people that there is an accident ahead. An accident sign looks like this:...
